An eminent British scientific aid, after reading the editorials and editorial comments in **The Globe** for several weeks while visiting in this country, that they were masterpieces of English diction, and for scope of theme and subjects discussed were equal to the best papers at home. In fact, he said, in many respects **The Globe** excelled any of the British papers in a NEWS paper. The variety of subjects, the completeness of its news gathering organization, its freedom from sectionalism, and its fair and impartial reports have been time and time again favorably commented upon.

Something New in Agriculture is **VESSOT'S SUB-SOIL LANCE** (PATENTED)

A complete revolution of the old methods.

This is a most useful, simple and durable instrument. It is easy to operate, and adapts itself to any plough now in use (including the sulky) and makes it but very little harder to draw. It is sold very cheap.

**Why ? Because**

Parties wishing a first-class Harrow will do well to write us direct, or apply to the local agent.

in these hard times is there such a great demand for this All Steel Flexible Harrow

The flexibility of the Harrow enables it to adapt itself as readily to rough and uneven ground as to smooth, and the oscillating motion produced by its flexibility guarantees the ground, and leaves it in a loose and more porous condition than any other Harrow, and it is made of the very best material money can buy for the purpose. The bars are made of

**HARD SPRING STEEL**  
very stiff and strong, the hinges and teeth being of solid steel, all of which are of a higher grade than is possible to use in any other make of Harrow. We can guarantee more than double the strength and wear in this Harrow than there is in any other make.

Our Motto, "Not how Cheap, but how Good."

**TOLTON BROS., GUELPH, ONT.**
