

TERMINATION OF SAFEGUARDS

ARTICLE 11

Consumption or dilution of nuclear material

Safeguards shall terminate on nuclear material upon determination by the Agency that the material has been consumed, or has been diluted in such a way that it is no longer usable for any nuclear activity relevant from the point of view of safeguards, or has become practically irrecoverable.

ARTICLE 12

Transfer of nuclear material out of Canada

The Government of Canada shall give the Agency advance notification of intended transfers of nuclear material subject to safeguards under this Agreement out of Canada, in accordance with the provisions set out in Part II of this Agreement. The Agency shall terminate safeguards on nuclear material under this Agreement when the recipient State has assumed responsibility therefor, as provided for in Part II of this Agreement. The Agency shall maintain records indicating each transfer and, where applicable, the reapplication of safeguards to the transferred nuclear material.

ARTICLE 13

Provisions relating to nuclear material to be used in non-nuclear activities

Where nuclear material subject to safeguards under this Agreement is to be used in non-nuclear activities, such as the production of alloys or ceramics, the Government of Canada shall agree with the Agency, before the material is so used, on the circumstances under which the safeguards on such material may be terminated.

NON-APPLICATION OF SAFEGUARDS TO NUCLEAR MATERIAL TO
BE USED IN NON-PEACEFUL ACTIVITIES

ARTICLE 14

If the Government of Canada intends to exercise its discretion to use nuclear material which is required to be safeguarded under this Agreement in a nuclear activity which does not require the application of safeguards under this Agreement, the following procedures shall apply:

- (a) The Government of Canada shall inform the Agency of the activity, making it clear:
 - (i) That the use of the nuclear material in a non-proscribed military activity will not be in conflict with an undertaking the Government of Canada may have given and in respect of which Agency safeguards apply, that the material will be used only in a peaceful nuclear activity; and
