in better demand, some buying having developed on news of successful operations at the Castle property recently taken over by the Trethewey. Nipissing, despite the good financial showing made for the quarter, was a trifle easier at \$8.65. McKinley was about unchanged, as was also La Rose. The latter has lost most of last week's activity, and was vesterilishness was tempered by the of Wall Street, which was that further depressed, and a decline in C.P.R. to 1354 was together liked. Trading in dolssues was if anything slightly with anything slightly last week's activity, and was yesterthe smallest fraction of the previous day cement sold down to 60, but was further wanted at that price, with sellers holding half a point higher, and Brazilian fluctuiated all day between 36 and 36½. The steels were inactive, with Dominion higher at 61½ and Steel of Canada lower at 57½, both on booken lots, however. Nova Scotta Steel was not traded in during the day and was offered at 63½ without bids. Wher loans were slightly easier, the 1925 going at 93½, and the 1931 at 92½, and Liberty Bonds and the Anglo-French issues were stronger at New York, but this aparently had no influence on Canadians. Simall cous of Commerce, Standard, and Hamilton, in the banks, sold at minimum price limits.

DAILSE WAS CIVEN

The steels were inactive, with boughts in small quantitities by northern operators. The gold issues were equally as dull as the silver slocks. But brokers reported more or Hellinger are plentiful at \$5, but sellers were not inclined to riti bids at that figure. Dome held steady at \$8.50, and McInttyre was quitet around \$1.38. Cobalt. March 19. - Probably the richest strike ever made in the Kirkland Lake Gold Camp was uncovered in the Elliot Kirkland property, when a pay streak ranging from one and one-half to two feet in width was encountered at the 425-foot level just 80 feet west of the shaft. Undoubtedly this is a westward continuation of the Kirkland Lake gold ore kody. Mining engineers who have investi-gated the find, claim it is the richest thy has not been issued yet, but the rich structures given out semi-officially show at net earnings of the street electer yet last year amounted to out \$80,000, a tremendous decrease \$80,000, a tremendous decrease present being all in ore.

NIPISSING STATEMENT.

In 1913 net earnings of the system acceded \$1,255,000. In 1916 this had dropped to \$455,000, while in 1917 net dropped to \$455,000, while in 1917 net carnings amounted to only \$80,000. Statement of the Nipissing Mines Co., as of March 16. Shows cash in bank, including Canadian and United States war bonds, \$1,645,564; ore and bullion on hand probably find the company faced with a big deficit in their finances. It is claimed that the competition of the directors has declared a regular five per cent. quarterly dividend, payable April 30. The books close March 30, to reopen April 18.

RUSH OF CORN CAUSES

Business Reduced in Volume at Chicago, Compared With Recent Activity.

Chicago, March 19 .- Indications that

market was about over tended today to strengthen prices. Largely as a result, the close, altho insettled, was 1/2 to % to % c net higher with March \$1.27½ and May \$1.25% to \$1.25%. Oats gained 1%c to 2%c, and provisions 35c to 37½c to 80c\$.

Prospects that the ideal weather for field work would restrict hauling from farms put the bears in corn at a disadvantage thruout the session. Receipts here were still liberal, but nevertheless did not have the broad proportions which had been hoped for and it seemed likely would not again expand much until oat seeding was completed as sellers in many sections had ceased work. Business was noticeably reduced in volume, as compared with recent activity.

Anxiety of shippers to get oats to fill contracts hoisted values in the oats market. Arrivals were meagre and were said to be at the expense of country elevator stocks. Traders seemed to be greatly impressed with the rapidity with which the March delivery has been climbing above the May option.

Provisions moved upward in sympathy with grain and hogs and because of increased shipments of lard and meats. Shorts, were the chief buyers.

Montreal Produce Market

Montreal, March 19.—In sympathy with the strength which prevailed in the Windinger option market for oats today, the local market for cash oats was much stronger and prices were marked up 2c to 2½c per bushel. There was a better enquiry, but on account of the rapid rise in prices in Winnipeg buyers found it difficult to fill their needs at the prices, and lattle business resulted. No. 3 °C. W. and extra No. 1) feed were quoted at \$1.07½ per bushel.

There was no development in the local floor situation today. The demand for spring when flour was rather quiet, and few new orders were received, but millers are all busy filling orders on hand and making shipments.

There was no change in the condition of the local market for eggs today and the feeling on spot was steady. Supplies of Canadian and American eggs coming forward were ample to meet all requirements, and a fast volume of business was done in a wholesale jobbing way in fresh-gathered stock at 54c a dozen. The receipts of eggs today were 1255 cases, against 858 cases last Tuesday.

The feature of the butter trade today was the firmer feeling which developed. Prices scored an advance of ½c per pound. This was attributed to the increased enquiry for supplies from both local and out of town buyers, which resulted in a moderate amount of business being done. Sales of 50c and 100 local and out of town buyers, which resulted in a moderate amount of business being done. Sales of 50c and 100 local and out of town buyers, which resulted in a moderate amount of business being done. Sales of 50c and 100 local and out of town buyers, which resulted in a moderate amount of business being done.

Winnipeg, March 19.—The cash market was quiet today. There was a good demand for oats, but the offerings were small. Spreads were unchanged with prices up in sympathy with the American works.

DAYLIGHT SAVING BILL SIGNED BY PRESIDENT

Existing Conditions in United States Will Remain Unimpaired. Washington, March 19 .- The daylight saving bill was signed today by President Wilson. It puts all clocks forward an hour on the last Sunday in March and turns them back again the last Sunday in October.

The daylight saving plan will go into effect and be observed without the slightest disorganization or impair-

slightest disorganization or impairment of existing conditions. Trains will run as usual, and every feature of daily life into which the element of time enters will remain unchanged.

Before retiring on the last Saturday of this month the American householder will set his clock and then may go to sleep and forget entirely about daylight saving until the last Saturday of October. On that date he will reverse the process, turning back the reverse the process, turning back the hands of the clock, and the next day

the nation again will run on "Sun The plan's practicability and efficiency have been effectively demonstrated in twelve European countries.

Paris, March 19.—The war office reported last night: "Two enemy raids, one south of Juvincourt, the other south-east of Corbeny, were repulsed after spirited fightins, in which the Germans sustained considerable loss. We took prisoners. The artillery on both sides was rather active, particularly in the regions of Samogneux and Bezonvaux (Verdun front), as well as in Lorraine, between Bures and Badonviller. On Sunday three German airplanes were destroyed and six others were damaged badly by our pilots. A captive balloon was set on fire by one of our aviators. Furthermore, it has been learned that two other German airplanes were brought down on March 15 and 16. Our bombarding squadrons threw down 6000 kilos of explosives."
