News of Local Interest Condensed From Our Exchanges.

The Strathroy newspapers will not be issued this week.

Messrs. Dowsell & Smith, builders and contractors, of Dutton, have made an assignment.

Stephen Lumley at Sarnia was sentenced to serve three years in penitentiary for perjury.

The question of municipal ownership of the electric light plant is being discussed in Watford.

A hockey club has been organized at Alvinston. Dr. Martyn is president and A. E. Ketch secretary.

John McCallum, a former resident of West Lorne, died recently at Marlette, Mich., in his sixtieth year.

A company will start in Brantford early in the new year to make and retail bread at four cents a loaf. The present price is five cents.

Chatham model school had 35 pupils last term, and 29 of them have been engaged as teachers at from \$350 to \$450 a year. There is a strong demand for teachers.

A man with a conscience went to the customs officers at Sarnia the other day to pay duty on a gold watch and chain which he smuggled into Canada about twenty-five years ago. He was allowed to pay.

A Watford man brought home a sample of the potatoes grown at Davidson, Saskatchewan. Two of them weighed within a couple of ounces of five pounds and would make a square meal for a hired man.

Dr. Sheard, Toronto health officer, says there is every fear of a smallpox epidemic in the province, and he advocates general vaccination in Ontario, and a house-to-house vaccination in all of the cities as a preventive.

The county board of examiners announces that every student who wrote at the London and Strathroy Model School exams recently, was successful. This is a particularly creditable showing. The certificates which have been granted the students are third class, and are valid for three years.

While ploughing on his farm near Port Talbot, Thos. Lunn unearthed a human skeleton in a fairly good state of preservation. The bones are supposed to be those of an Indian woman, and have lain in the lonely grave for probably scores of years. In the same field, which has been ploughed for a dozen years, have been found Indian relics.

At a special meeting of the Tilbury East council, called to consider the shortage of W. F. Robertson, ex-treasurer, a settlement was effected. The sum of \$2,800 was realized from the assignment of Mr. Robertson. In addition to this the bondsmen have paid \$1,400, making a total of \$4,200, which was accepted by the township in lieu of the alleged defalcation of \$7,000.

There are not many hoboes or transients of the vicious type in Ontario at the present time. The fact is that the campaign of the past year or two, in which the magistrates of the province assisted by imposing long terms on those taken into custody, has had the effect of practically wiping the province of the Wandering Williams and Plooding Peters. On the freight trains the hoboes are scarcely ever seen.

At St. Catharines, on Thursday, Mayor Sweet informed a meeting of local shareholders of the York County Loan that he had been assured that day by telephone by Mr. Cross, the accountant appointed by the Government to investigate, that holders of terminating shares would in all probability receive 100 cents on the dollar. Until the terminating shareholders are paid, holders of permanent shares will not get a dollar.

Alexander Willis, of Rodney, has entered suit against Mary Cole and William Cole, her husband, claiming unstated damages for slander. The action arises out of the alleged statements made by the defendant charging Willis with the theft of a set of harness about the time of the recent murder. The plaintiff was found not guilty of the crime, and the other parties to the suit were prominent witnesses at the trial.

Watford Board of Trade has received a communication from a Toronto manufacturing firm, who manufacture worsted and cashmere knit goods, sweaters, jerseys, toques, underwear, etc. The firm is prepared to install a plant requiring about 10 hands to operate it, mostly females, and additional machines later on if hands are available. Knitters are paid up to \$7 weekly, finishers \$1 less, hand sewers average the same. The inducements the firm expects are exemption from taxes, building at low rent, and a reasonable bonus.

A week or two ago in Dunwich, it is related, a boy named Robert Dell while returning from school found the body of an infant on the fifth concession road. He told his father when he got home, and both returned to the place where the child lay. The elder Dell removed the body to one side of the thoroughfare, and sent his son to advise the coroner, Dr. Ling. The doctor is alleged to have ordered the dead child to be left where it was found. Mr. Dell did so, and covered it with a box. In the morning the coroner and Mr. Dell drove out to make further investigations, but, on raising the box, it was discovered that the child's body had been removed.

There isn't anything that grows in summer any faster than the pile of tin cans in the back yard in winter.

The Gerhard Heintzman is the Best.

Max Weil, Principal, Weil School of Music, says:—"It gives me great pleasure to state that the Gerhard Heintzman which Mr. Barrington Foote is now using in the School is in every respect an excellent instrument. For quality and quantity of tone, it can hardly be excelled. Owing to the singing quality of its tone this piano is particularly well adapted to vocal accompaniments." D. A. McRae, agent, Strathburn.
