

## BACK FROM CHURCH; DIES FROM POISON

Bond Broker Meets Death in  
His Apartment After Lunch  
With Friend.

NEW YORK, Oct. 30.—Less than fifteen minutes after he had taken lunch with a friend, after both had returned after attending services at St. Patrick's Cathedral, Charles W. F. Smith, a bond broker, 29 years old, died of cyanide of potassium poisoning in his room at the Tilden Apartments, 9 Fifth avenue.

Smith came here from St. Paul, Minn., some time ago, according to persons who live at the apartment, and went to church with his friend, Joseph J. Hickey, an insurance agent of New Haven, Conn. They finished lunch and Smith, who had been a sufferer from infantile paralysis for some years, went to the bathroom. A few seconds later, Hickey told Detective Hooks of the Mercer Street Station, Smith staggered back into the room and said he had taken the wrong medicine. Hickey and malds in the apartment administered bicarbonate of soda as an antidote, but before a doctor arrived from St. Vincent's Hospital Smith was dead.

## ACIDS IN STOMACH CAUSE INDIGESTION

Creates Gas, Sourness and Pain  
How To Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not to some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never solid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

## Coughs and Colds

Are dreaded by Mothers  
who do not know of  
Dr. Chase's Syrup of Lin-  
seed and Turpentine.

What a weight of responsibility rests on the mother of the family during the cold weather season. In every cough and cold she seems to hear the warning of serious developments. She dreads croup, bronchitis, pneumonia and consumption and realizes that these are the natural result of neglected colds.

But Dr. Chase has provided a prompt relief for coughs and colds and a preventive of more serious ailments of throat and lungs. In his Syrup of Linseed and Turpentine.

This medicine is so well-known that only a reminder is necessary to most people to recall its effectiveness in relieving croup, bronchitis, asthma and all forms of throat and bronchial troubles.

## GREEK TROOPS QUIT BULGAR TERRITORY

Order of League of Nations  
Sullenly and Silently  
Obeyed.

SOFIA, Bulgaria, Oct. 29.—The Greeks sullenly and silently began their march out of Bulgarian territory at 1 o'clock this morning. At that hour a bugler walked between the hostile camps and signalled the Greek's intention to obey the orders of the League of Nations.

The Bulgarians retained their position until the arrival of the Allied attaches was heralded by bugles in the Greek camp. The attaches went forward to meet the Bulgarian colonel, Zlateff. They warned him not to disturb the Greek withdrawal. Already the attaches have begun to estimate the damage caused in the evacuation of the territory. The number of Greek troops engaged in the entire operation was thought to be about 30,000.
