The reindeer, says Capt. Living, constitutes the natives' continuing source of milk, butter, transportation and animal food. Although his work is officially that of reindeer conservation, he acts often enough as counseller, and even in emergency as practising physician. In the remote scenes of his labors he has often found it necessary to perform surgical operations. He will return with a provision of first-add remedies and simple medicines, prepared to meet a number of emergencies.

Capt. Living reports the natives as sincere in their beliefs and ready to make great sacrifices for them. Last prepared to meet a number of emergencies.

Chicago, Oct. 29.—Wheat scored a moderate rally today, chiefly as a result of covering by shorts. Predictions in some quarters that a general railroad strike would yet be averted counted somewhat as a bullish factor. Besides, Pt Rico. 40 pfd. . . 70 Sterling. .. Victory, 1922.. 99.20

somewhat as a bullish factor. Besides, hope was expressed for a fair export business today. Opening prices, the varied from unchanged figures to 1½c higher, were followed by numerous changes within the initial range.

Corn and oats paralleled the action of wheat. Corn started ½c to ¾c up, and then continued to harden.

Oats were ½c higher at the outset, and later scored additional gains.

If You Have \$300 or More Read This

T is well to have money in a Savings Bank and get 3% or 4% on it. Nobody will find fault with your prudence.

But when you consider that Governments are borrowing money at 6% and higher and that there are enterprises in which you can invest with equal safety and get 8% on your money, surely it is the height of prudence to look into such investment offerings. A case in point, and one worthy of your imme-

diate attention, is the 8% Convertible Debentures of The Mount Royal Hotel Company, Limited, Montreal. This enterprise is the largest of its kind in the

British Empire. There is no city in Canada where the need of such an hotel is greater, and where the earning powers of the hotel is more certain than in Montreal. Montreal is our greatest ocean port; it is our

greatest transcontinental terminus and the cen-tre of all Canadian tourist traffic from the Eastern and Southern United States. For these reasons, then, we recommend those who have the money to consider immediately the invest-ment of a portion of it in the 8% Convertible Debentures of The Mount Royal Hotel Company,

By all the estimates which the United Hotels Company of America have prepared, the earn-ings will be not only ample to pay the interest on the Debentures, but there should be a very substantial margin available for dividends upon the Common Stock which is now given as a bonus. For, remember, King Edward Hotel Common Stock (another United Hotels enterprise) is now paying dividends at the rate of 10% per annum, although it, too, was also given away as a bonus three years ago.

In short, you may invest in the 8% Convertible Debentures of The Mount Royal Hotel Company, safe—your 8% interest certain and your money is pects good for a nice profit from your Common Stock Bonus.

The price of the Debentures is par, carrying a 30% Common Stock Bonus. Send your order now or write for full particulars. Address:

To W.A. Mackenzie & Co., Ltd.

38 King Street West, Toronto. Dear Sirs: Please send me a copy of the circular describing the 8% Convertible Debentures of The Mount Royal Hotel Company, Limited, and oblige.

Please write clearly.
