NURSERY HYGIENE.
The nursery is the most important
room in the house; therefore its hy-
giene must be above suspicion. Many
parents fall into a fallacy regarding
modern heating methods, and while
admitting the comfort, cleanliness and
convenience of the Gas Fire, call its
suitability for nursery use into ques-
tion on the grounds of hygiene.
This idea is wrong. The modern
Gas Fire is more hygienic than the
coal fire, has all its good points with-
out its bad ones. The Gas Fire gives
radiant heat and assists ventilation.
All the products of combustion are
carried off by the flue connection to
the chimney. There is no smoke,
dust or ashes, and for a sick room it
is invaluable.
The modern ventilated Gas Fire
produces radiant heat, a natural heat
similar to that given by the sun, and
adds hygiene to its many other ad-
vantages.
For particulars of the new Radiant
Fires, phone 97 or call at the Gas
Co.'s Showroom. apr10.eod.11

Good material in the hands of good workmen must
necessarily produce an article of exceptional merit.

Matchless Paint

is made of the very best material obtainable. Our
workmen are Newfoundlanders (and as the Newfound-
lander in foreign countries has proven himself equal
to the best), it therefore follows that Best material
plus Best workmen equals Best Paint.
