

La Diva
NON-RUSTABLE
CORSET

Ready for the new Costume

For any woman of ordinary height and weighing between 115 and 140 lbs., the La Diva 718 is the ideal foundation for this season's costume, and makes possible a perfect fit and an up-to-date figure.

This year's D. & A. and La Diva Models are great successes; they are comfortable, support the figure well, and give that supple, graceful, almost corsetless effect which is the aim of the fashionable "modistes".

Made specially for Canadian Women after long studies of Canadian figures in one of the largest and best equipped corset factories in the world the D. & A. and La Diva corsets offer style and comfort superior to imported corsets yet at from \$1.00 to \$5.00 per pair less.

There is a model for every figure. Our catalogue sent free on request, will help you to choose the best for yours.

Hr. Grace Notes.

Crops about here are growing well, especially the corn, and farmers feel certain that the season will be a very profitable one.

The Cable Company has men employed to-day taking up the cable along the street that was put down last year. It is, we suppose, in the absence of a Town Council (to see to it that our main street is not going to suffer on this account, and besides being levelled off a sufficient sum should be charged the company to pay place our street in the same good condition it found it.

Our friend the Daily News correspondent, being no doubt now assured that the cable will be removed from Harbor Grace, will not be the last to see the wisdom of making the company place our street in the same good condition it found it.

Yesterday, although cool, was a fine day, and many people went countrywards, where the day was spent very pleasantly. It is a pity we do not get in the country oftener, seeing the beauties of nature, enjoying the bracing air, and benefiting in body and probably every other way by a visit to the home of the birds.

Mr. H. H. Archibald has a splen-

did field of turnips at his farm on the Race Course. His help are now engaged "thinning" them, and leaving an opportunity for the turnips to "thicken" themselves.

Rev. F. C. Simpson, of Cape Breton, has been appointed by the Halifax Presbytery to take charge of St. Andrew's Church here for the next three Sundays. Mr. Simpson is well known here, and his friends will be pleased to welcome him.

A friend who is not anxious to have his name mentioned, showed us the first new potatoes for the season, on Monday. They were smaller than hen eggs, and didn't appear to be extra dry. All we can say about them they were potatoes. —COR.

Hr. Grace, July 17, 1913.

The racer Nina, which will be used by the C. L. B. crew as a practice boat, was brought to the lake last evening and launched. At 7 o'clock a large number of members and supporters of the brigade met at Mullaly's wharf where they took the boat and brought it on their shoulders to the pond. A squad of O. L. B. engineers accompanied the procession.

Minimise The Loss.

Practically farmers may easily minimise the loss, due to a backward and cold season, by the judicious use of Sulphate of Ammonia as a fertilizer.

Sulphate of Ammonia contains over 20 per cent of nitrogen, as against 15 per cent in Nitrate of Soda, and is therefore more than 25 per cent better than nitrate of soda as a means of quickening and increasing the growth of crops.

The use of Sulphate of Ammonia has increased enormously of late years and it is recognized to be the most valuable fertilizer obtainable. By its judicious use the production of root crops per acre may be doubled, and the growth of late crops stimulated.

We invite the attention of Farmers to our special pamphlet on the best methods of using Sulphate, copies of which will be forwarded free to any address on application.

The price of Sulphate is moderate, and our terms are accommodating. **ST. JOHN'S GAS LIGHT COMPANY.**
Board of Trade Building, St. John's, July 9, 1913.

INVERMORE'S REPORT.—The Reid Company received this message from Capt. Keah, of Indian Harbor: "Arrived at Indian Harbor 11:35 a.m. (17th). Light S.E. wind, dense fog. A good sign of fish at Horse Harbor and Indian Harbor."

Cable News.

Special to Evening Telegram.
SALISBURY, July 17.
Major Hewson, of the Royal Artillery Corps, was killed here to-day by falling off his monoplane.

NEW YORK, July 17.
Hugo Melsner, a young helper in the Brooklyn ice plant, was frozen to death to-day in a sealed compartment which he entered to adjust the machinery.

LONDON, July 17.
It is stated that the marriage of Prince Arthur of Connaught to the Duchess of Fife, will be celebrated in October, before the Duke of Connaught returns to Canada to resume the duties of Governor-General.

SCHNEIDEMUEHL, July 17.
The military dirigible, Baron von Schneidemuhs, which was acquired some time ago by the German Army, was taken from her moorings here by a gale of wind this morning. Neither pilot nor crew were on board, but the sentry on duty guarding the balloon was caught up in the cordage, and carried to a height of 800 feet, whence he fell to the ground and was killed.

BERLIN, July 17.
The German Foreign Office denied to-day that Germany demanded the United States Government to protect Germany's interests in Mexico. Germany has not taken any diplomatic action at Washington, and the Foreign Office is not aware whether Count von Bernstorff, Germany's Ambassador, has discussed the Mexican affair with Bryan, and if so, it was of an unofficial character.

TOKIO, July 17.
Considerable publicity has been given here to a statement signed by two missionaries, W. A. Wilson of the Methodist Episcopal Church, and J. G. Dunlop, of the American Presbyterian Church, affirming that in company with a competent physician they examined a number of Koreans acquitted by the Appeal Court in connection with the recent conspiracy trial, at which they were charged with plotting against the life of the Governor General. They found the men bore marks, which undoubtedly resulted through torture from burning, beating and kicking.

LONDON, July 17.
That the Government intends to let the country have the final word on Home Rule was intimated during a debate in the Lords last night by Lord Lansdowne's declaration that the Upper House would not consider the Bill before a general election. St. Ledger said there would be none before 1914, by which time the bill would have been passed a third time by the Commons, and signed by the King, but there would be an election after the Irish Parliament had actually been established. The Liberal Government would probably pass the Bill by May. It would then be submitted to the Lords. It returned to power again the Government would expect the Lords to accept the position, but if the Unionists were successful, it would be for them to repeal the law, or do what seemed to them best under the circumstances.

LONDON, July 17.
Winston Churchill announced in the Commons this afternoon that coal oil will be used in the Imperial Navy this year, though the oil will be burned as auxiliary fuel. The Admiralty has opened negotiations with the Eagle Company for a long term contract for the supply of oil fuel. Churchill declared over 100 torpedo boat destroyers, being built for the Navy, owing to the rejection of Canada's gift of three dreadnoughts, will burn oil fuel. Battle-ship building operations are being rushed as a result of the rejection of Canada's Naval Bill. The Government, said Churchill, would accelerate the construction of the three warships, which would be ready the third quarter in 1915. He added he did not think the question of Canadian contribution in defence of the Empire was closed. There was no reason to suppose that Britain would be left to face the emergencies in the future, unaided. There was an overwhelming consensus of opinion in Canada, he declared, that action should be taken in one form or another, and by the end of the first year the Admiralty would be in a better position to know whether further acceleration or direct addition to the programme would be forced on them. In the meanwhile the Navy would be increased by a new destroyer every week for the next nine months, and by a light cruiser every thirty days for the next year, and by a super-dreadnought every forty-five days for the next eighteen months.

BIG REDUCTION. TWENTY PER CENT OFF SUMMER GOODS AT JACKMAN'S.

We have a large stock of Boys' and Men's Straw Hats; also Boys' Cricket Pants, Caps, Belts, Hosiery, Washing Suits and Kosmo's, and also Men's and Boys' Summer Underwear. All these will be sold at a reduction of 20 per cent for cash. Our reasons for this reduction are, that owing to a shorter summer season it will pay us better to reduce them and get the ready cash than to carry them over to another season, when they may be out of style. Mail Order patrons will get this reduction if cash accompanies order. **JACKMAN THE TAILOR, LTD.**
The Mail Order House.
