W. BAILEY, THE ENGLISH, AM-erican and Swiss expert watch repair-er, 138 Mill street (next Hygiene Bakery). t.f.

THE TREND OF PRICES.

(Montreal Gazette)
To the editor of the Gazette:
Sir,—The wholesale and factory price lists are out now for cotton goods, both textiles and knit goods, for spring, 1921.

Prices show an advance of from 30 to 75 per cent. over spring, 1920, prices, and in many lines only very limited quantities are to be had.

There is no use trying to bluff people that prices are going to tumble in spring, 1921.

Let me quote a few wholesale prices: Spring (Per dozen)

Men's underwear	\$4.00	\$8.10	\$18.50
Men's underwear	3.00	6.50	9.75
Men's underwear	4.75	18.50	21.00
Boy's summer jersey	2.25	4.50	6.50
Boy's summer jersey	2.75	5.40	8.50
Boy's summer un-derwear	2.25	4.50	6.50
Men's silk socks	2.25	4.00	6.50
Men's silk socks	4.00	6.50	9.00
Men's overalls	12.00	30.00	45.00
Men's overalls	6.50	21.00	30.00
Men's overalls	7.00	23.00	36.00
Men's cotton work pants	12.00	22.50	39.00
Men's negligee shirts	6.50	18.00	30.00
Men's cotton work shirts	4.50	13.50	21.00
Men's cotton work shirts	6.50	18.00	30.00
Men's braces	4.50	12.00	18.00
Men's braces	2.25	9.00	14.00
Men's braces	6.00	10.50	16.00
Men's negligee shirts	9.00	24.00	45.00

I only quote prices on lower grade goods which affect the general public the most. Practically every shirt factory in Canada is sold a solid year ahead and at the present time it is impossible to buy either through the jobber or from the factory any men's shirts, either working or negligee. It is almost the same with the overalls factories, as they are getting very small deliveries of cloth from the mills.

Almost everything in cotton goods is sold in the retail stores cheaper today than today's cost price, so where, oh, where, are the cheaper prices for 1921 to come from? Philip J. Elliott. Montreal, August 18, 1920.

IRON, STEEL, METAL AND MACHINERY.

In its summary of the iron, steel, metal and machinery markets for week ended Aug. 19, Canadian Machinery and Manufacturing News, Toronto, makes the following comment:

In the local market conditions are very much the same as they were last week. There have been no changes in prices of machine tools, or in stock handled by the steel warehousemen. The same causes are operating, viz., summer vacations, tight money and crop expectations. It is probable that if any change of prices occurs it will be in an upward direction, rather than downward. In the United States there has been a general advance on all grades of pig iron, while steel products have shown a tendency to decline. The coke situation which has been very acute, through car shortage, now is expected to show an improvement, and this in turn may affect the pig iron. At the present time, makers of pig iron and very loath to take on business for 1921, as they have no idea of what costs are going to be. There has been considerable curtailment of production among automobile manufacturers, though some of the principal firms are still working at full capacity. The falling off in these trades is expected to be made up by large buying by the railroads once the new freight rates come into force. In the case of the Illinois Central Railroad, which has an enquiry out for over fifty machine tools, it is thought that the purchase of these was decided on before the freight rate increase. One effect of the falling off in the automobile trades, and the cancellations occasioned thereby, has been a speeding up of delivery in the machine tool market. The old material market has shown a strong upward tendency in practically all grades, heavy melting steel being particularly strong. This, of course, refers to the U. S. market, the local market being quiet.

MUSICAL INSTRUMENTS

Sherlock-Manning Pianos Endure

The Piano Buyer does not purchase every year. In fact one of his first considerations is, how long will the piano he buys stand up?

Sherlock-Manning Pianos are Beautiful, and they are Tonal. But they are fully as remarkable for their wonderful Proven endurance.

NO AGENTS' NO INTEREST

Fundamental Progress

We have made an exhaustive analysis of the Canadian pulp and paper industry. This foundation is based, first, upon the wonderful combination in Canada of immense areas of: use pulpwood with abundant water-powers in close proximity; and, second, broad markets for pulp and paper products dependent for supply on Canada's production.

This information, plus the facts that we give you on production costs, selling prices and expanding domestic and foreign markets, should strengthen your confidence tremendously if you are a holder of pulp and paper securities.

It will please us to send you a copy of this analysis if you will write for it. We think it will please you equally to receive it. Address:

USE The Want Ad Way

Is Plenty of Sleep a Waste of Time

WORK is pressing. Every man has about twice as much on hand as he ought to be asked to do.

Few men sleep long enough—or soundly enough. Even if there is nothing else to keep them awake, the average metal or wooden bed creaks just enough to prevent the nerves from complete relaxation.

No one can sleep deeply unless he is completely relaxed.

IT IS wonderful how the right kind of Bed Spring invites perfect relaxation and deep, sound sleep—and what a difference the right Bed, Mattress and Pillows can make.

The good spring is taut and flat, yet resilient. It supports the body at ease in any sleeping position—conforms to the contours—never weakens, humps or sags.

The sleep-inducing Spring is a Simmons "Waldorf," of specially tempered spring coils. Fine springs that fit the contour of the body and support the spine in a straight line, insuring perfect circulation and restoring the energy used up in the fatigue of the day.

Simmons Felt Mattresses are the result of twenty-five years' study of equipment for sound, natural sleep. Made of pure, new cotton in clean, sun-lit factories. Used in thousands of fastidious Canadian homes.

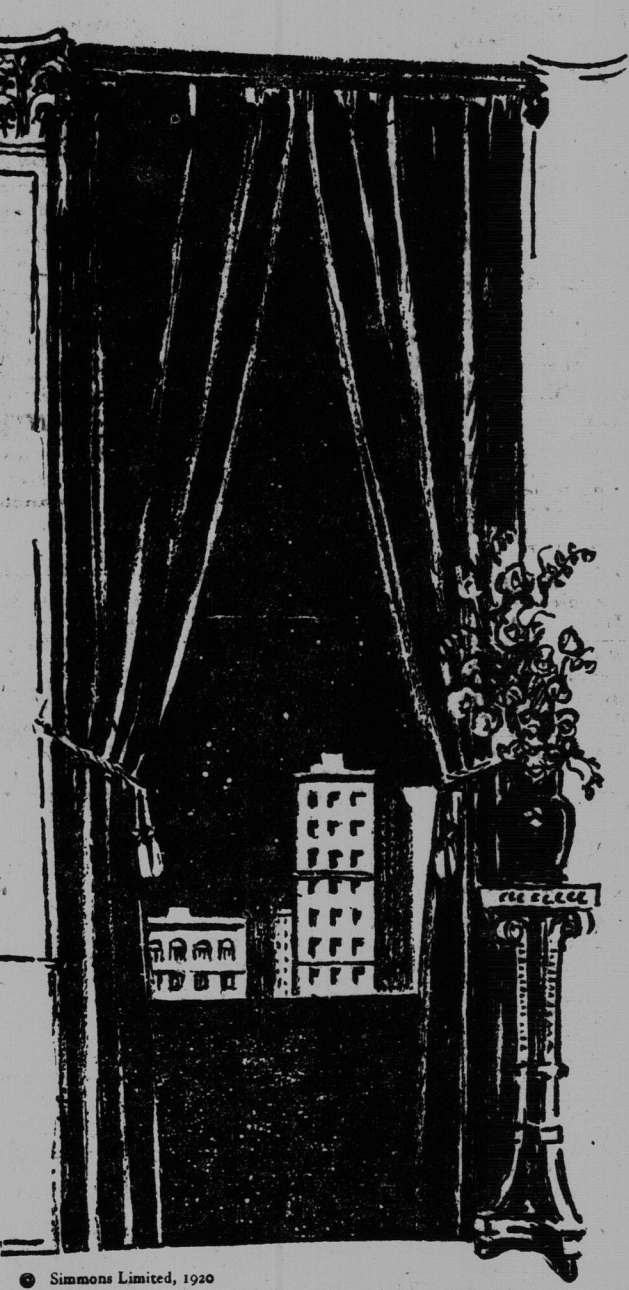

And Simmons Pillows, which rest the head and neck exactly as they need to be rested.

Simmons Limited is the maker of really noiseless Metal Beds—beds that stand sturdy and firm—not a shake, creak, or rattle anywhere.

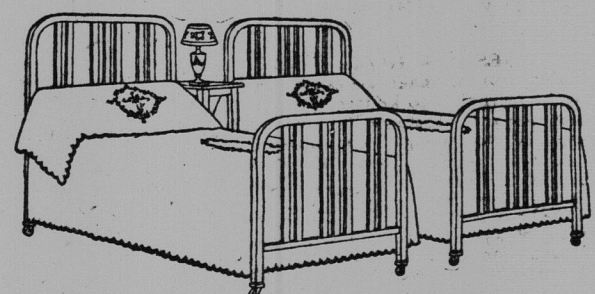

IF YOU know only wooden beds—or ordinary metal beds and springs—ask the leading merchant in town about Simmons Metal Beds, Brass Beds, Springs, Mattresses, Pillows, Day Beds and Children's Cribbs.

They are built for sleep—yet they cost little if any more than the casual merchandise of the ordinary store.

And when you are selecting your Simmons Beds with an eye to their appearance in the room, you will see that Simmons has for the first time established beautiful and authoritative design in Metal Beds.

© Simmons Limited, 1920

The "CHATSWORTH" Design 1901—in Twin Pair

Made of Simmons new Square Steel Tubing—Seamless, smooth and beautifully finished. Exquisitely enameled in the accepted Decorative Colors.

Has the Simmons patented pressed steel noiseless Corner Locks. Easy rolling casters.

Your choice of Twin Pair and Double Width. Specially pleasing in Twin Pair.

Sleep is a big subject! Write us for the booklet, "What Leading Medical Journals and Health Magazines Say about Separate Beds and Sound Sleep." Free of charge.
