IT IS A WELL KNOWN FACT THAT

MCCOLL'S "LARDINE"

is the best known, and most valuable Machine Oil in the Dominion; Farmer's, Thresher's and Mill Owner's, will find it necessary to their advantage to insist upon getting the "Genuine Lardine" when they ask for it, owing to so much inferior oil being sold under the same name by unscrupulous dealers. We are the sole manufacturers of the "Genuine Lardine." Every barrel branded.

Household Hints.

DEAFNESS CURED.—A very interesting 132 page Illustrated Book on Deafness. Noises in the head, how they may be cured at your home. For free Address DR. NICHOLSON, 30 St. John Street, Montreal.

DAVIS' PAIN KILLER is the best medicine in the world for all Diseases of the Bowels.

BREAKFAST BACON.—Slice bacon very thin, remove the rind, fill a shallow pan with cold sweet potatoes sliced, cover the potatoes with the bacon and bake until crisp; serve very hot.

OATMEAL COOKIES.—One cup of sugar, two eggs, one cup of flour, one cup of boiled oatmeal, one teaspoonful of soda, two teaspoonfuls of cream tartar, one tablespoonful of butter; roll thin, and bake in a quick oven.

OYSTERS ON TOAST.—Chop fine fifteen oysters, add salt, pepper, and a little nutmeg. Take a gill of cream and beat into it the yolks of two eggs; beat this lightly into the simmering oysters. When set, pour the mixture over slices of buttered toast.

BROWN BREAD.—One quart of good buttermilk, one teaspoonful of soda, a little salt, half a cup of molasses, one quart of cornmeal, and one pint of rye-meal or Graham flour. Stir stiff; if not stiff enough, add more of the rye or Graham flour. Bake slowly, or boil four hours in a pail.

GRAHAM MUFFINS.—Two cups Graham flour, two cups white flour, two heaping teaspoonfuls Horsford's baking powder, two tablespoonfuls sugar, and a teaspoonful salt, mixed thoroughly together when dry. Then mix with one quart of sweet milk, making a thick batter. Bake immediately in muffin rings.

SUET PUDDING.—Three cups of flour, one cup of suet chopped fine, one cup of currants, one cup of raisins, one and one-half cups of sweet milk, one teaspoonful of salt, one teaspoonful of soda, one teaspoonful of cinnamon, one-half teaspoonful of cloves. Steam three and one-half hours and serve with sauce.

A CHEAP SOUP.—A pound or a pound and a half of lean beef cut into small pieces, six quarts of water; stew in three large onions, with double the quantity of turnips; put in thyme, parsley, pepper and salt, half a pound of rice, a pound of potatoes, peeled and cut into quarters, and a handful of oatmeal. Stew at least three or four hours.

HOE CAKE.—Four enough scalding water or milk on corn-meal (salted) to make it rather moist. Let it stand an hour or longer. Pour two or three heaping tablespoonfuls on a hot griddle, greased with pork or lard. Smooth over the surface, make the cake about half an inch thick, and of round shape. When browned on one side, turn and brown it on the other. Serve very hot.

KILLING FOWLS.—Tie up the bird by the legs, using soft cord for the purpose, so that it will be just level with the operator's breast. The bird is first stunned by a blow on the head, and then the windpipe is severed with a sharp knife. The blood flows freely, and the action of the wings, left loose for the purpose, helps in that direction. In a very short time muscular action ceases.

VEGETABLE MARROW.—Pare the marrow divide, and entirely take away the soft part inside. The marrow may be cut into four equal pieces or cut into slices (slices cook more quickly). Put into the oven a roasting tin containing about one-quarter pound of butter; let the butter brown nicely. Then put in the marrow, and bake until soft and nicely browned. While cooking, this must be well basted with butter.

CARROTS.—Wash and scrape them well. If large, cut into two or three pieces. Put into boiling water with a little salt. Full-grown carrots will require three hours' boiling, smaller one two hours, and little ones one hour. Try with a fork, and when perfectly tender, take them out and dry in a cloth, divide into pieces, and split or cut into slices. Pour melted butter over them, and serve with beef or mutton.

For Delicate, Sickly Children

Scott's Emulsion is unequalled. See what Dr. C. A. Black of Amherst, N. S., says: "I have been acquainted with Scott's Emulsion of Cod Liver Oil with hypophosphites for years, and consider it one of the finest preparations now before the public. Its pleasant flavour makes it the great favorite for children, and I do highly recommend it for all wasting diseases of children and adults. Put up in 50c. and \$1 size.

DR. HARVEY'S SOUTHERN RED PINE for coughs and colds is the most reliable and perfect cough medicine in the market. For sale everywhere.

CATARRH.

A New Home Treatment for the Cure of Catarrh, Catarrhal Deafness, and Hay Fever.

The microscope has proved that these diseases are contagious, and that they are due to the presence of living parasites in the lining membrane of the upper air passages and eustachian tubes. The eminent scientists—Tyndall, Huxley and Deale—endorse this, and these authorities cannot be disputed. The regular method of treating these diseases is to apply an irritant remedy weekly and even daily, thus keeping the delicate membrane in a constant state of irritation, accompanied by violent sneezing, allowing it no chance to heal and as a natural consequence of such treatment not the permanent cure has ever been recorded. It is an absolute fact that these diseases cannot be cured by an application made often once in two weeks, for the membrane must be kept in a state of irritation until the parasites are destroyed. It is now seven years since Mr. Dixon discovered the parasite in catarrh and formulated his new treatment, and since then his remedy has become a household word in every country where the English language is spoken. Cures effected by him seven years ago are cures still, there having been no return of the disease. So high are these remedies valued, and so great is the demand for them, that ignorant imitators have started up everywhere, pretending to destroy a parasite—of which they know nothing—by remedios the results of the application of which they are equally ignorant. Mr. Dixon's remedy is applied only once in two weeks, and from one to three applications effect a permanent cure in the most aggravated cases. N.B.—For catarrhal troubles peculiar to females this remedy is a specific. Mr. Dixon sends a pamphlet describing his new treatment on the receipt of ten cents in stamps. The address is A. H. Dixon & Son, 303 King Street West, Toronto, Canada.—Scientific American.

Persons suffering from catarrhal troubles should carefully read the above.

Campbell's Cathartic Compound

(Liquid.)
