

TROOPS ARE SENT TO SPRINGHILL

Fears of Riots at Nova Scotia Coal Mining Town—Many Men and Boys Idle on Account of Strike

HALIFAX, July 11.—A train left Halifax for Springhill mines at four o'clock this afternoon with two companies of the Royal Canadian regiment and an officer and three men each of the army medical corps and army service corps, 170 men all told, under command of Major Fages, brother of Colonel Fages.

The troops would have been despatched yesterday only that the military authorities here considered that a telegram stating that the requisition for troops would come on Monday by mail was not sufficient authority. The requisition was then sent by wire and received at ten minutes to three this afternoon. An hour and a quarter later the train with the troops was pulling out of the station at Halifax. An hour afterwards the requisition, No. 100, was sent by wire, but the men have arms and ammunition.

The troops will camp under canvas on the green in the center of the race track, which is the property of the coal company.

There was no disturbance today, but it is generally conceded that the excited feeling between the company's men and the strikers a spark at any time might start a riot. About 1,200 men and boys are idle because of the strike.
