HISTOGENETIC SYSTEM OF MEDICINE

A MODERN MECCA

*All diseases successfully treated
by the new system of pure and
tasteless medicine. So-called
incurable cases preferred.*

Gerrard Arcade, Toronto

CAME TO CANADA TO BE CURED

*THEORY—
Rebuilding the diseased
cells and tissues of the body
with the same proximate prin-
ciples and so on, which are
normally prepared in the body
by the glands.*

NATIONAL LIBRARY

looking into it, and as soon as
Histogenetic Medicines are placed in
the drug stores no doubt scores of
physicians will abandon poisonous
drug compounds. Several of the
leading physicians of Canada pre-
scribe them exclusively already.
They will cure disease at a later
stage than allopathic medicine. All
wishing to study the cell theory of
disease advanced by the great Vir-
chow send for the "Entire Revolu-
tion in Medicine." We send it to all
invalids free of charge.

Hundreds of invalids with
wasting diseases, nervous debili-
ty, consumption, and in fact "all
the ills which flesh is heir to," all
over the Dominion are being cured
at this Dispensary, Yonge
and Gerrard Sts., Toronto, and
also at the Albion Block, Lon-
don, Ont. This system is really,
as Dr. J. Eugene Jord in expres-
ses it, "the entire revolution in
medicine." Thousands of enquir-
ies are being made at both these
centres from all parts of the con-
tinent of America. The medical
men of Canada are especially

To the Histogenetic Medicine Association :

GENTLEMEN,—Am a farmer, aged 25 years, and a resident of Sand Beach, Michigan, U. S.; was taken ill about the 11th of November, 1891, with a cold from exposure, and about two weeks thereafter visited Dr. —, a well known medical practitioner of Sand Beach, who treated me for about three months, calling my disease pneumonia, stating that both my lungs were diseased badly. I had chills for a long time, with bloody expectoration, sluggish liver and bad digestion, bowels costive and a bad cough, also sleeplessness. Receiving no benefit from the doctor's treatment, I then visited Dr. — of the same place, who examined and prescribed for me, and stated that I had bronchitis, with consolidation of both lungs. This treatment benefited me only for a while. I then went to Detroit and visited a doctor, a lung specialist, who prescribed for me, and said my case was hopeless and advised me to go west to a warmer climate. I steadily lost flesh, dropping from 168 pounds to 136 pounds, and I became despondent, but thanks to God I heard of the famed success of your plan of treatment, and decided to visit your London branch, arriving here on the 18th of last month; was carefully examined by the Association's physician, who gave me so much encouragement that, having patiently and carefully followed his directions, am now almost well; eat heartily, no cough, and gained rapidly in flesh—exactly four pounds in three weeks—and the happy result costing me only \$12 for the Histogenetic Medicine used. Consultation free. Myself and family are placed under obligations to the Histogenetic Medicine Association never to be forgotten.

Yours truly,
ISAAC LESTER, JR.
