REPORT.

Your Committee beg leave to report as follows, viz:

That the Alderneys and Devons entered were very superior animals. Cows quite equal to last year; bulls better than last year.

Your Committee noticed that while there was quite a number of two year old Alderneys in milk, there were no Devons.

Respectfully submitted,

JAS. D. ARCHIBALD,
WM. J. G. BURRELL,
SAMUEL BURRELL, sr.
Committee.

REPORT.

Whatever else the Yarmouth County Agricultural Society may have done to advance the interests of the farmer, it is quite evident that the oxen of the County have not improved in value or appearance, and that they are altogether inferior to what they were ten years ago. The only mark of improvement is in the appearance on the grounds of a considerable number of grade Devons of five years old and under. These are excellent in their way, but as their alternate value in beef is what farmers should consider in raising Steers, the Durham stock should be their *main dependence*; the Ayrshires come next in order, and then may follow an infusion of Devon blood to give neatness of limb, lively motion, ease in training, and the peculiar and favorite color which distinguishes the Devon. Like the Irishman's receipt for making punch: first the whiskey, then a little sugar, then a drop of lemon, and every drop of water after that spoils the punch.

For the Committee,

GEORGE S. BROWN,
Chairman.

REPORT.

Your Committee on Female Neat Stock report a very small show. Some very superior cows were, however, on exhibition, especially those of 6 years old and upwards, to which premiums were awarded.

Your Committee recommend that exhibitors be more precise in giving age, breed, &c., in order that Committee may be enabled to report more fully.

For the Committee,

BYRON C. SIMS,
Chairman.

2nd do., James D. Allen.....	2.00
3rd do., John Cann.....	1.50
4th do., James Rose.....	1.00

REPORT.

Committee report some very good packages of butter; others were entirely too salt; taken as a whole not so good as might be expected considering the number of entries. There were some very choice samples of Roll Butter, and some difficulty was experienced in deciding on their merits, especially under the unfavorable circumstances—a driving rain storm, and without the least shelter provided.

There were only four entries of Cheese. These were all very good, and Committee had difficulty in deciding between those awarded 1st and 2nd prizes.

THOS. ALLEN, jr.,
JOS. H. PORTER,
Committee.
