 26.—Beatrice-Ernestine-Gordon, d. of Henry-Gordon and Beatrice-Kathleen MacKenzie.

MARRIAGE.

- July 28.—George Dodds to Ida Spence.

PARISH NOTES.

OFFERTORY.—July 5th, \$37.21, and for Sunday School Pic-Nic, \$2.10; 12th, \$33.74, and for Sunday School Pic-Nic, \$10.25; 19th, \$25.30; 26th, 25.50, and for Mission Fund, 26.23. Total ordinary, \$121.75. Corresponding period last year, \$132.37.

The place chosen this year for the Sunday School Pic-Nic was Riverside Park, and on the 15th the children, accompanied by the teachers, and many of the parents, were conveyed there by the ferry steamer "Annie Craig." The sail was enjoyed by all, young and old. The usual games were indulged in; so that there was

no lack of amusement. After tea the children returned to their homes delighted with their "outing," which had been given them through the liberality of the congregation.

During the summer term the Temperance Meetings have been given up. The Mission Services will be continued, as will be seen by the "Kalendar." The attendance at these services despite the very warm weather of late has not decreased. On the 14th over eighty were present, and on the 21st and 28th almost as many were out.

The Mission Building will be ready for occupation almost immediately.

THE IMPROVEMENTS.

The Committee to whom it was referred by the Vestry "to decide upon the manner, style, and designs of the decorations," have considered it prudent to hasten slowly, and have therefore postponed their decision upon the question referred to them until the financial part of the scheme is more matured. In the meantime they have decided to execute a part of the work for which sufficient means are available, and a beginning has been made accordingly. The chancel has been selected for this work, and is to be decorated throughout in accordance with the designs which have been exhibited for the inspection of the congregation.

It will be observed that wooden mouldings have been introduced into this work. These are not for ornament merely, but to correct, or rather counteract, defects in construction of the arched ceiling of the chancel.

The west windows have been reopened, their position in the wall being altered so as to bring them into harmony with the interior architectural lines, and thus obviate the glaring defect which was undoubtedly the reason for their having been walled up for so many years. We are sure that all will agree that these windows are a decided improvement upon the ill made wall which has so long pretended to conceal them. They will also be useful in aiding the ventilation of the Church. They are to be filled with plain stained glass, which is all ready to be put up, and will be in position early in August.

The slating of the roof is almost finished. Preparatory to this being done, the large chimneys put up some years ago, and which have been notable for their costliness, ugliness, and utter uselessness, have been taken down to the level of the roof, the rest being left standing to serve the purpose of buttresses.
