NON RUSTABLE D&A CORSETS

Improve the Figure

Whether you are stout or slim there is a D&A Corset which, while giving you support, will enhance the beauty of your figure.

Made in Canada and fitted on living Canadian Models D&A Corsets offer the very latest styles modified to suit Canadian ideals.

D&A Corsets give Canadian figures more style and comfort, and wear as well as imported corsets retailing at twice the price.

Ask your Corsetiere DOMINION CORSET CO. QUEBEC

Makers of the La Diva Corsets and the D & A Good Shape Bralettes.

For sealing bottles of fruit or pickles together equal parts of resin and beef tallow is an excellent wax is obtained by melting.

Results of the War Conference

Recommendations of Home and Colonial Leaders

Preparedness After War

Empire Should Decide on Effective Naval Defence Scheme and Organize Resources — Delegates Lunch With the King

London, May 3.—(Through Reuter's Ottawa Agency)—The colonial secretary, Hon. Walter Long, has issued a statement respecting the work of the imperial war conference, now approaching the end of its labors, together with some of the resolutions adopted by the conference.

The resolutions recommended the appointment, at the earliest possible moment, of a committee representing the military authorities of the United Kingdom, the dominions and India, to consider the various patterns of military stores and equipment in use, with a view to the selection of standard patterns for general adoption, as far as the special circumstances of each country will permit. It also recommended that the ordnance personnel of the empire's military organizations be trained in the same methods and principles, and that ordnance officers from all parts of the empire should be attached for an adequate period to the imperial ordnance department. Further it is recommended that the admiralty be requested to work out, immediately after the war, the most effective scheme of imperial naval defence, for consideration of the government concerned, at a conference to be held with representatives of the admiralty regarding the future security of the empire.

The conference welcomes the increase in the number of trade commissioners, and recommends that the governments

concerned co-operate in assisting a service, especially for the promotion of inter-imperial trade.

It records the view that the 1907 imperial conference resolution be modified so as to permit the full representation of India in all future imperial conferences, and that the assent thereto of the various governments be obtained.

It prays that the king constitute, by royal charter, an imperial graves commission, on the lines proposed by the Prince of Wales to the prime minister. The conference records its deepest appreciation of the French governments' generosity in allowing, in perpetuity, the land where our men are buried, and urges that similar arrangements be made, in the peace terms, with all the allies, enemy and neutral governments in Gall-

poli, Mesopotamia, Africa and elsewhere.

The conference expresses the opinion that the readjustment of the constitutional relations of the component parts of the empire is too important and intricate a subject to be dealt with during the war, and should be discussed at a special imperial conference to be held immediately after the war. The conference records, further, that such readjustment, while thoroughly preserving all existing powers of self-government, and complete control of domestic affairs, should be based upon a full recognition of the dominions as autonomous nations of an imperial commonwealth, and of India as an important portion thereof; should recognize the right of the dominions and India to a voice in the foreign policy and foreign relations, and should provide effective arrangements for continuous consultation on all important matters of common imperial interest, and for such concerted action founded on that consultation as the several governments shall determine.

The conference recognizes the importance of securing uniformity of empire policy and action in regard to nationalization, and commends the proposals submitted to the overseas governments by the home office. It recommends that there be no delay in taking steps for the establishment in London of an imperial mineral resources bureau, on which the whole empire shall be represented, whose duties shall include advising how its mineral resources may be developed and made available to meet the empire's metal requirements.

In view of the experience of the war, the conference draws attention to the importance of developing adequately the capacity for production of naval and military materials, munitions and supplies in all important parts of the empire, including the countries bordering on the Pacific and Indian oceans, where no such facilities at present exist. It affirms the importance of close co-operation between India, the dominions and the United Kingdom with this object in view.

The conference urges that the present system of double income taxation within the empire be taken in hand immediately after the war, and the law so amended as to remedy the present unsatisfactory position.

In view of war experience the conference records that the safety of the empire and the necessary development of its component parts prompt, attentive consideration and concerted action in regard, first, to the production of an adequate food supply, and arrangements for its transportation when and where required, under any conditions that may reasonably be anticipated; secondly, to the control of natural resources available within the empire, and especially those of an essential character for national purposes whether in peace or war; thirdly, to the economical utilization of such natural resources through manufacturing processes carried on within the empire, and recommends that the governments concerned consider the enactment of legislation in this direction.

Lunch With King.

London, May 3.—(Through Reuter's Ottawa Agency)—A special reception given today at Windsor Castle to the members of the Imperial War Conference by their majesties was a fitting conclusion to the most momentous conference in the history of the empire, following as it did upon the members going to Windsor and there presenting an address of loyalty and devotion to the king.

In glorious spring weather the procession of motor cars left the Savoy Hotel, conveying the Rt. Hon. Walter Long, colonial secretary; the Rt. Hon. Austen Chamberlain, secretary of state for India; Sir Robert Borden, premier, Hon. J. D. Hume, minister of marine and Hon. Robert Rogers, minister of public works, of Canada; Premier Massey, of New Zealand; Sir Joseph Ward, Sir Edward Morris, premier of Newfoundland; the Maharaja of Bikanir; Sir James Massey; Sir Sydenha Prasad, of India, and Secretary Lambert.

Arriving at the castle they were conducted to the White drawing room where, a few minutes later, the king in morning dress arrived. His majesty was accompanied by the queen, Princess Mary and T. R. H. the Princess Albert, Henry and George.

The members of the conference, all of whom were previously known to their majesties, were presented by Mr. Long, in a clear resonant voice. Sir Robert Borden read the address, and the king, obviously much touched, himself read the reply.

The whole party then proceeded to lunch, which consisted of a strict war ration. There were no intoxicants. On the king's right sat the Rt. Hon. Walter Long; on his left Sir Robert Borden. The queen sat opposite with Mr. Chamberlain on her right and Premier Massey on her left.

After lunch the party adjourned to the drawing room, where their majesties, the princess and the princess, unconsciously conversed animatedly with the guests. After a stay of two hours the delegates left the castle.

When baking gems leave one cup empty, and when put in the oven fill the cup with cold water; they bake much better.

Cocoon Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain unrefined coconut oil (which is pure and entirely greaseless) is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls of the oil makes an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and remains every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get multifold coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

NUXATED IRON

increases strength of delicate, nervous, run-down people 100 per cent in ten days in many instances.

100% FORFEIT

ask your doctor or pharmacist about it. Watson's Drug Store always carry it in stock.

Children are keen judges of a good balm and whenever my children get cut or bruised, they run home at once to have Zam-Buk applied. They have found that it takes the soreness and smarting out of a wound or sore very quickly. It is a marvelous healer.

So writes Mrs. B. Hubert of Van Horne St., Toronto, and she adds—"It was a long time before I tried Zam-Buk, but now I have used it I would never be without it. I have also found it very effective for piles."

Mother! Take the lesson home! If you have not yet tried Zam-Buk, now is the time. Send us a cent stamp for return postage (Zam-Buk Co., Toronto) and we will mail you a trial box, or get a 50-cent box from your druggist or storekeeper.

For piles, eczema, hemorrhoids, varicose veins, ulcers, cuts, burns and skin injuries and diseases, this great herbal balm is without equal. Used throughout the world. Refuse harmful substitutes.

HULL GOES DRY

Ottawa, May 3.—By a majority of 1,181 the electors of Hull have decided for prohibition, after one of the hottest campaigns which has been waged on the liquor question in Canada. Of a possible 4,482 electors, 3,310 cast their ballots.

Of these seventeen were spoiled, and with these eliminated the final vote stood: For prohibition, 2,467. Against prohibition 1,806. Majority for prohibition 1,181.

Zaimis Again Premier.

London, May 3.—Alexander Zaimis has accepted the task of forming a new Greek cabinet, says a Reuter despatch from Athens.

Half an Inch is all you need

Safeguard the Nation's Health

Your physician will tell you that bad teeth are primarily responsible for all diseases originating in the stomach. The nation's first requirement of her soldiers is good teeth, which shows their importance.

Minty's Tooth Paste

is a sure safeguard to health. It keeps the teeth naturally white and clean—the gums firm and healthy—the breath pure and sweet.

It has a positive bactericidal action that destroys mouth germs and heals the inflamed membranes.

Train the children early to realize the necessity of good teeth and Minty's Tooth Paste.

Use Minty's twice a day—visit your dentist twice a year and safeguard your health from the ills that are caused by poor teeth and an unhealthy mouth.

Minty's is the most economical of all dentifrices. 25 cents a tube and guaranteed.

"Cleans the teeth and sterilizes the mouth and brush."

Palmers Limited, 100 Latour Street, Montreal.

Twenty Million Oranges Daily at Everybody's Price

California has a bumper crop of Sunkist Oranges—uniformly good—to sell in this country, not abroad—so prices are not high.

Small sizes of Sunkist are the same quality as the larger. All Sunkist are uniformly good. All homes can afford them. Everybody can profit by eating less meat and more oranges and vegetables. For their health's sake give the children oranges instead of candy.

Order, today, from your grocer. All retailers now have these oranges in abundance at attractive prices. The smaller sizes are juicy and thin-skinned.

City Eye Specialists Tell How To Strengthen Eyesight 50 p.c. In a Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home.

Boston, Mass.—Victims of eye strain and other eye weaknesses, and those who wear glasses, will be glad to know that Doctors and Eye Specialists now agree there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored and many who once wore glasses say they have thrown them away. One man says, after using R. I. was almost blind. Could not see to read at all. Now I can read everything without my glasses, and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me. A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can read even fine print without glasses." Another who used it says: "I was bothered with eye strain caused by overwork, tired eyes which induced fierce headaches. I have worn glasses for several years, both for distance and work, and without them I could not read my own name on an envelope or the typewriting on the machine before me. I can do both now, and have discarded my long distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim green blur to me. I cannot express my joy at what it has done for me."

It is believed that thousands who wear glasses can now discard them in a reasonable time, and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses.

Dr. Beck, an eye specialist of nearly twenty years practice, says: "A patient came to me who was suffering from Rheumatism Marginalis with all the concomitant symptoms, as morning agglutination of the lids, chronic conjunctivitis, and epiphora. Her eyes when not congested had the dull, suffused expression com-

mon to such cases. Having run out of her medicine a friend suggested Bon-Opto. She used this treatment and not only overcame her distressing condition, but strange and amazing as it may seem, so strengthened her eyesight that she was able to dispense with her distance glasses and her headache and neuralgia left her. In this instance I should say her eyesight was improved 100 per cent. I have since verified the efficacy of this treatment in a number of cases and have seen the eyesight improve from 25 to 75 per cent in a remarkably short time. I can say it works more quickly than any other remedy I have prescribed for the eyes."

Dr. Smith, an oculist of wide experience, says: "I have treated in private practice a number of serious ophthalmic diseases with Bon-Opto and am able to report ultimate recovery in both acute and chronic cases. Mr. B. came to my office suffering with an infected eye. The condition was so serious that an operation for enucleation seemed imperative. Before resorting to the operative treatment I prescribed Bon-Opto and in twenty-four hours the secretion had lessened, inflammatory symptoms began to subside, and in seven days the eye was cured and retained its normal vision. Another case of extreme convergent strabismus (cross eyes), escaped the surgeon's knife by the timely use of your eolymine. The tightened external muscles yielded to the soothing and anodyne effects of Bon-Opto. I always instill Bon-Opto after removal of foreign bodies and apply it locally to all burns, ulcers and spots on the eyeball or the lids for its therapeutic effect. By clearing the lids of secretions and acting as a tonic for the eyeball itself the vision is rendered more acute, hence the number of cases of discarded glasses."

Dr. Connor says:—"My eyes were in bad condition owing to the severe strain arising from protracted microscopical research work. Bon-Opto used according to directions rendered a surprising service. I found my eyes remarkably

strengthened, so much so I have put aside my glasses without discomfort. Several of my colleagues have also used it and we are agreed as to its results. In a few days, under my observation, the eyes of an astigmatic case were so improved that glasses have been discarded by the patient."

Eye troubles of many descriptions may be wonderfully benefited by the use of Bon-Opto and if you want to strengthen your eyes, go to any drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and let it dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start, and inflammation and redness will quickly disappear. If your eyes bother you even a little it is your duty to take steps to save them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time.

Note—A city physician to whom the above article was submitted, said: "Yes, Bon-Opto is a remarkable eye remedy. Its constituent ingredients are well known to eminent eye specialists, and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or night glasses. I can highly recommend it in case of weak, watery, aching, smarting, itching, burning eyes, red lids, blurred vision or far eyes inflamed from exposure to smoke, sun, dust or wind. It is one of the very few preparations I feel should be kept on hand for regular use in almost every family." Bon-Opto is not a patent medicine or secret remedy. It is an ethical preparation, the formula being printed on the package. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances, or refund the money. It is dispensed by all good druggists in this city, including Watson's Drug Store and all other wide awake drug stores.
