A wedding took place in Grosvenor-street Presbyterian Church Wednesday afternoon, when Lillian Victoria, only daughter of the late Lieut. Col. Wilbur Henderson and Mrs. Henderson, was married to Mr. Arthur Morgan Cowie, inspector of the Dominion Bank. Rev. B. M. Davidson performed the ceremony in the presence of a large number of relatives and intimate friends. The church was decorated with palms and ferns and large bunches of peony roses. The bride was given away by her brother, Mr. Frank Henderson, and wore a gown of white satin with panels of lace, the court train edged with lace and touches of orange blossoms. The bride veil reaching to the hem of the gown.

### Little Boys' Suit.

Little boys are wearing a great many embroidered dresses this season. The Butter suit is simple and sufficiently masculine in effect at the same time that it shows the advantage of being both dainty in effect and durable; but suits can be made from materials and treated in many different ways.

For afternoon occasions white is always charming; for the daytime, colored linen, khaki and striped galatea are popular for very warm days.

Plain color can always be trimmed with a wide band of contrasting material, or of stripes with plain. The little blouse is cut with a wide band of contrasting material, or of stripes with plain. The little blouse is cut with a wide band of contrasting material, or of stripes with plain.

The knickerbockers are joined to the undergarment, and are cut with a wide band of contrasting material, or of stripes with plain. The knickerbockers are joined to the undergarment, and are cut with a wide band of contrasting material, or of stripes with plain.

The dress should have the square neck and short sleeves for summer comfort.

Little Girls' All-Over Apron.

A one-piece apron for a little girl is so attractive and so simple that busy mothers will greet it with an eager welcome. There is just one piece, and it is made of a single material, and all the materials that are used for girls' aprons can be used.

White lawn, with trimming of pink, or cross-barred and dotted lawn, and materials of the kind are liked and for very practical occasions gingham and chambray are used, with trimming of a contrasting color of embroidered banding.

The apron consists of one piece and the edges are tied together under the arms, so that in addition to meaning very little labor in the making it is extremely easy to launder.

Any simple dress pattern with a small sleeve will do for this apron, or the apron from a baby's kimono pattern.

## Seasonable Recipes

### Poached Egg on Toast With Ham.

Cut a neat round of toast for each person. Boil it and keep it hot. Chop some lean cooked ham—about a tablespoonful will be required for each round of toast. Next carefully poach the eggs. Add to the water a pinch of salt and vinegar. This helps to prevent the eggs breaking. When poached drain them well and lay one on each round around the edge to form a border, sprinkle a little finely chopped parsley on and serve.

Stuffed Potatoes With Cheese.

Bake until soft five or six medium-sized potatoes with a sharp knife, pricking the cooked potato into a mixing bowl; now mash with a potato masher, and when free from lumps, one teaspoonful of melted butter, half a cupful of rich milk, one small cup of grated cheese, and salt and pepper to taste. When the potatoes are light and creamy and the potato skins, dusting the tops with salt and pepper, and return to the oven until crisp and brown on top. Serve very hot.

### TEDDY NOT ARDENT SUPPORTER.

NEW YORK, June 20.—(Can. Press.) Theodore Roosevelt has declined to join the New York Men's League for Women's Suffrage. Immediately after the announcement by Colonel Roosevelt that he was for woman suffrage, the secretary of the league called on the former president's office and sign. The secretary then asked him for his answer. It says that Col. Roosevelt at the present time does not wish to avail himself of your kind offer.

### Home Helps

No perfume, except musk, which is extremely objectionable, will last in a perfume bottle. From time to time the perfume must be renewed. Powdered orange blossom water, which is used in boxes and drawers in which it is kept, must be taken out the bottom drawer of a bureau to clean under it.

If the whites of eggs are whitened, wash them in vinegar.

Batter puddings of any kind, especially when made with fruit, are more easily steamed than baked.

Before pouring hot fruit into a glass jar, put it on a wet cloth; this will keep the glass from cracking.

Copper may be cleaned by rubbing with lemon peel and salt. Wipe off fingerprints and stains on porcelain, wood and windowpanes can be easily removed with coal oil and a soft rag.

In coring apples which are also to be peeled, core them first and there is less danger of their breaking.

When a room reeks of tobacco smoke set a bowl of cold water somewhere in the room and the odor will soon be absorbed.

When the head of a hatpin comes off, if it is of glass, porcelain or wood, cut a bit of resin, stick the pin into the resin, insert it in the ornament, and it will hold well.

When carpets are not taken up they can be easily refreshed by washing over with water to which a tablespoonful of ammonia has been added to each pail of water. This should be done after a thorough sweeping.

## The Passing of The Coal Range

### Can't Keep Up With The Work

The coal range is becoming obsolete in gas-supplied cities for three reasons. First, the Gas range cooks quicker and better. Second, Gas is cheaper than coal, and, thirdly, there is no labor connected with a gas range. To carry coal up a flight of stairs, shake out a dead fire, empty the ashes, and then lay a new fire is quite a lot of work. Then when you do get it burning, it's half an hour before you can use it. Compare this with the Gas range. You strike a match, turn on the Gas, and the fire instantly roars, turns its maximum heat. No coal, no ashes, no waiting, no wasted heat. Buy your Gas Range now. Prices and terms at your right.

## FIRST CHERRIES HAVE ARRIVED

Small Shipment From Niagara Reached Local Fruit Market and Sold at Fifty Cents and a Dollar.

Another welcome addition was made to the Toronto fruit market yesterday by the arrival of the first shipment of Canadian cherries from the Niagara Peninsula. The shipment was small, considerably less than a car load, but was very welcome. They arrived in baskets and are selling at fifty cents a small basket and a dollar a large basket. The American cherry is selling at \$2.50 a box.

A fruit not in demand are American strawberries, while coming in slowly, are now arriving from all sections of the berry country. St. Catharines, Grimsby, Oakville and the various fruit sections along the lake shore are all beginning to send in their strawberries.

Fruitmen express the opinion that a week of good warm weather will be necessary to bring in the heavy shipments of the berry country. The average price of strawberries yesterday was from 15c to 18c a box.

Other fruit prices remain unchanged.

## Can't Keep Up With The Work

### City Engineer's Department is Away Behind With Drain Opening, and Much Inconvenience Results.

The fact that the city engineer's department cannot begin to keep up with the work of drain opening is responsible for at least one citizen being chafed into the police court by the medical health department. This would not result, were it not for the fact that among the departments at the city hall, a policy is enforced by which the administration chooses, not to let its right hand know what its left hand doeth.

Moses Breinkrans was summoned to the police court to answer to a charge of neglecting to keep his house, 249 to 247 Gilead-place, in a sanitary condition, inasmuch as the drains are stopped and the water shut off, so that the occupants have had no water in more than two months.

Moses appeared with his son and explained that on May 20 he had paid \$5 to the city treasurer to have the city engineer make two drain openings. This has not yet been done, and until it is the drains cannot be fixed. The service to one of the adjoining houses is burst, and the landlord of those premises has shut off the water to Breinkrans's house as well as his own.

The health department explained that they did not know of the stoppage or lack of doing in the engineer's department, and the engineer's department declared that they were several weeks behind the orders for drain openings. This, they say, is due to the fact that laborers are hard to get. The case of Breinkrans was adjourned a week to allow the city engineer to catch up, and now there is balm in Gilead-place.

## JUNE THE COSTLIEST MONTH

It Costs More to Live in This Month of June Than in Any Month of Many Years.

According to trade authorities in Canada and the United States it costs more to live in this month of June than in any month for many years. Some people claim in fact that the cost of living is higher than at any time in the history of the Dominion.

The prices of food products are the highest on record. The average increase in the price of food products to date is nearly 20 per cent.

Which means that the housewife must pay six dollars to live a market basket only cost her five dollars to fill in June.

It will do only five-sixths as much as it did a year ago.

The recent advances have been in meat products. When the price of meat was advanced at Chicago the packers promptly announced that there was a shortage in live stock. The department of commerce and labor, at Washington declares, however, that the receipts of live stock at seven of the principal western markets for April were greater than those of any April since 1907. The same is true of the live stock at four principal Atlantic ports.

These figures would indicate that there is no excuse for the advance in the price of food products, but while these statistics are being investigated the consumers must go right on paying top-notch prices for food.

The question of immediate interest is how to meet these conditions in the average home. The problem is to be solved in a wider knowledge of food values. The public must be shown that the more expensive foods, such as meat, are not needed at any time. There is more real food-building nutrient in cereals and fruits than in meat, and some fresh fruit will supply all the nature needed for a half day's work or play at a cost of five or six cents. These biscuits contain all the food-building material in the whole wheat flour, and are digestible by steam-cooking form and ready-cooked it is so easy to prepare a delicious, nourishing meal with them in combination with berries or other fruits or creamed vegetables.

## CELEBRATED MASS IN ORANGE HALL

MONTREAL, June 20.—(Can. Press.)—A happy exchange of courtesies between Orangemen and Roman Catholics has been unearthed at Waterville, Que. The Catholic Church was burned down, and the Orangemen then offered the use of their hall to the local priest for services. The offer was gladly accepted, and mass was celebrated there for a considerable time.

The incident was related by William Galbraith, past provincial grand master of the Orange order, who was joined by friends after he had been seen walking down the street in cordial conversation with Rev. Father Choquette, the priest at Waterville.
