SPALDING'S

Tennis, Baseball and Athletic Goods.

Harris H. Fudger, - - Canadian Agent.

Lawn Tennis

We invite special attention to our fine line of imported English Rackets, known as the celebrated "C" Rackets, the most popular in Canada. Please note the names carefully; similar names are used by imitators.

Spalding's American Rackets. - "The Spalding." New for 1894; made of the finest white ash, new patent throat piece, strung with finest white English gut, rough handle, all hand-made, is without doubt the finest Racket ever turned out. We carry a full line of Spalding's celebrated Slocum Rackets.

Cricket

We ask special attention in this department to an entirely new line of superior

Bats (favorites on Lord's Cricket Grounds) for which we are sole Canadian agents. We secure not only the very best prices, but the latest improvements in all kinds of Cricketing Goods. We direct attention to the India Rubber and Cane Handle Bat, now used by some of the most celebrated players, and pronounced superior in elasticity and durability to every other bat.

Football

Our Association and Rugby Balls are made of the best English leather, specially tanned for footballs, warranted to stand any climate and outlast three or more ordinary balls. Special Scotch Patent

Ball (Paterson's Pattern improved), match size, with rubber complete. The advantage claim for this ball is, there being no end piece or projections, the player is less liable to injury and the ball is more durable.

Baseball Supplies

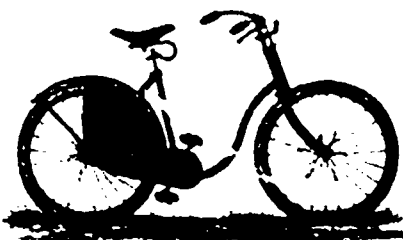

Having Spalding's wholesale agency puts us in a position to quote dealers in the towns at figures enabling them to supply their local clubs at the same prices as are obtained from Toronto sporting goods houses. Send for catalogue. Mention this paper.

Bicycles

To all lovers of Cycling the news of the establishment of a wholesale agency by the Overman Wheel Company for their celebrated Victor Bicycles will be very welcome. Harris H. Fudger, 50 Yonge Street, will supply latest catalogue, full information, and appoint local agents.
