BULL MOVEMENT IN NORTHWEST. Special letter from the Haight & Freese Company, room 13, Masonic Temple. F. P. Rae, local manager.

The bull party has in the past ten days been augmented by Chicago and western interests, who have just completed a successful bearish campaign in wheat. These interests have been aggressive purchasers of stocks. They argue most logically that the decline in wheat not only is stimulating exports, but suggests only is stimulating exports, but suggests a good crop and its consequent to the

The statement is officially made that Atchison earnings, after providing for interest on the new issue on bonds, are great enough to show as much earned net upon the common stock as before the issue; and this was one of the roads. according to bear talk, that was going to suffer on account of the dearth of corn. Union Pacific is showing fabulous earnings. It is earning at present about 8 per cent upon its common stock. Given a good crop, it should show net earnings nearly 12 per cent. The very best going on for some time. The west is a heavy buyer, and is bullish. We expect heavy buyer, and is builting to see this stock sell higher than ever before. Southern Pacific also is in line for remarkable improvement in both for remarkable improvement in both earning power and market value. This stock will in a short time be a six or seven per cent dividend payer, and will sell very much higher. For an investment for the future, it will pay better to buy and hold Southern Pacific than stock which at present pays good dividends, and in which the limits of the company's development has been pearly company's development has been nearly

We are as bullish upon St. Paul as when we urged its purchase, when it was 183% and all the standard stocks. The 163%, and all the standard stocks. The spring rise seems to be getting under good headway. Present buyers should secure large profits. Profit-taking caused some recessions during the day, but the buying all day was of the best possible a recovery setting in before the led by L. and N., which after an close, led by L. and N., which after an early decline again crossed 109, closing above that figure. Winnipeg, April 5.-Further returns of voting on the liquor act referendum give increased majorities against the act. Nearly every municipality heard from yesterday gave adverse majorities. The official majority against it in Winnipeg City is 3,406. Charges of crookedness on the part of the liquor men are made by the temperance workers, who allege that many votes were repeated at the city polls, and that de-

puty returning officers neglected their duties in not administering the oath. The Dominion Alliance followers say that the result of the election justified their expectations. Thousands of temperance people, the alliance claim, did not vote because of the position the alliance took.

The Prohibition League claim, on the other hand, that the position of the league, that every temperance man should turn out and vote on the act, was vindicated by the fact that over 12,000 votes were polled in its favor.

Canadian troops in the engagement with the Boers near Hart's River, Southwestern Transvaal, March 31, attracts unstinted praise from the British press. These comments form a striking contrast to the recently printed notification that the attention of Lord Roberts, the commander-in-chief, had been drawn to various cases where colonials who had been awarded commissions were treated as inferiors by the regular officers and otherwise made to feel that they were only members of the mess by sufferance. Lord Roberts, it was semi-officially announced, was making an investigation and intended to inflict the most serious penalties on any British officers found guilty of such conduct. Privately, and in letters to the press, many colonial officers have frequently complained that "they are good enough at the front, but are not wanted at a Cape
