

## II

1. The end of the East-West confrontation provides a historic opportunity, but also underlines the urgent need to curb the proliferation of nuclear weapons, other weapons of mass destruction and missiles capable of delivering them. We are firmly of the view that the indefinite extension of the nuclear Non-Proliferation Treaty at the 1995 Review Conference will be a key step in this process and that the process of nuclear arms control and reduction must be continued. The motivation for nuclear proliferation will also be reduced through efforts to advance regional security.
2. We urge countries not yet parties to the NPT to join. We look forward to the early adherence to the NPT as non-nuclear weapons states of Ukraine, Kazakhstan and Belarus as well as the other non-Russian states of the former Soviet Union. We shall continue through bilateral contacts and the International Science and Technology Centres in Moscow and Kiev our efforts to inhibit the spread of expertise on weapons of mass destruction. We attach the highest importance to the establishment in the former Soviet Union of effective export controls on nuclear materials, weapons and other sensitive goods and technologies and will offer training and practical assistance to help achieve this.
3. The world needs the most effective possible action to safeguard nuclear materials and to detect and prevent the transfer or the illicit or clandestine production of nuclear weapons. Nuclear cooperation will in future be conditional on adherence to the NPT or an existing equivalent internationally binding agreement as well as on the adoption of full-scope International Atomic Energy Agency safeguards, as recently laid down by the Nuclear Suppliers Group. The IAEA must receive the resources necessary to strengthen the existing safeguards regime and to conduct effective special inspections of undeclared but suspect nuclear sites as one means of achieving this. We will support reference by the IAEA of unresolved cases of proliferation to the UN Security Council.
4. We reaffirm our willingness to share the benefits of peaceful nuclear technology with all other states, in accordance with our non-proliferation commitments.
5. We will continue to encourage all countries to adopt the guidelines of the Missile Technology Control Regime and welcome the recent decision by the plenary session of
