Would Be Fat

Increase in Weight Ten Pounds or More

A PHYSICIAN'S ADVICE.

"I'd certainly give most anything to be able to fat up a few pounds and stay that way," declares every excessively thin man or woman. Such a result is not impossible, despite past failures. Thin people are victims of mol-nutrition, a condition which prevents the fatty elements of food from being taken up the blood as they are when the powers of nutrition are normal. Instead of getting into the blood, all the fat and flesh producing elements stay in the intestines until they pass from the body as waste. To correct this condition and to produce a healthy, normal amount of fat nutritive processes must be artificially supplied with the power which inture has denied them. This can best be accomplished by eating a Sargol tablet with every meal. Sargol is a scientific combination of six of the best strength-giving, fat-producing elements known to the medical profession. Taken with meals, it mixes with the food and turns the sugars and starches into rich, ripe nourishment for the tissues and blood and its rapid effect is remarkable. Reponds in a single month are by nonurishment for the tissues and blood and its rapid effect is remarkable. Refectly natural and absolutely harmless sargol is sold by all good druggists everywhere and every package contains a guarantee of weight increase or money where and every package contains a guarantee of weight increase or money where and every package contains a guarantee of weight increase or money where and every package contains a guarantee of weight increase or money where and every package contains a guarantee of weight increase or money where and every package contains a guarantee of weight increase or money where and every package contains a guarantee of weight increase or money where and every package contains a guarantee of weight increase or money where and every package contains a guarantee of weight increase or money where and every package contains a guarantee of weight increase or money where and every package contains a guarantee of weight increa A PHYSICIAN'S ADVICE.

Caution.-While Sargol has produced remarkable results in the treatment of nervous indigestion and general stomach disorders, it should not, owing to its remarkable flesh producing effect, be used by those who are not willing to increase their weight ten pounds or more.
