

# We Did Not Originate the Balmacaan Top Coat

but our designers have improved so much upon the original model that we have for you wear the niftiest garment in town for \$18.00, \$20.00, \$22.00 and \$25.00, smart, chic and chuckful of vim. All the other models of Spring weight top coats are here in great profusion, with fabrics and styles right to the minute. Prices easy for everyone—\$10.00, \$12.00, \$15.00, \$18.00 and \$20.00. Truly we have a splendid showing.

## SUITS

The prevailing cut in young men's suits just now follows closely the lines adopted by the English dressers, modified by our experts to meet the ideas of correct form among the young men of Toronto. We have a showing for this season that will prove interesting from all points—price, style, quality, fabrics, fit and durability.

## Atmosphere-Resisting Garments

usually called Raincoats, but which can be used almost any day in the year, made from cravenetted fabrics that will resist moisture and look smart at all times. The price range for these particularly useful coats runs from \$12.00 to \$30.00. For a real rain shedder you need the genuine Parramatta Rubber Coat. These come in so many shades and such a large variety of fabrics that it would be almost impossible to describe them in a brief space and do them justice. The price range is from \$6.50 right up to \$30.00, so that it is reasonable to suppose we can please most any man with a Raincoat.

## REMEMBER!

Our store is strictly an all-clothing house and we allow nothing to distract our attention from making and selling the best clothing that can be found anywhere in Canada. Every one of our salesmen is trained in the art of pleasing our customers, and they are all backed up by the personal guarantee of the management—to make good every garment that does not hold up to our standard of clothing perfection.

### HUERTA'S PROPOSAL IS NOT ACCEPTED

#### Hitch Over Salute Has Caused a Renewal of Apprehension.

(Continued From Page 1.)

demand somewhat, saying he would not insist on having the salute fired while the American flag was hoisted on Mexican territory, and would be satisfied if the salute was to the flag "in a conspicuous place," either on the mast of the Dolphin or a Mexican gunboat.

There was much discussion in official circles not only about the propriety of returning Huerta's salute in view of the peculiar diplomatic relations between the Mexico City administration and the Washington government, but because of a navy regulation, No. 1134, which reads:

**An Awkward Regulation.**  
"No salute shall be fired in honor of any nation, or of any official of a nation not formally recognized by the government of the United States.

In explanation of this point, Rear-Admiral Fiske, aide for operation at the conference with other aides at the navy department, and Secretary Daniels issued the following statement: "This regulation is interpreted as a prohibition against firing a salute in honor of any government which has recently come into being, or in honor

of an official of such government, if it has not been formally recognized by our government. Any such salute would be considered as a recognition of that government; and in order to escape from the consequences of such apparent recognition, it would become necessary for our government formally to disavow it.

"In 1893 Rear-Admiral Stanton, U. S. navy, made the mistake of saluting the flag of Rear-Admiral Mello, who was then in revolt against the Brazilian Government. The Brazilian Government complained to the United States Government, which promptly disavowed the salute, and relieved Admiral Stanton from command.

**Essential Point Yielded.**  
"A number of high officials considered that Huerta had yielded the essential point and was merely trying to adjust the controversy so that his dignity before his own people would not be lowered."

At the cabinet meeting the situation was only briefly discussed, the secretaries approving a message to Huerta's disposition for Gen. Huerta and attention then turned to other subjects.

That the incident was not considered closed was indicated, however, by the change in plans which both the president and Secretary Bryan made when the message came showing Huerta's disposition to argue about details. The president will not go to White Sulphur Springs, W. Va., until tomorrow night, and Secretary Bryan will not go to Florida until the whole question is adjusted.

Just when the salute will be fired even to an agreement is reached, is conjectured. Many officials think the majority of the ships of the Atlantic fleet will be on hand when the salute is fired at Tampico.

Secretary Daniels said the orders which had been given to Rear-Admiral Badger was merely to proceed to Tam-

pico, tho he had been acquainted with all phases of the situation, diplomatic and otherwise. Mr. Daniels announced, too, the third division of the Atlantic fleet, which for some time has been getting ready for Mexican service in Mexican waters, would sail on April 26 or 27 and probably would relieve the ships of the second division.

**Recognition Involved?**  
While administration leaders and many Republicans have satisfied themselves that to return the Mexican salute would be in accordance with international precedents and could not be regarded as any form of recognition of the Huerta Government, there are members who believe to the contrary.

Representative Murdock, Progressive leader in the house, disapproves entirely of returning a salute to the Huerta forces. "If we return a salute to those bandits," said he, "we might as well fire a few guns to the memory of Robin Hood, Rainsli or Jesse James."

As to the future course of the American Government toward Mexico, provided the apology is forthcoming from Huerta for the Tampico incident, the general impression in congress is that increased vigilance is now to be maintained, and that many of the warships now speeding to Mexican waters will be held there both in the Atlantic and the Pacific.

### N.B. GRAFT CHARGES MUST BE SPECIFIC

#### Detailed Information Required Before Probe Into Irregularities is Made.

FREDERICTON, N.B., April 17.—L. A. Dugal, M.L.A., who made the charges against Premier Fleming and members of the government in the New Brunswick Legislature, today received a letter from acting Premier George A. Clarke, asking him to supply specific details of his allegations. In his letter the acting premier says these details must be furnished before any tribunal can be appointed to investigate them.

Mr. Clarke itemizes the requirements of the government from Mr. Dugal as follows:  
1. Particulars of the charges against the prime minister in connection with timber limits.  
2. Statements of the manner or the method by which moneys paid by the Provincial Government to the St. John and Quebec Railway Company were diverted from their proper channels and the purpose for which they were used.

3. The names of the contractors under the St. John and Quebec Railway Company, who were compelled to pay and did pay large sums of money to members of the government in the year 1912 before they obtained their contract.  
4. The name of each member of the

government to whom any part of these moneys was paid.  
5. The amount of money paid in each individual instance.

Mr. Clarke further urges Mr. Dugal to supply the information asked for because an unwarranted suspicion may very naturally have been awakened in the public mind against members of the government, who are wholly unconnected with the subject matter of the charges.

### CROSSING GATES DOWN NO ONE TO BLAME

#### Jury Finds no One Responsible For Death of John Stortz.

Accidental death, with no one responsible, was the finding of the coroner's jury last night at the inquest upon John Stortz, the youth who was run down and killed on April 12 at the Sunnyside railway crossing. Evidence showed that the crossing gates were down at the time of the accident. The engineer of the locomotive stated he did not know his engine had struck anyone until he read it next morning in "The World."

### DON'T WANT THEM IN DON VALLEY

#### Deputation May Protest Against Establishment of Sewage Disposal Plants.

### ASK FOR ANNEXATION

#### Northwest Property Owners Petition Will Be Dealt With by Council.

The board of control got a tip yesterday that a deputation, large and influential, may appear in the city hall to protest against sewage disposal plants being established in the Don Valley. However, the recommendation of the works committee, that the North Toronto sewerage system be approved, was sent on to council, and if the deputation appear at the council meeting next Monday, the matter will probably be referred back to permit a conference with the works committee.

### DEPONDENT SHIPPER DRANK BUG POISON

#### William Senior Who Sought to End His Life Is Recovering in Hospital.

William Senior, age 29, 2 Liberty street, attempted to commit suicide in the factory of the Kibbarn Medicine Company on Saunders avenue, where he is employed as a shipper, by drinking a quantity of liquid bed-bug poison at noon yesterday. The man was found in an unconscious condition in the lavatory by Ivy Sheward, 50 Lappin avenue, another workman in the building. He was removed to the Parkdale Hospital in the police ambulance, where it is reported that he will recover.

### To Cure Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deafness and head noises will be glad to know that this distressing affliction can be successfully treated at home by the use of a simple medicine that in many instances has effected a complete cure after all else has failed. Sufferers who could scarcely hear a watch tick have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from their ear.

Therefore, if you know someone who is troubled with such symptoms, or catarrhal deafness, cut out this formula and hand to them, and you will have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home, and is made as follows: Secure from your druggist 1 oz. Parmit (Double Strength), about 75c worth. Take this home, and add to it a pint of hot water and 4 oz. of moist granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

The first dose promptly ends the most distressing head noises, dizziness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat are other symptoms that show the presence of catarrhal poison, and which are quickly overcome by this efficacious treatment. Nearly ninety per cent of all ear troubles are directly caused by catarrh; therefore, there are but few people who have hearing cannot be restored by this simple home treatment.

Every person who is troubled with head noises, catarrhal deafness, or catarrh in the throat, should give this prescription a trial. There is nothing better.

Important—In ordering Parmit always specify that you want Double Strength. Your druggist has it or he can get it for you. If not, send 75c to the International Laboratories, 74 St. Antoine street, Montreal, P.Q., who make a specialty of it.

### FORCE OF ARMS IS ONLY REMEDY

#### London Spectator Pours Riddle Upon Pacifist Policy of Wilson.

Canadian Press Despatch. LONDON, April 17.—In an article dealing with the Mexican situation, The Spectator says: "It has come to this, that intervention, which has been delayed during series of hideous murders and vast destruction of foreign property, is now being threatened in order to exact a mere formal obedience to the American flag. It would be impossible to imagine a more complete Nemesis attending an idealistic and pacifist policy. All this is the direct result of the extraordinary delusion, which has never been harbored by anyone but the pacifist, that you can dictate a mere code to an independent country and avowedly leave all thought of force out of the question. The Spectator adds that altho the crisis may be relieved by President Huerta saluting the American flag it is convinced that President Wilson's policy inevitably will lead to intervention, which the sooner he undertakes the better.
