To Get More Strength from Your Food

OTS of people are starving with a full stomach. You know, it's not how much we Eat, but how we Digest that makes us Strong, or Brainy, or Successful. When the Bowels are filled with undigested food we may be a great deal worse off than if we were half sarved for want of Food.

Because, food that stays too long in the Bowels decays there, just as if it stayed too long in the open air.

Well, when food decays in the Bowels, through delayed and overdue action, what

happens? The millions of little Suction Pumps that line the Bowels and Intestines then draw Poison from the decayed Food, instead of the Nourishment they were intended to draw.

This Poison gets into the blood and, in time, spreads all over the body, unless the Cause of Constipation is promptly

That Cause of Constipation is Weak, or Lazy, Bowel Muscles.

* * * When your Bowel-Muscles grow flabby they need Exercise to strengthen them not "Physic" to pamper them.

There's only one kind of Artificial Exercise for the Bowel-Muscles. Its name is "CASCARETS," and its

price is Ten Cents a box. Cascarets act like Exercise on the Muscles of the Bowels, and make them stronger every time they force these scles to act naturally.

The stronger these Muscles propel the food, the stronger does the friction of the food act on the flow of Digestive Juices. The more of these Juices that act on food, the more Nutriment does that food turn into, and the richer nourishment do the little Suction Pumps of the Intestines draw out of it.

It needs only one Cascaret at a time to stimulate all the Bowel-Muscles enough, without purging, discomfort or loss of

So, if you want the same natural action that a six-mile walk in the country would give you, (without the weariness) take one Cascaret at a time, with intervals between, till you reach the exact condition you desire.

One Cascaret at a time will properly cleanse a foul Breath, or Coated Tongue, thus proving clearly its ready, steady,

sure, but mild and effective action. A coming Headache can be warded off, in short order, by a single Cascaret, and the cause removed. Heartburn, Gas-belching, Acid-risings

in the throat, and Colicky feeling are sure signs of Bowel trouble from food poisons, and should be dealt with promptly.

One Cascaret will stop the coming trouble, move on the Bowel load, and free the Digestive Juices, if that one Cascaret is taken as soon as the first signs are

It was not a particularly weighty matter that took up the civic Island committee's time yesterday, but it had its points of interest. The I. A. A. A. had applied for admission to build a new clubhouse on Long Pond below Hallam's Bridge, and yesterday A. A. Denison and George Dunstan, representing the association, appeared to urge the matter. The assessment committee of the matter. The assessment commissioner had a report ready whereby it was recommended that the I. A. A. A.'s request be granted on condition that an \$8000 structure be erseted and that a yearly rental of \$50 be baid besides taxes for the lot 150 feet square that is wanted. Mr. Defision said it was only desired to spend \$3000 or \$4000, and asked that the amount of yearly rental be reduced as the club was designed for social purposes and would not yield revenue. The committee cecided to wait for more information. A precedent appears to have been established in the granting of 5 acres to the committee of the board of trade, Marquis Salisbury, president, referred to the satisfactory result in appointing three that is wanted.
