TO-DAYS MESSAGES.

POINCARÉ'S REPLY SUPPOSED TO HAVE THE WAY TO ANOTHER CONFERENCE.

LONDON, Aug. 23.
The general view here is that another Allied Conference is one of the principal objects that M. Poincaré is aiming at in the latest exposition of France's policy, but in this connection it is pointed out that Premier Baidwin in his recent statement made the assertion that the British Government was not in the mood for much further delay in settling the issue. John R. Clynes, one of the leading Labour Members of Parliament expressed the opinion to-night that taken as a test of France's desire to get reparations settlement instead of permanent dominion over a large part of German territory, M. Poincaré's note was disappointing. The Belgian Government's reply is expected to reach London to-day, and in view of Belgium's previous efforts to reconcile Anglo-French differences, hopes are expressed that Belgium's new views may further modify the situation. The morning newspapers commenting on Premier Poincaré's note, readily acknowledge and express their appreciation of his courteous and friendly tone. The majority of them however, are disappointed over the substance of the note, and declare that in effect it leaves things just where they are.

FRENCH PUBLIC APPROVE POINCARÉ'S REPLY TO LORD CURZON.

PARIS, Aug. 23.
Premier Poincaré's reply to Marquis Curzon's Reparation note seems to suit the French press and strike a popular chord in public opinion. The few members of Parliament in town united in approving the Premier's stand. The part of the note that appealed to political leaders was that in which M. Poincaré asked Lord Curzon whether France would be treated by her Allies more severely than Great Britain wanted to treat Germany, their former common enemy. Great stress was laid on the assertion that if British theory prevailed, Germany would emerge from calamity of their own making with no inferior debt and foreign debt of only fifty billion marks, with an annual interest charge much less than that France is made to bear. At the same time, it was declared, Germany has profited from the stoppage work in the Ruhr, by putting her industries in such shape that when settlement was finally reached she would be able to compete more sharply than ever with those countries which suffered at her hands. Comment in official circles indicated plainly that Premier Poincaré anticipates a continuation of the discussion with British Cabinet.
