ECONOMY!!!

The undersigned gives notice to the public in general that he has just invented a

THRASHING MACHINE,

which exceeds, by one-half, the power of all others used in this Province; and is ready to thrash with this New Machine

1,500 Sheaves per day,

making clean grain. He will also undertake that with the same horse power and with grain of the same quality, he will thrash fully one-half more than any other hitherto manufactured or seen in this Province, with the further advantage that his New Machine will clean the grain so as to fit it at once for Market or Mill.

Not only does the New Machine possess the movements necessary for thrashing Wheat, Oats,

Rye and Buck Wheat; but also Peas, Beans and Indian corn; and the last may be husked.

It is also to be remarked that it economizes at least three quarters of the oil which is used to prevent friction, which is due to a newly contrived groove. And not only will this advantage be perceived, but eight others, all replete with powers, which have never been known in any other machines in this Province. Those who wish to purchase, have only to visit the workshops of the undersigned, Great St. Joseph Street. The conditions will be easy, and the advantage of the machine being guaranteed. A deduction of \$100 will be made if the machines do not thrash one-half more than machines from other shops.
