190 Yonge St. Canada's Greatest Store. Toronto.
290 YONGE STREET, JAN. 6, 1896.

Progress!

On New Year's Day we proclaimed a new and greater career for this business. It is going to be realized. Trade traditions are being reversed, dull seasons banished, varieties increased, goods cheapened and service improved. All the stocks are marked at very low prices. Money never had equal buying power. In every department are things of extraordinary cheapness, and over a thousand persons are thoroughly organized and drilled for your service.

Enough has been printed about the *White Goods Sale* to emphasize our ability to save you money. Already we're busy—busier than we expected to be. And those who take the trouble to investigate will see abundant reason for activity all over the store.

Advantages!

The claim has been made, and repeatedly emphasized, that this store buys and sells Dry Goods cheaper than any other merchant anywhere in Canada. That fact is absolute. No other store has such buying power, such close connections with leading manufacturers and such ability to handle large quantities of goods. Special purchases for cash are constantly being made at prices much below the market. Experienced buyers devote all their time and energy to anticipating needs, travelling thousands of miles in search of the goods you want. Every possible advantage is ours, with a permanent buying organization in London, England; a weekly express service across the Atlantic; abundant capital, and the biggest constituency of any Canadian store. Convincing proof of our leadership is manifest in all classes of Dry Goods. And with the larger development of trade we intend to double our lead.

The merchant who can take the largest quantities and pay the cash is the commander. The intelligence of this community has put that power in our hands and we're using it faithfully. Thus positions are reversed. Time was when the wholesaler thought himself the merchant *par excellence*, but now the greatest business is done here.

THE CABINET CRISIS.
The political crisis at Ottawa is, perhaps, the most serious one in the history of Canada. There is a critical period in the country's history. But it does not mean that the Conservative party is going to pieces, or that it is about to give up the high duty of governing Canada. There is still light ahead. The party caucus, which is to assemble to-morrow, may suggest a way out of the difficulty.

A LAST WORD WITH THE ELECTORS.
To such electors as are dubious how they should cast their votes for the election of Mayor to-day we would like to briefly present one or two arguments: The most forcible reason why Mr. Fleming should be defeated is because he is supported by the majority who have been pestering this city for the past three years about an imaginary canal, a gasification water system and an electric light and power system. They have been told repeatedly that the city would have nothing to do with them, yet like desperate men, with nothing else in view but to plunder they expect to get out of the project, they keep reverberating it, with the hope of finally tiring us out. The aqueducts have several times in the past tried to shut up the mouth of "The World" through libel suits, but they have been unsuccessful in that respect. During the past week we have been served with several more libel notices, which will have about as much effect on our course in the future as the ones we have already received against us in the past have had.

Let everyone remember that in voting for Fleming he votes for the aqueduct project with all its objectionable features. The aqueducts are supporting Fleming because they have an understanding with him that an agreement will be forthcoming that will be satisfactory to them. If satisfactory to them it will be highly unsatisfactory to the citizens. We hope the electors of Toronto will not lose sight of this fact when they vote to-day. When we came to consider the reasons advanced by Mr. Fleming for his election to-day, we find them to be of no value. The Treasury Department at Washington
Advertises for Sealed Proposals
for \$100,000.
Washington, Jan. 5.—At midnight to-night Secretary Carlisle prepared the following notice, which will be issued to-morrow by the Treasury Department, Washington, Jan. 6, 1896.

Office of the Secretary:
Notice is hereby given that sealed proposals will be received at the office of the Secretary of the Treasury, at Washington, D.C., until 12 o'clock noon, on the 10th day of February, for the purchase of one hundred million dollars of United States four per cent coupon or registered bonds, in denominations of \$5 and multiples of \$5, as may be desired by bidders.

The right to reject any or all bids is reserved.
The bonds will be dated on the 1st day of February, 1896, and be payable in gold or silver on demand. The interest will bear interest at four per centum per annum, payable quarterly, in coin, but all coupons maturing on or before the first day of February, 1896, will be paid in cash. The bonds will be subject to payment in United States gold coins or certificates for the bonds.

LIVELY IN MONTANA.
The situation at Ottawa accentuates the excitement in Montana.

Winnipeg, Jan. 5.—With the Cabinet complication reported from Ottawa to-day, the provincial general election is now 10 days hence, it may be said the hot has reached the boiling point over here. The situation at the Federal Capital of the deepest interest to the people of this province is the tide here depends to a great extent on how matters go in the east. The Conservative party in Manitoba will have an exceedingly difficult time of it, even if the cold shades of the morning do not prevent the party from maintaining a solid phalanx of Conservative representatives in the Conservative party, Mr. Potts, Educational Secretary, preached with the force of a prophet, and to regulate their lives by the principles of the Bible.
