

English Judge Praises Boxing, But Wants "Cover-up" Barred

By TOM ANDREWS

Can you imagine a judge of the courts offering a suggestion that the "crouch," or as we term it, the "cover up," be eliminated from the boxing game?

Well, that is what an English judge recently made—a suggestion that the boxing promoters prohibit the habit in boxing matches, and there are thousands of fans in the States who will second the motion a dozen times over. The "cover up" habit was touched on in these columns some time ago and met with the approval of nearly every fan in the country, the same as the baseball fans disapproved of the "spit ball" in a game.

It was during the big tournament given by the metropolitan police of London that the judge got into the game. There were hundreds of entries, from light weights up to heavy weights, and the contests were attended by many of the leading business men, magistrates and big political men of the city. Speeches were made in favor of the boxing game by many attending, and the judge, Sir Thomas Bucknill, a judge of the high courts of justice, to make the hit of the evening. He told the patrons and the contestants that he had been a lover of the boxing game from childhood and that in his youth he had been a pupil of the famous Nathan Langham, the only man that had defeated the more famous Tom Sayers. Judge Bucknill went on to say that he hoped the game would be encouraged, but that he wanted to see less of the crouching and "covering" tactics adopted by the present day boxers, and the use of the clean straight left, which to his mind was one of the greatest blows in the game.

Judge Dickinson followed Sir Thomas and said that a knowledge of the boxing game was very desirable and necessary for all policemen, enabling, as it did, a man knowing his own powers not only to keep control of himself, but to assist greatly in time of need and in the discharge of his duties. Judge Dickinson also agreed with Lord Wolsey that boxing was of the greatest benefit to the soldiers and navy men and he wanted to see the day when boxing would be adopted by all classes of young men.

What contrast! Some of the biggest men in England trying to tear the boxing game along and similar men in this country endeavoring to help it to pieces. However, there is hope, for some of the more broad minded men of the states are beginning to favor the game and pay less attention to the mollicolde element.

ZAM-BUK CURED HIS ECZEMA

Mr. James McComb, of Thornton, Ont., writes: "For eight months I suffered from eczema and could get nothing to give me relief. I heard of several cases where good results had followed the use of Zam-Buk and decided to give this remedy a trial. Within three days I felt much better, and within two weeks the sores were entirely cured."

For all skin diseases, eruptions, boils, scalp sores, etc., Zam-Buk is without equal. It is just as good for cuts, burns, bruises, blood-poison, piles, varicose ulcers, bad leg, inflamed sores, etc. All druggists and stores at 50c. box, post free from Zam-Buk Co., Toronto, upon receipt of price. Refuse harmful substitutes and imitations. Have you tried Zam-Buk Soap? 25c. tablet.

CANADIAN HORSES AT THE LONDON SHOW

(Times' Special Correspondence)

London, May 29.—As usual Canada will be well represented at the International Horse Show at Olympia. Hon. Adam Beck will be represented by a good stable, and John Clifford Sifton will delight us again with his jumpers, which his sons will ride. Mr. Beck will be in charge of the Canadian Horse, to compete for the King Edward VII. cup, and in other events.

Some famous continental competitors will appear, France, Belgium, Russia and Sweden having entered, but the United States and Italy have not yet given their decision. Miss Mona Dunn, a young Canadian girl who has accompanied both Paris and London with her horsemanship, has no fewer than thirty-five horses entered, including "Bismarck," which has already this season at Vittel, jumped 7 feet 10 inches and at Paris 7 feet 6 inches. Miss Dunn will ride in some of the events.

Canada at London Olympia

Ottawa, May 29.—Canada will be represented this year at the royal military and naval tournament at the London Olympia. One Ottawa officer, Lieut. H. H. Batt, of the 4th Princess Louise Dragoon Guards, is on the team with Mr. Gordon Milne of the Mississauga Horse, Toronto. This tournament is one of the big annual military events in England. In past years Canada has not obtained a first prize at the Olympia show, although Canadian representatives have won places.

The proceeds of the Olympia go towards army and navy charities. The Canadian officers with their horses will embark at Montreal on Saturday.

Game Cocks Beheaded.

Thirty-four cocks captured by the state police and agents of the Massachusetts S. P. C. A. in a raid at a main in Hudson a week ago were sentenced to death by Judge Kingsbury in the South Framingham court, and soon after were taken to Shaw and executed. The birds were valued at about \$2,000 and were all full-blooded fighting cocks, many of them considered to be some of the best in the country.

Another lot of 42 game cocks captured last Sunday in a raid conducted by the society agents and the police, also valued at about \$2,000, will be dealt with this week.

KINGS COUNTY BOOZE

Sussex Record.—The Scott Act authorities have issued an ultimatum that hereafter the conveyance of liquors from St. John to Kings county must cease. It has been customary for persons going to St. John to bring out liquor and then accept payment for it from a second party. This is viewed as a sale and a few days ago a conviction was registered against a Sussex resident, who was found guilty of the offence. The authorities say that much booze has been brought in by such methods and they will prosecute all persons detected in violating the law governing such cases.

American steel piling has been used in the great irrigation works at Hindia, near Bagdad.

Don't Put Off

seeking relief from the illnesses caused by defective action of the organs of digestion. Most serious sicknesses get their start in troubles of the stomach, liver, bowels—troubles quickly, safely, surely relieved by

BEECHAM'S PILLS

Sold everywhere, in boxes, 25 cents.

MORE PAY FOR C.P.R. MECHANICAL AND CAR EMPLOYEES

Montreal, May 29.—As a result of the negotiations which have been in progress for the past two weeks between the thirty-five delegates of the federated shop trade and the officials of the C. P. R., arrangements have been completed whereby all the employees of the mechanical and car departments employed on the eastern lines will receive increases amounting to about 10 per cent over their present rate of pay. Time and a half will also be allowed for all overtime and legal holidays and other concessions for the benefit of the employees have been granted.

The new arrangement will go into force Monday next and remain in effect for one year. The question of fortnightly, instead of monthly pay, was also discussed, while nothing definite was arrived at, something may develop in the near future as a result of the negotiations.

UNITED SHOE CO. HEARING

(Canadian Press.)

Boston, May 29.—The Thomas C. Plant Company, of Boston, was an active competitor when the United Shoe Company acquired it, according to testimony introduced today by the government in the dissolution proceedings against the United Shoe Company.

It was the largest and the most important of the fifty-five subsidiary companies bought up by the defendant, and its purchase is regarded as one of the points in the government's case. Plant had acquired a complete line of shoe machinery when the latter bought him out for \$6,000,000. This was after St. Louis manufacturers had opened negotiations for the purchase of a half interest in Plant's shoe machinery business.

The government contends that the Plant concern was bought up in pursuance of a plan to monopolize the shoe machinery business of the country.

PURIFIED HIS BLOOD

Dr. Morse's Indian Root Pills Healed Mr. Wilson's Sores

When the sewers of the body—bowels, kidneys and skin ducts—get clogged up, the blood quickly becomes impure and frequently sores break out over the body. The way to heal them, as Mr. Richard Wilson, who lives near London, Ont., found, is to purify the blood. He writes:

"For some time I had been in a low, depressed condition. My appetite left me and I soon began to suffer from indigestion. Quite a number of small sores and blisters formed all over my skin. I tried medicine for the blood and used many kinds of ointments, but without satisfactory results. What was wanted was a thorough cleansing of the blood, and I looked about in vain for some medicine that would accomplish this. At last Dr. Morse's Indian Root Pills were brought to my notice, and they are one of the most wonderful medicines I have ever known. My blood was purified in a very short time, sores healed up, my indigestion vanished. They always have a place in my home and are looked upon as the family remedy."

Dr. Morse's Indian Root Pills cleanse the system thoroughly. Sold by all dealers at 25c a box.

Clark's Pork & Beans

Quality, flavor, and perfect cooking, combined. The maximum of nourishment and palatability, just heat—then serve—maximum satisfaction and cost.

FOUR INJURED IN MONTREAL AUTO COLLISION

Montreal, May 29.—Four persons were injured, one perhaps fatally in a collision between an automobile belonging to Eudore Brunette, who was driving in the car at the time, and one of the big construction cars of the street railway, at St. Laurence street and Laurier avenue this morning. The street car burst the automobile twenty feet through the air against the stone wall of the police station at the corner completely wrecking the car and smashing the windows of the station.

The women occupants of the machine were Miss Victoria Choinard, and her sister, Leonie. They were taken to the Royal Victoria Hospital. Antoine Lacette, the chauffeur and the owner, E. Brunette, the other occupants, were taken to the Notre Dame Hospital.

At the Royal Victoria it was found that Miss Leonie Choinard had sustained a broken leg, while her sister escaped practically uninjured. The chauffeur received very severe internal injuries, and the doctors at the hospital declared he may not recover. Mr. Brunette was very badly hurt, about the head and shoulder.

WEATHER NOT TO BLAME

It's Your Condition

"This weather simply takes the life right out of me. I can hardly drag one foot after the other," said a rundown, tired-out woman, the other day. We want to say to every such person in this vicinity. Don't blame the weather. You need a strengthening tonic and the very best we know is Vinol, which is a combination of the two most world-famous tonics, namely, the medicinal, curative elements of cod liver oil and tonic iron, for the blood.

A case has just come to our attention from Vineland, N. J. Mrs. Allen T. Godfrey says: "I never fail to say a good word for Vinol, for it restored my strength and vigor after I had been in a badly run-down condition for several months. Every one who is broken in health ought to know that Vinol will build them up and make them strong."

Try a bottle of Vinol with the understanding that your money will be refunded if it does not help you.

Wasson's 4 Drug stores, King street, Main street, Haymarket square, and King street, W. E.

THE STAR'S WEEK END.

There is not a grown-up or child hardly but who has heard the story of "The Babes in the Wood." Pathé Freres have filmed this old tale and the Star is going to show it tonight and all day Saturday. The other photo-dramas are as follows: "The Market Messenger," a detective story of the financial world and two of the most ludicrous Biograph productions, one entitled "A Horse on Bill," the other "He Has Another Coming." Here is a bill mixed with comedy, melodrama, fairy tale and the well balanced and of meritorious quality.

What makes teeth white? Any good dentifrice. What polishes teeth? Any good dentifrice. What cleans teeth? Any good dentifrice. What whitens, polishes, cleans AND SAVES teeth? Pebecco.

Pebecco Tooth Paste is more than a tooth-polisher—does more than leave a sensation of honied, candied, confection-sweet taste in the mouth. It's a scientific dentifrice which performs a double duty: it neutralizes the mouth-acids that gradually break down the enamel—it even destroys the bacteria that cause these acids. Isn't this a big step forward in tooth care and culture?

Pebecco reaches the cause of bad teeth and bad breath. It means good-bye to "acid-mouth." Good-bye to bad teeth—bad breath.

DECLARES STEEL TRUST A MODEL

A Fine Example to Business World, Says Chairman Gary

ALMOST PERFECT

Has Made a Few Mistakes, Kept Prices Steady in the Trade and Has Not Crowded Competitors—Morgan Praises the Foresight of Morgan, Who Financed The Big Deal

New York, May 29.—"I believe the United States Steel Corporation has set a good example in the business world. If this seems like boasting I beg your pardon." These words epitomized the testimony today of Judge Elbert H. Gary, chairman of the corporation, in the hearings of the government dissolution suit against it as an illegal combination. Judge Gary spent a second entire day on the stand and devoted most of his testimony to pointing out the good which he said had been accomplished by the corporation in the steel industry as the result of its organization.

The policy of the corporation has been so to manage and conduct its affairs as to make it certain that it did no wrong to any person or interest. It seems to me that this is the important thing in a quasi-public corporation. I believe that we have been of assistance in promoting the interests of all concerned with or affected by the corporation.

Although there were difficulties and obstacles among us as to how labor and our competitors should be treated, for the last eight or nine years, our administration has been very successful and everything is very satisfactory except the government does not seem to think we have done as much or as little as we ought, which ever it is.

Judge Gary praised the part that the

late J. P. Morgan took in organizing the corporation, and said that it could never have been launched without the financial aid and backing. He testified that the corporation's policy of seeking stability in prices had benefited the industry, and that as a result of it there had been no failure of steel firms in the panic of 1907.

RECOVERS SENSES TO FIND HIMSELF ENLISTED SOLDIER

German Mayor Joined French Legion While Temporarily in Mental Oblivion

Berlin, May 29.—After keeping his family in intense anxiety for forty days owing to his mysterious disappearance, Mayor Troemel, of Usedom, in Pomerania, has written a postcard from Algeria stating that he enlisted in the French Foreign Legion for five years while in a condition of complete forgetfulness of his identity and former life. Herr Troemel, who is thirty-two years old and married, once previously disappeared and was found some months later in a Paris hospital, having recovered his knowledge of his identity. This time, after writing from Berlin instructing the deputy-mayor to represent him, he vanished, and all inquiries were fruitless until a letter from him in Algeria, asking her to break the news gently to his wife that he had found himself recovering consciousness, a volunteer in the French Foreign Legion. He also appealed to his sister to take all possible measures to have him released.

According to the papers there is no agreement between France and Germany regarding the release of volunteers unless they are minors. Hence the press once more invades the country of the French government. Medical authorities declare that it is a case of epileptic oblivion.

PILES

Do not suffer another day with itching, bleeding or protruding piles. No surgical operation necessary. Dr. Chase's Ointment will relieve you at once and as certainly cure you. 50c. a box. Sold everywhere. Sample box from London, England, sent and money to repay postage.

A Constant Change in Body Tissues

"Our bodies," says Huxley, "may be likened to an eddy in the river, which retains its shape for a while, though every instant each particle of water is changing." The tissues of the body, composed of millions of tiny cells, are being constantly broken down and wasted away by the process of life, and especially by overwork, worry and disease. In order to reconstruct these wasted tissues there are necessary such elements as iron, sulphur, magnesia, potash, etc., and when these are not supplied in sufficient quantities in the food we eat it is necessary to aid nature by the use of some restorative preparation. Most people find Dr. Chase's Nerve Food particularly effective under such circumstances, because it is composed of the very elements of nature which go to form new, rich blood, create new nerve cells and rebuild wasted tissues. This great food cure is radically different from medicines which are usually employed in the treatment of nervous diseases. For, while they stimulate the nerves to overaction or by narcotic influence soothe and deaden them, Dr. Chase's Nerve Food revitalizes wasted nerve cells and so accomplishes lasting beneficial results. Such symptoms as sleeplessness, irritability, headache, indigestion, brain tire and feelings of fatigue and discouragement soon disappear when the system is built up by the use of

Dr. Chase's Nerve Food
