SECRETARY'S OFFICE. Montreal, November 21th, 1848.

His Excellency the Governor General has been pleased to make the following appointments, viz. :-Lawrence Cunningham Kearney, of Windsor, gentleman, and Issanc H. Smith, of Lacolle, Preventive Officers, to be Landerg Waiters and Searchers in Her Majesty's Customs.

Robert McCosh, Esq., to be Associate Coroner for the Disrict of Core.

A. Acland, D. Lizars, J. Galt, R. Robertson, and R. Moderwell, Esq., and the Rev. A. McKid, to be a Board of Trustees for superintending the Grammar Schools in the District of

James Hall, M.P.P., Thos. Benson, and Jno. McNabb. M.D., Esq., to be Associate Members of the Board of Trustees for rintending the Grammar Schools for the District of Dal-Thomas Deazeley, of Toronto Gore, Esq., Surgeon R.N., to

practice Physic, &c., Upper Canada.

And to grant license to the following person, viz.:

J. Ownsworth Brown, Toronto, gentleman, to practice the Art of Surveying Land in that part of the Province formerly

saited, at public houses, or at the halls of their brother firemen, whenever these could be conveniently spared for their accommodation. This inconvenience, we are happy to say, has been obviated, through the advocacy of the indefatigable head of the fire department, Mr. Chief Engineer Beard, in his capacity of Alderman, in his having obtained from the city Council the means to erect a new hall on Bay-street, for the accommodation of the Hose and Protection companies, adjoining the hall of the British America Fire Company. The new hall has just been erected, and by way of celebrating the event, the Hose and Protection companies assembled there, on Wednesday evening, and the Montreal papers containing the account of this meesing, did not reach us until late last evening, which put it out of our power to give even a synopsis of the speeches as reported in our paper of to-day. We have therefore suited, at public houses, or at the halls of their brother firemen, Protection companies assembled there, on Wednesday evening, in full strength, for convivial enjoyment. They were joined by a number of guests, consisting of officers and members of the several fire companies of the Brigade, the agents of several of the Insurance Companies, and others of their fellow citizens. Between eight and nine o'clock the company sat down to a sumptuous supper, which was laid for them in the new hall, and prepared by Mr. Rennie, of the American Hotel, to whom much credit is due for the admirable manner in which he provided the chair, and Mr. Assistant Engineer Mills acted as Vice. The company having done ample justice to the good cheer which was placed before them, a succession of toasts followed, which were severally introduced by appropriate and well delivered addresses, and responded to in a manner which testified beyond question the cordiality with which they were received, and the gratification experienced by all present. Suitable addresses were also delivered in reply to several of the toasts, which were equally well received: and the harmony of the company was still further promoted by the introduction of some excellent somic and other songs. The "Ethiopian Band" of the Hose Company attracted a more than ordinary share of attention, and imparted a great deal of diversion to the delighted party by their correct and highly amusing execution, in the peculiar and laughable department of vocal music which they practise with so much success. Their skill is such that we apprehend Mr. Lothrop's band of "Ethiopian Harmonists" would have but a erected, and by way of celebrating the event, the companies assembled there, on Wednesday evening,

Lothrop's band of "Ethiopian Harmonists" would have but a poor chance in this locality, were they to direct their steps thitherward, when we have such adepts among ourselves. The valuable services of the Fire Department were fully acknowledged by the several speakers, and the strongest testimony was borne to the great zeal of the different Companies, on all occasions, at the risk of the members' lives; and, indeed, it. sometimes happened that valuable lives were sacrificed on those occasions. The several Agents for Insurance Companies regretted that the Companies which they represent had not contibuted more to the funds of the Fire Brigade, and they pledged there. themselves to bring the matter under the consideration of their superiors. The present weakness of the Protection Company was referred to by Mr. Whittemore and others, with an expression of hope, that henceforward they would recruit in numbers; and Mr. Whittemore pledged himself, on behalf of the Insurance Company for which he acts, in the event of the Protection Company making a collection to create a fund for themselves, to contribute at once £5 towards it. The very enthusiastic manner in which the favorable remarks of Capt. Reynolds were received, in regard to the Chief and Assistant Engineers, proved received, in regard to the Chief and Assistant Engineers, proved the attachment of the Fire Companies to those officers, and the replies of Messrs. Beard and Mills showed, on the other hand, that this brotherly feeling was reciprocated by them. Mr. Yates took occasion, during the evening, to deliver a very animated address, which was much to the purpose, and well received. ceived. He retained, in very grateful remembrance, the servi-ces rendered him by the Fire Brigade, on a former occasion, when his premises had taken fire; and so anxious was he to see the Protection Company increased in numbers, that frail as he was, he had enrolled himself as a member of it. Shortly after midnight to company increased in the company in the company increased in the company in the company in the company increas midnight, "God save the Queen" was sung, and the company broke up, much gratified with their evening's enjoyment. It was intimated by the Chairman, that a meeting would be held last night for the enrolment of members in the Protection Company. It may not be out of place to mention, that the duties imposed on this Company are to watch property at fires, and preserve it from thieves and vagabonds, when removed from shops and houses endangered, also to assist in its removal.—Colonist.

REPEAL OF THE NAVIGATION LAWS .- At the public meeting beld in Montreal, on Monday of last week, his honour the Mayor presided. The meeting was not as large as was expected. Messrs W. B. The Resolutions were then carried as follows:-Ist. "That this meeting, fully concurring in the resolutions, with reference to the Brittsh Navigation Laws, adopted at a public meeting, held in this city on the 13th June last, and deeming the question of the highest importance to the interests of Canada, think it advisable to repeat in substance and confirm what was then resolved upon with

onerous restrictions."

The second resolution was moved by the Hon. A. N. Morin Speaker of the House of Assembly, whose remarks were insudible by the Reporters. It was seconded by John Young, Esq., in a speech of considerable length, and carried as follows:

2nd. "That this meeting, from further experience acquired in the season just closed, see the most powerful reasons to reiterate what was urged by their fellow citizens at the public iterate what was urged by their fellow citizens at the public meeting already referred to, viz.:—That there is the strongest ground for apprehension, should the British Navigation Laws (so far as they affect this Province) continue in force after the protection to Canadian grain and flour in Great Britain is withdrawn, that the bulk of the produce, both of the Western States and of Canada West, will be sent to ports of the United I States for shipment, notwithsteading the apparies advantages. States for shipment, notwithstanding the superior advantages in economy of transport, which the internal communications of Canada possess, but which are fully counterbalanced by the greater cheapness of ocean freight in the United States, and that the Navigation Laws will thus be rendered imperative as, regards their main object, that of protection to British shipping, whilst they will exercise a most baneful influence alike over that portion of our revenue derived from Public Works, and over the interests of every individual connected with the trade and com-

interests of every individual connected with the merce of the country."

The third resolution was moved by John Glass, Esq., who poke in its support at considerable length; and Dr. Beaubien seconded the resolution in French, amidst a general move of the persons assembled towards the door, so that very little of what he said anfortunately reached the Reporter's ears.

The resolution was carried as follows:

3d. "That this meeting have duly considered the Bill 'To

amend the laws in force for the encouragement of British ship-ping and navigation, prepared and brought into the House of Commons by Mr. Pernal, Mr. Labouchere, and Lord John Commons by Mr. Bernal, Mr. Labouchere, and Lord John Russell, and ordered to be printed on the 6th August last,—and although they desire to refrain from any expression of opinion with regard to the merits of the Bill so far as they affect the general interests of the Empire, yet conceiving that it July meets the wants and just claims of this Province, inasmuch as it recovers to leave by free to appelled foreign or Register was as it proposes to leave us free to employ foreign or British vessels at our option in our commerce with the United Kingdom and other nations, and to concede to the Provincial Legislature and other nations, and to concede to the Provincial Legislature the power to regulate our coasting trade and island navigation, as it may deem most for the general good—hail the measure in this latter sense with satisfaction, and trust that the urgency of our case will be duly appreciated by her Majesty's Government and the Imperial Parliament,—this meeting being convinced that the provisions of the Bill, so far as they relate to Canada, are indispensable for the restoration of prosperity to this Colonv."

Jacob De Witt, Esq., M.P.P., moved the 4th resolution, and spoke at length in its support; which was seconded by Mr. Gagnon, and carried as follows:—

4th. "That a humble petition, founded on the foregoing resolutions, be prepared for transmission to her Majesty the Queen and the Imperial Parliament; and that his Excellency the Governor General be moved to transmit the same, and support to the prayer; also, that negitions be prepared and presented. the Governor General be moved to transmit the same, and support to its prayer; also, that petitions be prepared and presented to both Houses of the Provincial Legislature at the next Session, praying them to support the objects of this meeting with suitable addresses to the imperial authorities."

The next resolution was moved by John G. McKenzie, Esq., who addressed the meeting at some length on the subject. The

FIREMANS' JUBILEE.—The Hose and Protection Companies, of the Fire Brigade of the city of Toronto, whose valuable services have been freely rendered for years, in conjunction with those of the other companies of the fire department, in cases of fire, for the preservation of life and property, have not, strange to say, until now, had a place provided for them in which to assemble. TORONTO PHILHARMONIC SOCIETY. - A meeting of this Society was held at the rooms of J. Ellis, Esq., King Street West, on Friday last, the Rev. Dr. McCaul, President, in the chair. After some discussion, a resolution was adopted, declaring the expediency of the desired coalition, on condition that the new society undertakes sired coalition, on condition that the new society undertakes to satisfy all just claims existing against the older society, and shall thereupon become entitled to the possession of its music and other property.

We understand the intention to be, to re-establish the Phil-

We have only room for a very few remarks on the "Heads of the Bill," referring to them by number, premising that one important point is omitted, viz., that it is proposed to institute two Legislative Bodies—the Convocation and the Schatte, called by the Examiner the Council; the latter to prepare the business, by the Framiner the Council; the latter to prepare the business, the former to adopt, amend, or reject.

We have just been visited by one of these periodical gales, that remind us of approaching winter and a Buffalo climate.—
On Wednesday night it commenced raining, with a light breeze from W.S.W. During the night the wind increased in fury, from W.S.W. During the night the wind increased in fury, and at about 4 o'clock yesterday morning it had worked itself up to a smart hurricane. Notwithstanding the force of the wind equalled any gale we have experienced for years, the Iower part of the city was not seriously flooded, and the damage of water is comparatively trifling. This is owing no doubt to the low state of the water in the lake, together with the fact that the wind had been down the lake for some days. The low lands have to some extent been filled up with earth, which also held the waters back from creating anything like a destructive flood. Many poor Irish families who had erected rade tenements on the low lands in the region of the new cansis and slips, were the low lands in the region of the new canals and slips, were driven from their homes by the waters, in a distressing condition as to apparel and food. The wind did damage in various parts of the city by demolishing the walls of buildings in process of construction, and unroofing and blowing off the chimneys of others. During the morning we had several alarms of fire, but fortunately without any serious damage. A row of Irish shanties near the Eastern Railroad Depot took fire, and before it could be extinguished four were entirely destroyed, throwing as many families out of their homes, under circnmstances of great distress.
