Favor Dental Inspection to Cover the Whole Province

Results of the Survey — Oral Hygiene Committee Shows Relation of Teeth to Health.

(Toronto Globe.)

The enormous advantage of dental inspection of public school children was borne in upon the school inspectors of the province at a banquet last night in the King Edward hotel, when they were the guests of the oral hygiene committee.

Lantern slides were shown and explained by Dr. Wallace Secombe, and pictures of actual sufferers and the tremendous improvement made in their appearance and health after dental treatment was easily manifest.

Let Them All Take OLIVEINE EMULSION

The Doctor knows the merits of this elegant preparation. He prescribes it for every member of the family—for the tired, nervous wife and mother—for the man who is all run-down, does not sleep well nor digest what he eats—for the young girl who is pale and dispirited—for the boy recovering from a wasting illness—for the baby who is under-weight and not growing as fast as is natural.

OLIVEINE EMULSION is an improved and tasteless preparation of the extract of Oil, Malt, Wild Cherry Bark, Syrup of Hypophosphites, Quinine and other valuable compounds combined so agreeably that it is pleasant to take and readily digested by the weakest stomach.

Summersville, N. S. "I am taking my second bottle of OLIVEINE EMULSION and find it helping my general health. I can already recommend the OLIVEINE EMULSION for a run-down system."

OBJECT OF COURT TO HELP CHILDREN

Judge Mott Describes Method of Dealing With Juvenile Delinquents.

(Toronto Globe.) An interesting address on "The Juvenile Court System" given by Judge Mott of the Juvenile Court yesterday afternoon at the monthly meeting of the York Pioneer and Historical Society held in the Normal School.

No greater enactment nor one of more benefit to a community had been passed in many years, the judge said, than the Juvenile Delinquency Act which removed the stigma of crime from children under sixteen years of age, and he regretted that all cities of Ontario did not have the benefit of it.

The aim of the court, Judge Mott stated, was to care for the welfare of the child, not to punish, but to correct and prevent, and to make the home, wherever possible, safe for the child.

One of the saddest things he had to do, he stated, was to take a child from its parents and its home and turn it over to the care of the Children's Aid Society, which, he said, was doing a great work.

What Toronto needed, he considered, was a Detention Home where juvenile delinquents could be placed until their own homes were fit places for them to live in.

The workings of the court were illustrated by the judge by cases which had come before him, and by which he showed how all the mental, physical and moral tendencies of the offender were analysed and an attempt was made to get at the cause of the crime and remove it.

The great object of the court, Judge Mott said, was to save boys from coming there, and when they did come to use every known means to save them from becoming criminals.

WHAT THE LADIES ARE WEARING IN TORONTO. (Mail and Empire.)

The bright hopes of holiday makers, which on Saturday seemed so rosy were dashed to the ground yesterday by the sudden change in the temperature and the showers of snow and sleet which quite put an end to the usual display of new Easter millinery and clothes.

Women returned to fur coats, but there were some courageous enough to venture out to the morning services in suits, these being noticeably in the heavier materials, worn with furs. Dark blue once more seems the favorite color, and the new suits seen yesterday, all seemed to be cut on straight lines, the coats in several cases being rather longer than those worn last fall, and having a straight panel at the back, falling in a very narrow belt.

Almost the only touch of spring was the flowers worn by the many women, sweet peas being without doubt the favorite blossoms.

Those who donned new hats chose small, close fitting straw shapes, though several ladies compromised by putting on dainty silk chapeaux. Hand-painted ribbons used as trimming were seen on many of the new shapes, and some smart little shapes turned up in front had simple quilted ribbon ornaments, in the new shades.

Bright touches of color were given in some few cases by the little girls who wore the scarlet coats, which have just stepped back into high favor, and which so become the little people.

But taken altogether, the new fashions got no chance yesterday, the clerk of the weather being determined to give

Doctors Stand Amazed at Power of Bon-Opto to Make Weak Eyes Strong—According to Dr. Lewis

Guaranteed to Strengthen Eyesight 50% in One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home

Philadelphia, Pa. Victims of eye strain and other eye weaknesses, and those who wear glasses, will be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription.

They have thrown them away. One man says, after using it: "I was almost blind. Could not see to read at all. Now I can read everything without my glasses and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for 10 days everything seems clear. I can read even fine print without glasses."

Another who used it says: "I was bothered with eye strain caused by overworked, tired eyes which induced fierce headaches. I have worn glasses for several years both for distance and work, and without them I could not read my own name on an envelope or the type-writing on the machine before me. I can do both now and have discarded my long distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years I have looked like a dim green blur to me. I cannot express my joy at what it has done for me."

A lady who used it says: "I have been advised that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be free from the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by the use of this prescription. Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and let it dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation and redness will quickly disappear. If your eyes bother you even a little it is your duty to take steps to save them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time."

Note: Another prominent physician to whom the above article was submitted, said: "Yes, the Bon-Opto prescription is truly a wonderful remedy. Its constituent ingredients are well known to eminent eye specialists and widely used by them. I have used it very successfully in my own practice on patients who were unable to see through their glasses. I can highly recommend it in cases of eye strain, redness, itching, smarting, burning, watering, and all other eye troubles. It is not only a safe and effective remedy, but it is also a pleasant one. The material being printed on the package, the manual being printed on the package, is guaranteed to be true. It can be obtained from any good druggist and is sold in this city by Watson's Drug Store and others."

So This Is Your Birthday, Grandmother

"YES, dearie, I am seventy-five years old to-day. It doesn't seem possible, for I don't feel old."

"And you certainly do not look old."

"Were you never sick, grandmother?"

"Oh, yes, indeed, there was a time in my life when I never expected to live to be fifty, say nothing about seventy-five. When your mother and my other children were small I had my hands full and got run down in health. I got so nervous that I could not sleep and had frequent headaches. Every little thing the children would do seemed to annoy and worry me until, finally, I gave out entirely, and was in bed for months with nervous prostration."

"Did you have a doctor?"

"Yes, dearie, I had two or three doctors, but they only told me that it would take a long time for me to regain strength. One day your grandfather came in with some of Dr. Chase's Nerve Food. He said some one told him that it would cure me, and he went away to the drug store and bought half a dozen boxes."

"What did your doctor say about using it?"

"Well, what could he say? He only said that he had done all he could, and that he
