THE BEST MAGAZINE FOR THINKING PEOPLE

1891

While continuing the well-known features that have made it valued and respected for nearly a score of years, THE POPULAR SCIENCE MONTHLY will soon begin the publication of a series of important articles on

**THE DEVELOPMENT OF AMERICAN INDUSTRIES SINCE THE TIME OF COLUMBUS.**

Each article will be prepared by a writer of long practical acquaintance with his subject, and will be copiously illustrated. Among the early papers in this series will be **The Development of the Cotton Manufacture**, by EDWARD ATKINSON; **The Iron and Steel Industry**, by W. F. DURFEE; **Woollens**, by S. N. D. NORTH; and **Glass**, by PROF. C. HANDFORD HENDERSON. Articles on the **Silk, Paper, Pottery, Agricultural Machinery, and Ship-building** industries are among those in active preparation.

HON. DAVID A. WELLS on **Taxation**. A series of papers on "The Principles of Taxation," based upon a course of lectures given by Mr. Wells at the invitation of the Faculty of Harvard University, will be one of the features of the coming year.

DR. ANDREW D. WHITE'S **New Chapters in the Warfare of Science** will continue to appear from time to time.

The other contents of the magazine will be of the same general character and high order of excellence as heretofore.

With other illustrations, each number contains a finely engraved **Portrait** of some eminent man of science, with a **Biographical Sketch**.

There is hardly a question of the day upon which science does not throw light hardly a problem of human interest whose solution can not be best approached by the method of scientific research. The brightest minds have recognized that science furnishes the most efficient guidance in ordering the lives and affairs of men. No one who wishes to keep up with the knowledge of the time can afford to be without THE POPULAR SCIENCE MONTHLY.
