

JANUARY 11, 1952, GENERAL ASSEMBLY RESOLUTION 502 (VI)

ESTABLISHMENT OF DISARMAMENT COMMISSION

(Adopted at 358th Plenary Meeting by a vote of 42 in favour (including Canada), 5 against (Soviet Bloc), with 7 abstentions)

The General Assembly,

Moved by anxiety at the general lack of confidence plaguing the world and leading to the burden of increasing armaments and the fear of war,

Desiring to lift from the peoples of the world this burden and this fear, and thus to liberate new energies and resources for positive programmes of reconstruction and development,

Reaffirming its desire that the United Nations develop an effective collective security system to maintain the peace and that the armed forces and armaments of the world be progressively reduced in accordance with the Purposes and Principles of the Charter,

Believing that a necessary means to this end is the development by the United Nations of comprehensive and co-ordinated plans, under international control, for the regulation, limitation and balanced reduction of all armed forces and all armaments, for the elimination of all major weapons adaptable to mass destruction, and for the effective international control of atomic energy to ensure the prohibition of atomic weapons and the use of atomic energy for peaceful purposes only,

Recognizing that a genuine system for disarmament must include all kinds of armed forces and armaments, must be accepted by all nations whose military resources are such that their failure to accept would endanger the system, and must include safeguards that will ensure the compliance of all such nations,

Noting the recommendation of the Committee of Twelve established by resolution 496 (V) that the General Assembly should establish a new commission to carry forward the tasks originally assigned to the Atomic Energy Commission and the Commission for Conventional Armaments,

1. Establishes under the Security Council a Disarmament Commission. This Commission shall have the same membership as the Atomic Energy Commission and the Commission for Conventional Armaments, and shall function under the rules of procedure of the Atomic Energy Commission with such modifications as the Commission shall deem necessary;

2. Dissolves the Atomic Energy Commission and recommends to the Security Council that it dissolve the Commission for Conventional Armaments;

3. Directs the Disarmament Commission to prepare proposals to be embodied in a draft treaty (or treaties) for the regulation, limitation and balanced reduction of all armed forces and all armaments, for the elimination of all major
