

# A GREAT SILK SALE

WE start tomorrow a sale of Silks that will tickle the ladies. We have determined to clear up every yard of Silk in the store.

**THE PRICE WILL MAKE YOU LAUGH**  
It seems ridiculous to quote them at such a figure.

Fine Taffetas, all shades, worth 75c; fine Surahs, pure silk, worth 75c and \$1; 27-inch and 20-inch Japan Taffeta, worth 25c, 35c and 50c, every color; Fancy Cords, worth 75c and \$1; and a limited range of other fancies, worth up to \$1. The whole lot is being offered at the **25c** one price—per yard, only.

DON'T MISS THIS SILK SNAP, LADIES.

## BAYLEYS.

### HUNGARIANS IN PARTY RIOTS

In Quelling the Row Gendarmes Kill Twenty-Three and Wound Forty.

Budapest, April 24. — A serious riot is reported to have taken place at the market town of Eled, near Gross-Warden, resulting from a collision between meeting of the socialist and independent parties. While order was being restored by the gendarmes, a socialist fired a revolver, killing the commander. The gendarmes thereupon fired a volley, killing 20 of the rioters and severely wounding 40. The military were summoned from Gross-Warden.

### FATAL FIGHT AT CHICAGO

One Killed and One Fatally Wounded in Mix-up With Thieves.

Chicago, April 25. — One man was killed, another fatally wounded and a third severely injured in a fight between watchmen and thieves in the stock yards Saturday night. The dead man is Arthur Walsh, watchman, instantly killed by a watchman, instantly killed by a watchman, instantly killed by a watchman. The fight occurred at the plant of the International Packing Company at Forty-seventh street and Parker's avenue. The two watchmen, who were making their first round of the night, discovered two men in a smokehouse, stealing hams. The thieves started to run, and one of them made his escape. Clemens seized Walsh and the latter pressed a revolver against the watchman's breast and killed him at the first shot. McGee ran to the help of Clemens, firing on Walsh and ran toward him. Walsh fell to the floor, but regained his feet and shot McGee three times. He then staggered to his feet and attempted to escape, but was intercepted by the police at the place and held until the police arrived. At the hospital the wounded man gave the name of George Walsh, and said that he was 20 years old. His wounds are dangerous, but the physicians at the hospital say that he has a good chance for recovery.

### GLASS WORKS FOR CANADA.

Hamilton, Ont., April 25.—The Mansfield glassworks, with works at Lockport, N. Y., and head offices in New York city, and the largest concern of its kind in the United States, have decided to locate a Canadian branch in this city. The Canadian company will be capitalized at \$300,000, and will employ about 150 skilled hands to start.

### BARRINGTON MUST DIE.

St. Louis, Mo., April 25.—Sentence of death was Saturday passed upon "Lord" Frederick Seymour Barrington, in the circuit court at Clayton. Barrington was recently convicted of murdering James P. McCann, his benefactor. Barrington entered the court room smiling and bearing himself with self-possession that characterized him throughout his trial. When the court asked him if he had anything to say before sentence was pronounced, Barrington replied: "No, I have nothing to say, except that I have not been given a fair trial. I had intended reviewing my defense, but in deference to my attorney I will say nothing more." When the sentence was pronounced Barrington almost collapsed. His face became ashen, and he sank down in a chair, his hands clasped in mute despair. A stay of execution was granted.

### Catarrh Is Inflammation, But Quickly Becomes Chronic—A Remedy to Soothe and Heal Is Required.

Generally speaking Catarrh is worse in some parts than others, but the condition of inflammation extends over the whole breathing apparatus.

No matter how good an ointment or a wash might be, it could only reach a limited portion of the affected surfaces. Only air can enter the lungs, and the tendency of Catarrh is to surround the entire respiratory tract. Catarrh has proved the most wonderful remedy ever discovered for the treatment of the throat, lungs and nasal passages.

Catarrh is split up into little drops by the air and is carried wherever air goes. You see it must reach every part of the lung cavity. Instead of treating a little bit of the catarrhal affection, as other remedies do, you treat all of it at the same time. When you are cured it is a complete cure. Other remedies at best give only relief.

When you breathe Catarrh you will experience at once a pleasant sensation of warmth, then the feeling of tightness disappears. Instead of the secretions being in excess or deficient, by the remarkable action of Catarrh on the inflamed surfaces, they are rendered as they ought to be—perfectly normal.

This is just the same thing as telling you that you are cured, because that is really what is bound to result if you use soothing, healing Catarrh, the pleasantest of all remedies, and can be used at any time, and always cures.

Every sufferer from Throat, Lung or Nasal Troubles should employ the only remedy that can possibly give them immediate relief and quick cure.

You can get it from any druggist or medicine dealer in the land, or N.

### JAMES BAY BILL PASSES HOUSE

The Legislature Puts in a Busy Saturday.

### THE SUNDAY OBSERVANCE LAW

Railway Subsidies — Beet Sugar Bounties—Salaries of Game Commission—Junction Bill.

[Special to The Advertiser.]

Toronto, April 25.—The Province's legislators on Saturday displayed the possession of an exceptional energy and capacity for work. In a seven-hour sitting, from 11 a.m. until 6 p.m., more actual business was disposed of than had been done in the previous month, and more divisions were taken than within the whole preceding portion of the session. Many important matters were dealt with, but discussion was necessarily limited, all being anxious to get away.

The formal prorogation will take place on Tuesday, but it is certain that not more than 24 hours of the session will be present.

One of the most important bills passed was the Government's proposal to grant a bonus to the proposed Grand Trunk Pacific branch line, 200 miles long, connecting with the main line north from Thunder Bay to the north end of the province.

An amendment, introduced by Mr. Whitney, was accepted by the Premier. It provided for a return to the Province of all the lands and interests of the road were ever taken over as a federal undertaking. The bill grants a bond subsidy of 6,000 acres per mile, and a cash subsidy of \$2,000 per mile for the 200-mile branch of the Grand Trunk Pacific north from Thunder Bay to the main line.

The Attorney-General said that a positive request had been made to the Government for aid for the railway. Mr. Powell opposed the bill, because the Grand Trunk Pacific was a Dominion enterprise. Then, too, the proposed line would be a direct competition to the main line of the Grand Trunk Pacific, which would be diverted 600 miles westward.

The Grand Trunk Pacific is a detriment to the Province of Ontario except in the northern districts, he declared.

Col. Matheson protested against granting the subsidies. The branch railway would have to be built in any case by the Grand Trunk, he thought.

Mr. Whitney also entered a protest against the proposal.

The Premier showed that the Province was well able to pay \$2,000,000 for securing a railway that would be of such immense importance to the country. If the aid were not given this branch line might not be built.

Mr. Whitney's amendment was lost on division.

MR. WHITNEY'S AMENDMENT.

The Opposition leader made an amendment. He moved that the following clause be added to the bill: "In case the Government of Canada shall at any time take over at a valuation the line of the Grand Trunk Pacific Railway Company, mentioned in section 1 of this act, the amount of cash subsidy and the amount of value of the land grants, both mentioned in said section 1 of this act, and which shall have been received by the said Grand Trunk Pacific Railway Company, shall be forthwith repaid by the said Grand Trunk Pacific Railway Company to the treasurer of the Province of Ontario, and an agreement shall be entered into forthwith after the passing of this act between his majesty and the said Grand Trunk Pacific Railway Company embodying and providing for the carrying into execution the provisions of this section."

Mr. Whitney said that a similar provision was included in the Federal Government bill, and there was no reason why the Province should not be similarly safeguarded.

The Premier accepted the amendment, which was inserted in the bill. The bill was then brought up for its third reading on division.

MR. WHITNEY'S AMENDMENT.

Another important matter dealt with was suggested by the Lord's Day Alliance, which desired, as Mr. Gibson explained, to hold regular observance to Sabbath observance in statu quo as far as possible, pending final decision as to provincial jurisdiction, and pending a general federal act. The Attorney-General stated that when the provincial act re Sabbath observance was declared ultra vires by the Privy Council, the clause in the act relating to the running of street cars on Sunday was consequently annulled. Had this clause been incorporated in a separate bill it would probably be still in force, as being within provincial jurisdiction. He proposed to embody in the statute law amendment act this part of the act annulled relating to preventing the running of street cars.

The amendment was agreed to without discussion.

MR. WHITNEY'S AMENDMENT.

The usual resolution was passed expressing sympathy with the members who were asked to attend the session, and that their sessional indemnity would not be interfered with.

The Premier's bill respecting aid to the beet sugar industry was given a third reading.

The bill to amend the supplementary revenue act of 1893 was given a final reading. Mr. Whitney moved in amendment to the measure that the Pettypiece bill be incorporated. All its provisions, he said, were embodied in the revenue act, and the House should now be prepared to state whether they approved or not of the principle of the Pettypiece bill.

The Premier said the amendment was out of order, because the Pettypiece bill had already been disposed of.

The Speaker ruled the amendment out of order.

Mr. Preston (Durham) then moved that the House express its regret that the supplementary revenue act did not contain any provision whereby the municipalities of the Province will receive a proportion of the taxes received by the Government from the railways and street cars.

Mr. Whitney—I would like to ask Mr. Pettypiece if he ever made the statement that if the Government shelved his bill he would move a six months' hoist of the Soo bill?

MR. PETTYPIECE'S BILL.

A division was then taken on Mr. Preston's amendment, but it was declared lost by a vote of 35 to 38, the division being a straight party one.

Mr. Whitney, seconded by Mr. Brower, moved that the bill be referred back to committee with instructions to add a clause providing that no person who was a member of the

### Scrofula

Few are entirely free from it. It may develop so slowly as to cause little if any disturbance during the whole period of childhood.

It may then produce irregularity of the stomach and bowels, dyspepsia, catarrh, and marked tendency to consumption before manifesting itself in such obnoxious eruption or glandular swelling. It is best to be sure that you are quite free from it, and for its complete eradication you can rely on

**Hood's Sarsaparilla**  
The best of all medicines for all humors.

The railway commissioners under the Pettypiece bill as amended.

The motion, however, was lost on division.

Clark (Bruce) on the third reading of the Attorney-General's bill, amending the election act, moved that his measure respecting election saw-offs be incorporated. The amendment was rejected on division.

An amendment was offered by Mr. Hogg. Judge Thatcher had recently been moved from his position as Premier's bill respecting aid towards the construction of the James Bay Railway, that the aid be only granted with the proviso that the line be revised from time to time by the Lieutenant-Governor in council.

Mr. Whitney then moved his amendment providing that the guarantee of the bond issue do not apply to the mileage of the road between Toronto and Muskoka in Ontario county.

He briefly stated his position against granting further public aid to railways in the older and more thickly settled districts of the Province. The amendment was declared lost on division.

Dr. Nesbitt, seconded by Mr. Murphy, moved that the passenger rates on the Grand Trunk Pacific be fixed at two cents per mile.

"Amendment out of order," promptly ruled the Speaker.

The third reading of the bill was therefore given. The division was 47 to 20.

Mr. Whitney moved a resolution condemning the action of the Government in regard to law reform. The question had been agitated in vain by various law societies, etc., in the Province, he said.

The Attorney-General briefly outlined his course in the matter. He claimed the Government had done as much in the matter as could be expected under the circumstances.

The motion was declared lost on division.

THE COMMISSIONER'S PAY.

Mr. Gamay, on a motion to go into supply, moved that the house express its regret that the Government had paid to the two judges who presided over the trial of the Grand Trunk Pacific a total of \$2,500, the sum of \$1,250 each.

That meant, said Mr. Gamay, that they had each been paid \$125 per day for the 25 days the court sat. And during the same time they had been in receipt of their regular salaries.

He said that the remuneration had not been decided on until after the report had been brought in. Judge Winchester had recently been conducting a similar investigation, for which he was paid at the rate of only \$100 per hour.

Mr. Gamay said that he had been told that the remuneration had not been decided on until after the report had been brought in. Judge Winchester had recently been conducting a similar investigation, for which he was paid at the rate of only \$100 per hour.

### THE CATTLE EMBARGO

A Liverpool Paper Tells Why It Should Not Be Raised.

London, April 22.—An expert, writing to the Liverpool Daily Post on the exclusion of Canadian cattle, says the prevention of disease is the strongest argument against their importation.

Canada, being isolated, out of contact with the States where the outbreak of 1901 raged for weeks before any intimation reached England.

In the event of admitting Canadian store cattle, could any means be devised for keeping Uncle Sam from the import of live stock from Canada?

Unless Canada is in a position to considerably increase the number sent in 1892, the feeder of cattle's position would not be materially improved. We would hear less about Canada if the wealthy graziers and feeders had not harbor boards and butchers siding with them for the sake of dues and profits.

The feeders have grievances, but unless and until they can show that the flocks and herds of this country run no risk from the import of live stock from Canada they should not get open ports.

DR. A. W. CHASE'S 25c CATARRH CURE

Is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the passages, stops droppings in the throat and permanently cures Catarrh of the Throat, Bladder, and Prostate.

All dealers or Dr. A. W. Chase, Medicine Co., Toronto and Buffalo.

Maize or Indian corn is a native of tropical America. The Spaniards first took it to Europe. However, it must have been known long before in Asia, for in Pharaoh's dream he saw seven ears of corn growing on one stalk (Genesis, xli, v. 6). By the aborigines it was gradually carried north and by the selection of the earliest ripe ears saved for seed, it was gradually adapted to the harder English conditions.

TO DISCERN and deal immediately with causes and overcome them, rather than to battle with effects after the disease has secured a lodgement, is the chief aim of the medical man, and Bickel's Anti-Consumptive Syrup is the result of a patient study along this particular line. At the first appearance of a cold the Syrup will be found a most efficient remedy, arresting development and speedily healing the affected parts, so that the ailment disappears.

The Home Life.

### VERDICT FOR LEOPOLD

Daughters Lose Their Suit to Recover Their Mother's Estate.

Brussels, April 22.—The civil tribunal rendered its judgment Thursday in the suit brought by the French creditors of the Princess Philip of Saxe-Coburg and Gotha (Princess Louise of Belgium), and the Countess Louisa (formerly Crown Princess of Austria-Hungary), daughters of King Leopold, to compel the King to pay to his daughter the money left to them by the will of the late Queen Marie Henriette, their mother. The second daughter, the Princess Stephanie, now the Countess Louisa, asserted that her share of the estate was \$3,000,000 instead of the \$120,000 offered by King Leopold.

The court rejects the application of the plaintiffs, and assesses the costs of the suit upon them. It is held by the court that under the act of 1855, the marriage settlement between Leopold and Marie Henriette was a diplomatic treaty, and that since then the Queen's property has come under the operation of the principal of separate estates.

AMERICAN VEIL DENOUNCED

Paris Finds That It Adds to the Theater Hat Evil.

London, April 22.—America has given a name to a fashion, if not the fashion itself, which is responsible for the following wall from Paris:

"The cry of the theatergoer who has been unable to get a view of the stage because of the women's hats, has become more agonized than ever. It was fondly believed that the evil had been scotched, but this year it has arisen more terrible and more defiant than ever. Not only has it visibly grown

in dimensions, but now about its periphery is hung a net-like contrivance known technically as the American veil. The mosquito net may have its use in the street, but in the theater it gives the spectator behind absolutely no chance.

FRESH PROOF EVERY DAY.

That If the Disease Is of the Kidneys, Dodd's Kidney Pills Will Cure It.

Kennel, N. W. T., April 25.—Out here on the prairie, one day brings forth fresh proof that if the disease is of the kidneys or from the kidneys, Dodd's Kidney Pills will cure it. Thomas L. Hobbs, a well-known Indian Head farmer, says:

"About a year ago I was thrown from a wagon, causing a strain on my kidneys. I tried several remedies, but could get no relief until I tried Dodd's Kidney Pills. One box cured me completely. My wife also used Dodd's Kidney Pills and got great benefit from them."

Dodd's Kidney Pills make healthy kidneys. Healthy kidneys make pure blood. Pure blood makes good health. That is why Dodd's Kidney Pills are the greatest tonic of the age.

A well-known naturalist tells of an insect in Nicaragua so completely disguised as a leaf that a whole host of the ants who prey upon it actually ran across it without recognizing it as their food. Mr. Slater noted in South America another insect—one of the Membracidae—which not only mimicked the leaf-cutting ant for its own protection, but like its model, carried in its jaws a fragment of leaf about the size of a sixpence.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder dusted in the bath, softens the water and disinfects.
