We hear a great deal about purifying the blood The

way to purify it is to enrich it. Blood is not a simple finid like water. It is made up of minute bodies and when these are deficient, the blood lacks the life-giving principle. Scott's Emulsion is not a mere blood purifier. It actually increases the number of the red corpuscles in the

blood and changes unhealthy action into health. If you want to learn more

of it we have a book, which tells the story in simple words.

ALMOST A MIRACLE

OTTAWA, Sept. 9th, 1896. To the Phrenoline Medicine Co., Ltd., anW to V that Ottawa,

Ottavez, GENTLEMEN, —I hardly know how best to express my appreciation of your valu-able rheumatuc remedy, Phrenoline. My son Gordon, who is 9 years old, has been a sufferer from inflammatory rheumatism for the past two years; was so bad at times that he had to be carried about on a mattrass; was attended by two city doc-tors apparently without the slightest benefit; spent 10 days at Caledonia Springs, came home with no marked im-provement; took three bottles of a Homeopathic remedy now being exten-sively advertised, which did not relieve him in the least. I was beginning to give up in the least. I was beginning to give up all hope of his recovery, when by chance I mentioned the case to a friend who strongly advised me to give Phrenolme a trial.

trial. I did so, with the result that when my boy had taken only half a bottle he was able to get on to his bicycle and ride like any other boy around the block. I certainly feel that I cannot say too much in praise of your medicine, and shall do all I can to make known its value to others.

to others. Yours very sincerely, (Signed) REUBEN CLARK. For sale by T. B. Taylor, Watford.

Story From Quebec. The kidneys have very appropriately been described as the sanitary system of the human body. Let them become in-operating and disease will quickly follow, and unless the obstructions are removed, death will be the result. Mr. D. J. Locke, of Sherbrooke, P. Q., suffered for years from complicated kidney trouble, and spent over \$100 in efforts, to secure. relief; but no relief came until he used South Ameri-can Kidney Cure. His statement is that four bottles completely cured him, and to-day he is in the enjoyment of sound health. In the most distressing cases this remedy gives relief in six hours.

Fake Correspondence.

Persons who think it a good joke to send bogus news to newspapers, with the intention of injuring their neighbors, ap-parently do not understand the risk that they run; but if caught in their malicious transactions a plea of ignorance wolld be no excuse for them. Under section 429 of the Dominion Criminal Code, it is enacted that they everyone is culture of an individual the Dominion Oriminal Code, it is enacted that "everyone is guilty of an indictable offense and liable to two years' imprison-ment who, with intent to injure or alarm any person, sends, causes or procures to be sent, any telegram or letter or other message containing matter which he knows to be false." Those who are tempted to write bogus marriage notices, or to write other false information about their neigh-bors, ought to reflect on the risk they run. Mr. Campbell finds it necessary to explain to mest of his country audiences that a grading machine has no brains of itself. The brains must be supplied. They must be on the sect, in the heads of those who run the machine. Many of the graders which have been purchased by rural muni-clpalities in recent years have been put into such incompetent hands that they have given the movements for good roads a black eye. They have been used to turn sod and dirt into the middle of the road, often on top of a good gravel madbed, instead of to remove such dirt. We have seen very good country roads, which had cost the munispalities a large amount for gravelling their roadbeds being the ac-commutation of years of work, aractically runed by machines which in competent-hands would have greatly improved them at slight expense."
