

### R. C. Bach.

We present this month a half-tone of Mr. R. C. Bach the energetic publisher of the *Montreal Philatelist*. He was born in Magdeburg, Germany in 1879. He began his first collection some ten years ago, which he sold. He started another collection soon after which he has kept adding to ever since. It abounds in choice specimens of which Revenues form a principal part. He gives a special attention to foreign revenues. In the Spring of 1898 he ushered unto the stormy philatelic sea, the first number of the *Montreal Philatelist* which he has succeeded in making one of the Canadian leaders. The Revenue and German dept. are special features of this successful journal.
