

Job Printing of every description executed cheaply and promptly at the Mercury Steam Printing House, Macdonnell Street, Guelph. An immense assortment of the latest and most elegant designs in plain and ornamental type has just been added to our previously large stock, rendering our establishment the most complete office in all its appointments to be found West of Toronto. Our charges are the lowest, and our work the best in the country.

FISH PROPAGATION.

An effort is being made in the city of Hamilton with a view of propagating salmon in Burlington Bay. As these fish always return to their place of nativity after they have arrived at a mature age in the course of a few years the bay would be swarming with them, were the ova of a few salmon introduced next summer into a secure place in the Bay.

This is a subject which has been pressed upon the public attention for some years, but hitherto little has been done to carry out the ideas proposed by men who have given great attention to pisciculture. The matter was brought prominently to the notice of most of our County Councils about two years ago by a gentleman in Newcastle, but beyond the passage of complimentary motions to the gentleman alluded to for the excellence of his science, no further action has been taken that we are aware of, and we are therefore pleased to see that something definite is to be done by the Hamilton authorities in the way of fish culture.

The light in which the business of fish propagation is now received is solely with reference to the supply of fish as food. That our streams may be re-stocked, it is absolutely necessary that spawn shall be deposited where the young can be hatched and preserved, or at least that a sufficient time shall elapse for the propagation and growth of those varieties which have not yet been exterminated. To effect this the practice of allowing every summer idler to fish in ponds situated on other people's property, must be put a stop to. Boys and sportsmen do not seem to realize that there is as much property in fish as there is in cattle, and that salmon, trout, or suckers caught in a pond on private property belong of right to the owner of the soil. Of all the manly recreations, fishing is the most laziest and most effeminate sport to be had; and it is too much the custom of gentlemen from Toronto and other large places to have what they call a few days' recreation in the country, which in a majority of instances, means lying down beside some stream for several hours, catching fish for mere pastime. If these city gentry want what deluded people call "sport," they ought to be made to pay at least a small tax for it. Our streams are rapidly becoming depleted through the waste exhibited by those who wantonly destroy their inhabitants. Legislative action must be taken in the protection of fish before long, unless this source of profit and sustenance for the people is to be allowed to die out for want of a little energy and foresight on the part of those who ought to be overseers of the country's welfare.

HARD ON MR. HOWE.—The N.Y. *Albion* commenting on the change which has come over Mr. Howe, says: "Between Mr. Howe, the independent leader who has been convinced of the fallacy of the views he has hitherto advocated, and Mr. Howe, the paid defector of the government he was so recently denouncing, there is a broad distinction, and one which does not tell in favour of his present position. It were better had Mr. Howe gone to the country first, secured his election, and then accepted a Cabinet position. His present advocacy would then have been less open to the charge of undue influence, and his chances of success greater. As it is, these are extremely doubtful, and although we may wish him success as the representative of the Union cause, we cannot shut our eyes to the fact that that cause has been placed in jeopardy by the injudicious action of those members of the Dominion government who have undertaken to solve the difficult Nova Scotia problem."

NOT SATISFIED.—In the Quebec Assembly, Tremblay has given notice of the following motion:—"That this House, while approving of the qualities for which Mr. C. J. Byrdges is distinguished, cannot but express their regret at his appointment, as a Commissioner on the Intercolonial Railway, he being at the head of a Company which is said to be largely indebted in the public treasury, and at the same time is powerful enough to control to a certain degree the action of the Government. That the silence of this House, under these circumstances, where such great interests are concerned, might be considered as an indication of approval of Mr. Byrdges' appointment, which this House considers prejudicial to the interests of the Province of Quebec, and the Dominion generally. Consequently, this House feels compelled to protest against such appointment."

"Life's path is rough," the old man said,
"I'm weary, I would that I were dead."
I asked what ailed him, and he sadly sighed
In humbling accents he to me replied,
"It is not that I am feeble, old, or blind,
'Tis a tight hood, and an infernal COIN."
NOTE.—Those who are similarly afflicted will please call E. Harvey & Co's stand box of Briggs' Curative, and in a jiffy his or her Carus, with all its torments, will disappear. For sale by all druggists. E. H. Wright & Co, agent for British possessions. The summer is gone, and the autumn is past, Jolly old winter has come in at last. The snow flakes are falling quick thro' the air, Covering the ground with a mantle rare; The ice-king his boys is quickly at hand, The merry sleigh bells are jingling and clanging, And whither they be by day, or whether by night, Leap, or ramble, or roar upon light, The horse's snort whistles, "The winter, take care!" And the night wind both bellow "Beware! Beware!" But if you should suffer from asthma or cold, Toothache, headache, rheumatic pains, Coughs, bronchitis, or other fatality, Supposed to shorten our frail humanity, Don't stop a minute, but hurry in at once, And purchase a bottle of Briggs' Curative. For sale by E. Harvey & Co., and all druggists. C. H. Wright & Co., Hamilton, general agents for British possessions.

The Ocean Steamship Race. Much interest has lately been caused by the trial of speed between two first-class steamers of the Cunard and Inman lines. We gave one or two extracts concerning this race in our paper last week—one of which, on Saturday last, stated that the *Russia* and *City of Paris* were seen only four miles apart 900 miles east of Sandy Hook. As the latter vessel got the start of the former by forty-five minutes in leaving New York, the difference of four miles in distance is inconsiderable. This was the last heard of them until Saturday, when the following cable despatch arrived:

QUEENSTOWN, Feb. 19.—The steamer *Russia* and *City of Paris* arrived at this port this morning, the *Russia* at 6:30, and the *City of Paris* at 5 o'clock. These steamers left New York on the 10th instant.

Allowing that the figures given in the telegram are exact, the time made by the vessels is as follows: *City of Paris*—8 days, 15 hours, 15 min.; *Russia*—8 days, and 16 hours. Thus it will be seen that the *Russia* reached Queenstown in exactly forty-five minutes less sailing time than her competitor, although she arrived at 6:30, and the other at 5 a.m. This is accounted for by the fact that the difference in the time of sailing from this port was forty-five minutes.

In addition to the other arguments recited for the correctness of the statement regarding the race, it is understood that there is a rivalry between the two companies—the Cunard Company desiring to retain the British mail contract, and the Inman Line wishing to secure it for themselves. As this contract is required by law to be given to the company making the quickest trips, it is easy to see that both Companies should be anxious to establish the superiority of their own vessels.

Both vessels were built at Glasgow, and were commanded by old and experienced officers. From the meagre telegram received it is impossible to say what was the condition of wind and weather, although from the time made it is presumed to have been very good.

BILLIARDS.—Mr. O'Connor has refitted his Billiard Hall and added a new carom table of the second size. The patrons of the room will now find every convenience for playing billiards, which is an innocent and healthful pastime. The new carom table is an acquisition which the proprietor hopes will be appreciated by his customers. He desires to express his thanks to his friends and the billiard public generally for past favors and hopes to merit a continuance of their patronage in the future. As will be seen from the following extract Mr. O'Connor has fitted up the large hall in Whyte's hotel, Ferguson, as a billiard room. We copy from the *News Record*:—"Those of our villagers who understand how to use the 'cue' will be greatly rejoiced to know that Mr. W. O'Connor, of Guelph, has fitted up Whyte's Music Hall as a Billiard Hall. Two standard American tables are placed there for the accommodation of the public, and there is no doubt they will be well patronized. Billiards, as they do, a pleasant amusement, combined with a gentle, health inspiring exercise, has deservedly become one of the most popular of games, and numbers among its devotees thousands of the most respectable classes in all civilized countries. In the neighboring Republic, as well as in France, the Billiard Table is not to be found in the public hall alone; it graces the home circle as well, and most ladies of the wealthier class indulge in the recreation it affords. The hall is under the able management of Mr. Thomas Blanchfield, late of Guelph, whose gentlemanly deportment and genuine good nature will gain him hosts of friends. Betting is strictly prohibited, and everything that could in the least detract from the respectability of the room will be always thoroughly discontinued."

HOTEL ARRIVALS. COULSON HOUSE, GUELPH, Feb. 23, 1869. Robert Wylie, Toronto; Henry Abell, Werlidge; M. A. Abbey, Preston; T. B. Allen, Milton; S. H. Stanton & Son, Flamboro; R. Smithers, Toronto; F.
