### BABY BEEF COMPETITION ARRANGED FOR

School Children Unable to Give the Noon Feed May Feed by Proxy

At a meeting of the executive committee of the Alberta Cattle Breeders' asociation, it was decided that where boys and girls who wished to enter in the \$1,785 baby beef competition, to be held at the Alberta Winter Fair, Calgary, December 11th to 14th, 1917, are attending school and are unable to feed the noon feed personally, it will be satisfactory that they should prepare the noon feed and have someone else feed same. It was also decided that should a competitor, on acount of sickness or otherwise, be prevented The total receipts from January 1, from feeding his entry one or more days 1917, to September 30, were 153.576, during the feeding period, he must have being 5,172 less than the total receipts fed and cared for the entry during the for the year 1916.

The three provinces contributed during the month of September the following:

## RUSSELL MOTORS FEATURE AT TORONTO

Company Declares Payment in Full of Last Four Years' Dividends

Toronto, Oct. 9.-The declaration by the directors of Russell Motor company of payment in full of the four years' dividends in arrears on the preferred stock came as a pleasant surprise to holders of this issue today. The policy just announced involves the payment of twenty-eight per cent, on the preferred for the last four years, in addition to 1 3-4 per cent, for the quarter, payable on November 1, to shareholders of record of October 11. The seven per cent. dividend was also declared on the common stock. The performance of the Russell Motor issues on today's local market was rather disappointing, in view of the directors' action. The market for these issues was very narrow, however, and little stock came out on the advices. Investment buying was meagre in extent Mackay common was easier at 74 1-2 Buying of the war loans exceeded \$10,-000 par value, with the 1937 issue more active, closing at 94 3-8 for a ga 1-8, and the 1931 loan was off 1-8 to

### SHORT SELLING AND LIQUIDATION

Is Story of After Holiday Trade on New York Market

New York, Oct 9. Short selling and liquidation, the latter probably pre-dominating, again exerted their unfavorable influence over the stock market today, causing various issues to decline to new minimums for the current movement. In several noteworthy instances, these quotations also repre sented lowest levels of recent years Apart from the increasing bearishness of a large trading element, nothing tangible developed to explain the fur-ther reaction. Vague peace rumors were without effect except owing to the confusion already existing in conservative circles. Seasoned stocks suc-

cumbed to pressure. Total sales amounted to 740,000 shares. Promise of easier money was fulfilled both call and time rates again relaxing, the latter only for the short-1-2's repeating their recent minimum of 99.52, though rising later to 99.74 Total sales, par value, aggregated \$4,-180,000.

MAY PROHIBIT MANUFACTURE Ottawa, Oct. 9.—It is very probable that as a result of the line of policy considered at a cabinet council meeting attended by Hon. W. J. Hanna, food controller, that the use of grain will be prohibited for the manufacture of beer or spirits except alcohol intended for munitional production. Immediate action is expected.
