SCIENCE.

The only weekly Scientific Journal in America published for the educated reading public in general, and not catering to any particular trade, profession or branch of science.

ACCURATE MAPS.

SCIENCE is the only American journal that systematically publishes Accurate Maps of those regions which attract, from time to time, the world's attention. The readers of SCIENCE have recently had large and trustworthy Maps of the Isthmus of Panama, Roumelia, Afghanistan, the Polar Regions, the Congo Free State, New Zealand, showing location of recent volcanic disturbances, and other centres of interest.

POLITICAL SCIENCE.

SCIENCE is now presenting a discussion on disputed questions in Political Science, between the adherents of the so-called old and new schools. To this discussion able articles have been contributed by Professors Sumner and Hadley of Yale, Laughlin and Taussig of Harvard, Fly of Johns Hopkins University, James of Philadelphia, Simon Newcombe of Washington, and others.

TERMS:—Subscription for one year, U. S. and Canada, \$5; To foreign countries, \$6; Trial subscription, for three months, \$1; Science with Political Science Quarterly, \$6.50; Science with Nature, \$10.25.

"The value of this comprehensive scientific weekly to the student, the scientific worker, the manufacturer, and to the whole of that large and daily-growing class to which scientific knowledge is a necessity, can hardly be over-estimated. With this month (June) closes the seventh volume and the public will be glad to learn that the publishers intend to so enlarge the scope of the journal as to keep its readers au courant with the progress of scientific investigation in all its fields. The article on artificial butter, of which we gave a summary, the map of the oil and gas wells of Ohio in the last number, the letters from correspondents at London, Paris, Vienna, St. Petersburg, Tokio, and elsewhere, the important papers on economics from such men as Sumner, Newcomb, Fly, and Seligman, and the excellent reviews and comments give evidence of the wide range of investigation and discussion dealt with in Science. No student, business or professional man should be without it."—Montreal Gazette, July 6, 1886.

Pearl Street Edition, 8 vols., large 12mo, fine cloth, gilt tops, 427 fine illustrations. Price, \$8.40, equivalent to the Library Edition except that it is printed on smaller paper, giving narrower but good margins.

Far the best popular history of that country. Clear, vigorous, graphic, even eloquent, it is as fascinating as a romance: and it is as well comprehensive and thorough. The work has been one of the longed-for prizes of the general reader of history. All in all, the neatest volumes this publisher has yet issued.—*Republican*, Springfield, Mass.

427 Fine Illustrations. "In style of cover, firmness of binding, quality of letterpress, affluence of illustration, and lowness of price, this edition of one of the noblest historical works in existence, is one of the most remarkable publications now offered to the public."—*Morning Star*, Dover, N. H.

Guizot takes rank among the most illustrious representatives of his age and nation. The style is easy, familiar, clear and entertaining, and the publishers have done a good service in giving to the public in so fresh a form this best work of a modern French historian.—*Advance*, Chicago, Ill.

It is a wonderfully full and attractive history by one of the first historians of his age—a history worthy of being the last production of the brain and pen of Guizot. His country needs no better historical monument; the student needs no better history.—*Interior*, Chicago, Ill.

The matchless brilliancy of Guizot's style, graphic descriptions of men and events, painstaking minuteness of detail, the lucidity and ease, and the admirable philosophic reflections, all combine to render it worthy of the description it bears as the most popular history of France. It is as fascinating as a novel, and as life-like as a theatrical representation of the events and personages it describes. How the set can be sold for that price remains, after much reflection, a

History of France from the Earliest Times to 1848 By M. Guizot and his daughter, MME. GUIZOT DE WITT. Translated by Robert Black. In eight volumes, Bourgeois type, loaded. **Library Edition**, 8 vols., small octavo, fine cloth, beveled boards, gilt tops, 427 fine illustrations. Price, \$8.40.

mystery, for the work is not sham work, it is well done; altogether it is a marvel of cheapness. Mr. Alden has done much for the cause of good literature, but nothing better than this.—*Daily Times*, Buffalo, N. Y.

Guizot is the Macaulay of the history of France. His narrative is full of emotion, like a quick stream; his characters rise before us as in the flesh; they are men and women, not historic lay figures. It is as charming as any romance. There is only one drawback... it seems more like getting a present than making a purchase.—*Dominion Churchman*, Toronto.

THE COST Of the Imported Edition, with substantially the same illustrations, is \$36.00, while this is certainly the best in form and the most satisfactory for the library. "From the pen of a master. How Mr. Alden can give the eight volumes for \$6.00, and this on good paper, and clear type, including the multitude of illustrations, is a thing we have ciphered over, but we fail to understand it."—*Christian Leader*, Boston, Mass.

France has had a history second to no country on earth. Histories innumerable have described her deeds of chivalry and glory. But in accuracy, brilliancy, and all that goes to make a history, none compare with the fascinating pages of Guizot. He is as brilliant as Macaulay and as painstaking as Hume. This edition is profusely illustrated and they are illustrations that do illustrate.—*American Baptist Reflector*, Chattanooga, Tenn.

WILL RE-OPEN, SEPTEMBER 2ND, 1886.

The buildings are modelled after the aristocratic country seats of England, and are unequalled in Canada. The grounds are provided with all modern amusements that tend to promote the pleasure and health of pupils, such as a toboggan slide and skating rink for winter, and lawn tennis, croquet, etc., for the spring and autumn.

Five distinct departments of study, directed by the best professional talent, afford every desirable facility for thorough and advanced tuition.

Musical specialists, Art specialists, Elocution specialists, Commercial specialists, as well as literary and scientific specialists, should send for our new illustrated calendar, and examine for themselves the grand array of distinguished professors and teachers that direct the work of the different departments.

Favoured with a beautiful location in close proximity to the "Queen City," we are determined to make our college what some admiring patrons have called it, "The Ideal Ladies' College."
