EMERGENCY L. PLEASED

Entente "Removes Inces-of War."

Epoch in the Pacific and
World as Result of the
Washington Conference—
Urges That China Co-operate
With Friendly Powers.

(Canadian Press Cable)
Paris, Dec. 23—Premier Takahashi of Japan is quoted by the Tokio correspondent of the newspaper Excelsior as following:
"The quadruple entente, which for Japan replaces the Anglo-Japanese Alliance, is much wider in bearing, and removes all chances of war."
"I venture to say," he continued, "that the Washington conference has opened a new epoch in the Pacific and the world I not only believe that the entente will result in making the Japanese people happier, because it will lighten their burdens, but further, that by reason of the guarantee we obtain, the position of Japan is strengthened in the Far East."
In regard to China, the premier was asked as saying: "China is in an unpleasant situation for Japan, as a result of a misfortune which she does not cooperate with the friendly powers seeking to bring about her unification."
The premier concluded by characterizing the report that Japan had designed a new Indo-China as "an absurdity which has no foundation in the fact, and will not have in the future."
He said that if there was any discussion of Japan about Indo-China, it was because Japan had not been given favored treatment there. He hoped that commercial agreement on this subject would strengthen the good relations between Japan and France.

N. AUTOMOBILE PARTY KIDNAPPED

Former White Sox Manager Has Exciting Experience in Chicago.

Chicago, Dec. 23—One man was shot and another captured last night after the two had kidnapped an auto party made up of Mrs. James Callahan, wife of the former manager of the Chicago White Sox baseball team, her daughter, mother and father and old Emil Kroten, the driver of the Calahan car.
Members of the party and Kroten were seated in an automobile in front of the Calahan home, Mr. Callahan standing at the curb. The two men pointed revolvers at Kroten as they stepped on the running board and ordered him to drive. Kroten was slow obeying the command and one of the men shot him through the neck. The four then started the car.
Callahan hailed a passing automobile and started in pursuit, picking up a well-known man on the way. As the pursuers neared, the men jumped from the Calahan car and the policeman removed, killing one of the men. The other surrendered. It is believed the party intended to hold up the Calahan party.

Council Action For Out of Work

May Provide For 200 Men—Citizens Committee to Open Employment Bureau—Rotary Club Will Discuss the Situation.

The first concerted step towards the solution of the unemployment situation was taken this morning in Mayor Schofield's office. It was decided to provide some work immediately and resolutions covering the authority for it will be presented at Tuesday's council meeting. The mayor presided and others present included Commissioners Thornton, Jones, Bullock and Frink, C. G. Hare, city engineer; Duncan G. Lingley, city chamberlain, and Adam P. MacIntyre, city controller.
Another important move was made at a meeting of the citizens' committee which waited on the common council yesterday. At a meeting in the Y. M. C. A. this morning it was decided to open immediately an employment bureau in the city, which will be operated, at the commencement by the Salvation Army without charge. The bureau was expressed that the office of the Commercial Club might help for the purpose, and this matter is being taken up this afternoon.

AT CITY HALL

The commissioners decided to put into operation at once the two city stone crushers, each employing a crew of about twenty men, if that number can be obtained to work them. This will give employment for about forty men a week. An alternate crew will be put on every other week. Thus about eighty men will find employment for half time on the two stone crushers. It was decided also that if more than this number of men were available, a bond would be authorized for the purchase of another crew. An emergency wage of \$2.50 a day for labor and \$1 a day for double teams will be paid on the work. It was emphasized that as this operation was carried out to provide work, and would necessitate additional expense to the city, a reduced wage should be accepted.

EMPLOYMENT BUREAU

The committee representing the Evangelical Alliance and other bodies which waited upon the city council yesterday held a meeting this morning in the Y. M. C. A. and decided to open an employment bureau. It is hoped it may be opened tomorrow morning in the room of the Commercial Club. The executive of the club is considering it this afternoon.

"And more than two hundred men are out of work," said Hiram.
"Let's talk about it a while," said the reporter.

"Kind of got on your brain—hain't it?"
"And I want to get it on yours," said the reporter. "Something must be done."
"Let's talk about it a while," said Hiram. "That's the fashionable thing to do—ain't it? If we talk about it till spring, maybe we kin git a job for what's left of that twelve hundred—yes, sir."

Makes Sensation In Sport Circles

Many Opinions on Matter of Amateur Status and Suspension of Hockeyists—President Covey Accepts Suggestion for Inquiry by Appointee of N. S. Attorney-General.

A. W. Covey, president of the Maritime Branch of the A. A. U. of C., said this morning he welcomed the suggestion of Sporting Editor Dolan of the Sydney Record that the attorney general of Nova Scotia name an investigator to take evidence under oath in the matter of the 13 suspended Nova Scotia athletes.
"I would welcome such an independent inquiry," said Mr. Covey, "for I would give those who are now making large assertions the opportunity to back them under oath. The action we have taken has been taken on sworn affidavits brought to me by a reporter from an athlete or sporting writer who knows whereof he speaks, and who, if he cannot produce the evidence, should be held responsible for the same. It is in the opinion of fair-minded men remain silent. Statements have been made at various times in the last two years by certain people with reference to various athletes, but when asked to put the same in affidavit form have refused to do so, although some of the same men have carried on a propaganda through the press against the A. A. U. of C. The effort of the association has been to keep sport clean for the sake of the boys who are to be our future citizens."
The delay of the investigation which was to have been held in Halifax on Wednesday next, but if so it will be postponed to a later date. The athletes will be known when they stand when they get in touch with the attorney general of Nova Scotia. The reason the present action was taken was the proposed trip of the Dalhousie hockey team to Harvard, early in January. It was not considered fair to allow men playing hockey to be suspended without association held sworn affidavits to go and compete as amateurs."
