Say it to Your Customer

It's a Good Thing

The Ideal Clip-Cap, an outside and a sectional view of which is shown above on either side of the vest cut, is attached only to Waterman's Ideal Fountain Pen, and purchasers of fountain pens to-day insist on this Clip-Cap because with it the pen can be placed anywhere with a sense of security that it will stay put. It will stay right side up wherever you clip it, and is only removed at will. It will not roll off the desk or table. It has many advantages that will be apparent at a glance.

Information and discounts on Waterman's Ideal Fountain Pens and accessories gladly furnished on request.
