Terms of Treaty Agreed to by West Indian Delegation

PROCEEDINGS ARE

Better Steamer Service Is One Hope of Conference Now on in Ottawa.

OTTAWA, July 3-A new trade agreement between Canada and the West Indies is now in the course of preparation and, according to present plans, will be executed here on Monday next. The principles of the treaty were fully agreed to late this afternoon by representatives of the two countries who have been in conference for over

OTTAWA, July 3-Every effort is being made to conclude the Canada-West Indies trade conference tomorrow.

During the past 24 hours there has been somewhat of an impasse owing to the reluctance on the part of the West Indies to make adequate tariff concessions unwillingness of the Dominion Government to make an increase in the general tariff to permit of substantial preferences in the Canadian market to West Indian

Late this afternoon the Federal Cabinet, headed by the Prime Minister, appeared before the conference and it is understood that the course of action outlined by Premier W. L. MacKenzie King has cleared the way for a final aettlement of the conditions of the pact. FEW TARIFF CHANGES

The conferences up to date have discussed very clearly the best course to be pursued in expanding the trade petween Canada and the Indies. Little it is agreed, can be done by Canada in the way of tariff changes, but on the other hand the West Indian delectes where the states were supported to the conference of the co gates place such concessions as secondary in importance to the inauguration of an improved ocean service.

The greatest need apparently is for service between Canada and the Indies capable of carrying perishable commodities such as oranges, bananas, citrons, fruits etc.

citrons, fruits, etc.

At present the cargo service is limit-At present the cargo service is limited and furthermore is extremely inadequate as far as cold storage facilities are concerned. The Government Mercantile Marine operates a service, but these boats cannot handle perishable goods nor could they easily be re-equipped therefore. It is probable that the conference will agree upon in recommending a subsidized line of boats and it is said the Canadian Government has expressed a willingness to ernment has expressed a willingness to recommend to parliament a substan-tial money vote for this purpose.

COLD SERVICE STORAGE.

Inauguration of a service with cold storage facilities would enable the West Indians to ship into Canada all manner of tropical fruits in competition with imports now coming through the United States. On the other hand it would enable Canadian producers to ship potatoes, apples, fish and other commidities. From the Canadian view-point the Maritime Provinces would obtain the greatest advantage from such an arrangement. PREFERENCES TURNED DOWN.

So far as the tariff is concerned, it understood that the West Indian delegates requested the Canadian Government to give them preferences i the Canadian market on oranges, ban-anas, sugar, citrons, fruits, etc. This, however, would have necessitated raising the general tariff just as the conter of raisins necessitated an increase in the tariff and this the Canadian
