

THE WILKINSON PLOUGH CO., Limited.

TORONTO, - - - - - ONTARIO.

This is the third season of our
Climax Pneumatic Ensilage and Straw Cutters.
 If any further proof was necessary that
 these Cutters

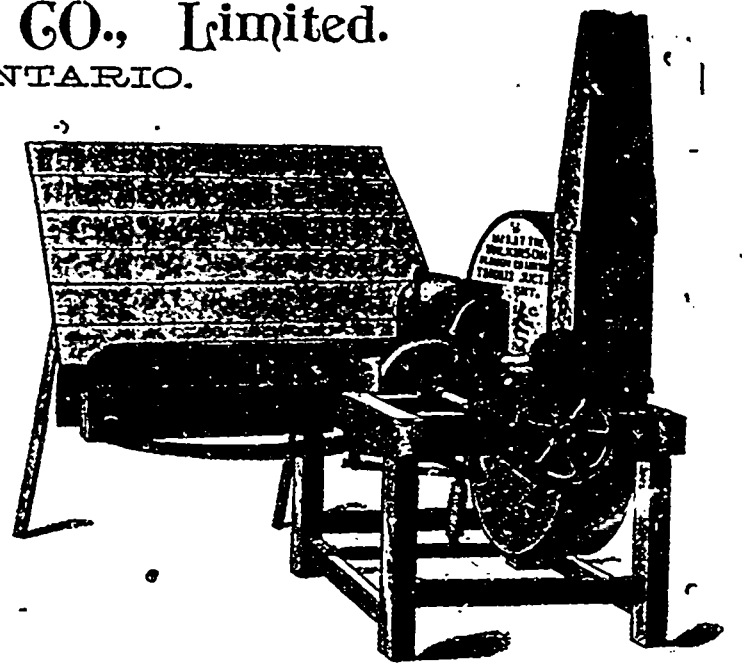

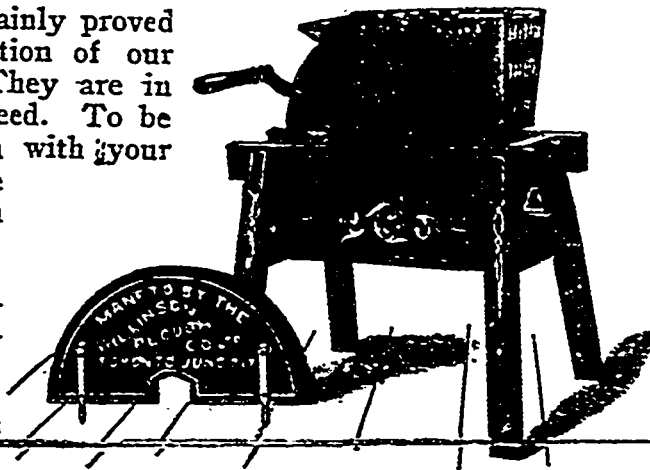

Have treble the capacity of any other machine,
 That the wind delivery is an unqualified success,
 That your repair account will be practically nothing, beyond
 fair wear and tear.

This season has certainly proved
 it to the thorough satisfaction of our
 patrons and ourselves. They are in
 three sizes, fully guaranteed. To be
 first in the field next season with your
 Ensilage Cutter, take the
 precaution to buy now, when
 prompt delivery is assured.

All next seasons improve-
 ments are now on the ma-
 chines.

Write for prices, terms
 and full particulars.

STRAW CUTTERS AND ROOT PULPERS, all Sizes-
 OUR PLOUGHS you know well.

We protect our customers against the host of inferior
 imitations by putting our name and address on all parts,
 and on all cast repairs.

Every Mouldboard, whether on Plough or as repairs, is
 the best United States Crucible Soft Centre Steel, tempered
 as no other firm can temper. Name, address and quality
 stamped on the back of the Mouldboard as a guarantee of
 quality.

Garden, Stable, and Boys' Barrows. Railroad Bar-
 rows, steel or wood wheel. Turnip Drills, Drag Harrows.

LAND ROLLERS, two or three drums: all with solid
 pressed steel heads, and with all the latest improvements.

Catalogue Mailed on Application.

SOME SNAP SHOT FACTS ABOUT THE JENKIN'S HORSE HITCHING DEVICE.

A Simple,
 Handsome Invention, **The Jenkin's Device.**

It is not only simple in itself but removes many complications in
 the harness and buggy.

NO more traces. NO single tree. NO soiling of hands or gloves.
 NO breeching. NO hip strap. NO hold back straps.

TIME IS MONEY.—Do not spend 10 minutes to hitch when ten
 seconds will do it. Agents Wanted.

Jenkin's Hitching Device Co., 58, Adelaide St., E., Toronto.

THE PAST YEAR

Has been one of
 the most succes-
 ful in our exist-
 ence.

Manufacturers of
 the
FAVORITE
 improved churn
 with roller bear-
 ings—

Root Pulpers
 and Slicers,
 Wheelbarrows,
 Straw and Ensilage Cutters.

Any implement bearing the name of "Maxwell" may be relied
 on, as only the best material, the best workmen and the best methods
 are engaged in their production. Our increasing trade from year to
 year is our assurance that it pays to produce "the best," and that
 will ever be the aim of
