MUNICIPAL NIGHT.

#### COST OF POWER IN TORONTO PROMISED BY COMMISSION

Present users of power, he said, would have to exchange their direct current motors for 25-cycle alternating current motors, in order to use Niagara power. The most approved type of these latter would be supplied at about \$47.25 per lamp per year, on the basis of a 1400 lamp installation, while the price might be reduced to \$40. The city now pays \$67.35 per lamp per year.

An estimate will be asked for from the commission of the cost of lighting

or dwelling houses, Mayor Coatsworth is disappointed because the North Toronto Conserva-tive Association succeeded in booking Hon. Adam Beck for an address on the power question on the evening of Dec. 19. He fears it will steal the thunder of the public meeting on the following night. The club engagement, however, was made first.

GETS A PATENT.

Justice Burbidge has decided that George Nugent is entitled to a patent on a combination invention for a sander for trolley cars, altho a few of the schooner Alert, of the Gloucester fleet, claims made are thrown out.

#### WHO'LL BUILD SPUR LINE? CITY MAY, OR PERHAPS C.N.

Mayor Submits Plan to Controllers and Special Committee Also Discuss It.

One route by which the Canadian Northern Ontario Railway has consider. ed entering the city from Ottawa was laid before the board of control yesterday by the mayor in the form of plans providing for a line going east along the north shore of Ashbridge's Bay, ossing Queen-street to the west of the odbine, and running east, paralleling it, till about midway between Scarboro Junction and Highland Creek, where it will intersect the Kingston-road and the G.T.R. tracks, going northeasterly, just to the north of Audley and Tainton and touching Orono. Controller Jones declared that there was no longer any doubt as to which road should build the spur line, and the mayor agreed.

The Viaduct Plan. The Visduct Plan.

The Esplanade viaduct scheme will have to be grappled with by the civic rulers of 1907. The special meeting of the civic level crossings committee yesterday afternoon came to that decision. Ald McGhie was against having the city co-operate with the railways in the choice of an engineer to report upon the scheme, and wanted the city to appoint its own engineer. The mayor was apprehensive that if the viaduct were made a present issue attention would be distracted from the Yonge-street bridge and the bylaw onge-street bridge and the bylaw

The incoming council will also have upon its hands the work of striking a policy as to the conditions under which the spur line into the Ashbridge's Bay district is to be built. Now that the Canadian Northern has shown an inclination to butt in the offer of the Grand Trunk is less likely to be accepted. The sentiment apparently is that the city should itself lay down the tracks. Ald, Fleming declared his conversion to the city building the spur line. The Grand Trunk might take three years to build, and industrial expansion would suffer. The mayor

The results of the junior examinations agreed, but Ald, Geary suggested having a report from Mr. Rust on the cost

TRUSTEES TORONTO FREE HOSPITAL FOR CONSUMPTIVE W. J. GAGE, Esq., Chairman of Trust; HON. W. A CHARLTON, 1st Vice-Chairman; H. P. DWIGHT, Esq., 2nd Vice-Chairman; H. C. HAMMOND, Esq., Treasurer; J. L. HUGHES, Esq., Hon. Secretary; R. H. DAVIES, Esq., AMBROSE KENT, Esq., W. LLOYD WOOD, Esq. Hospital near Weston. Head Office: 28 Adelaide St. W. (Saturday Night Building), Torente. J. S. ROBERTSON, Secretary.

Not a single applicant has ever been refused admission to the Toronto Free Hospital for Consumptives because of his or her poverty. 344 needy consumptives in the advanced stages of the disease have been cared for in this hospital.

# OPEN LETTER FROM H. C. HAMMOND, ESO

A FRANK TALK WITH HIS FELLOW-CITIZENS.

LADIES AND GENTLEMEN,-

Mr. Robertson, our worthy Secretary, tells me that he has asked the other Trustees to write a short letter for publication in his little paper, the "Open Door," and that I must do likewise, all in the interests of the Toronto Free Hospital for Consumptives.

The other Trustees will probably write, telling you of the good work which has been done during the past year and how the patients have progressed and enjoyed themselves. They will also remind you of the happy Christmas time, when you should feel at peace with all mankind, in distributing money according to your means. I will not do that, but will give you a few cold facts and leave the rest to you.

Perhaps when you open this paper you may say, "What! this 'Open Door' coming again so soon! It appears to me not a month since I received one of those blessed papers. They are always inviting you to contribute." This, I acknowledge, is quite true, but in this busy world, unless you advertise and keep yourself well before the limelight, you are liable to get out of vision and be forgotten.

We still want MONEY. During the past year we have had to keep and feed about seventy people daily, which includes the staff, and I regret to say that the maintenance account has fallen behind over \$5,000.00, and you know there is only one end in doing business in this way. During the year we have received for maintenance account from entirely voluntary donations from 678 good

friends the sum of \$4,352.12, and it comes to me in very interesting amounts, as follows:-50 ..... 1 \$1.00 to \$50.00...... 596 100..... 9 150 ..... 2 Over, \$50 to \$300...... 8 25e ..... 51

Many donors send their initials only and do not register the letters, although they contain cash! Many dollars come to me wrapped in a piece of notepaper without a word written therein, and many small subscriptions come to me in envelopes which are sent out with "Open Door" issues of three to six months previously, showing that the envelope had been kept, probably by the lady of the house, until she felt she could spare the amount enclosed

During the year we have received \$14,131.00 on Building Account, but this is a serious business and has to be ed for personally. I have not had time during the past year to call upon as many of my friends as I would wish, but I hope during the next few months to call on those whom I have neglected and give them an opportunity of joining in this good work.

The Maintenance Account is the one that I should like to see kept even. A friend of mine, who is treasurer for a similar enterprise to this, about two years ago invited me to subscribe to his little show. As I borrow money from him sometimes, I thought it would be wise to hand him a cheque for what I considered would be sufficient to make him kind for at least ten years. On the anniversary of this subscription, he wrote me a letter reminding me that my "annual" subscription of a similar amount was now due. I wish I could work this same racket, but I lack the nerve. However, I should like to join you in any subscriptions you may make towards the Maintenance Fund; and if you will not consider it too much like gambling, I will contribute half a dollar for every dollar subscribed by you towards this fund (up to \$5,000.00) between now and the 30th September next, the end of our financial year. This will give you an opportunity to get even with me for troubling you so often during the year. I would make it dollar for dollar, but I am not in the position of the man who, accused of being as rich as Croesus, replied that he did not know who Croesus was, but he thought he could put up pound for pound with him.

"The Lord loveth a cheerful giver," "Cast thy bread upon the waters," "Bis dat qui cito dat,"

and there are many other applicable quotations which I have forgotten. Wishing you a Happy and Prosperous New Year. Yours frankly,

Treasurer's Address-21 Jordan street, Toronto, Ont.

#### WITH FAITH IN TORONTO.

Consider for a moment what the establishment of the Toronto Free Hospital for Consumptives means to Toronto citizens, and it would seem that not a citizen-rich or poor-would close his or her ears to this appeal.

(a) This hospital cares for the consumptive in the advanced and far-advanced stages of the diseasepatients refused by every other hospital.

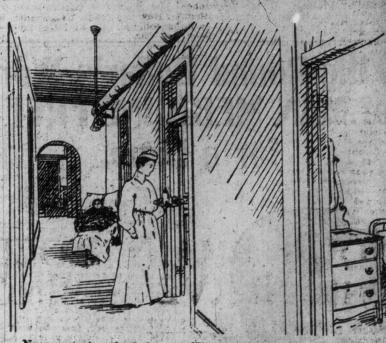

b) it cares for those from the most destitute homes in Toronto-very centres of infection.

(c) By removing this source of contagion the health and homes of every other citizen are protected. The best the hospital can give is theirs—skilled

medical attendance, tender and trained nursing, abundance of good food, a happy home. The Trustees do these things in faith-faith that

the citizens of Toronto will not allow these suffering ones to go uncared for. Will you not send a generous Christmas gift to Mr.

H. C. Hammond, Treasurer, 21 Jordan St., Toronto?
