Why Beautiful Homes Are Lined With UTILITY BOARD
The Modern Wall Lining

It is superior and so much more satisfactory than Lath and Plaster in every way that it makes an irresistible appeal to the wise Home Builder. It is quicker to put on and lasts longer. In thousands of cases its permanent reliability has been put to severe tests. It does not peel off or sag like plaster. It is not marred by knocking furniture against it. Durability means economy.

The Poor 1st Home Builder Can Afford Utility Board

Most artistic effects can be obtained with Utility Board in plain, papered, or paneled walls, or in a large variety of panel designs. It is moisture proof and sanitary, impervious to heat and cold, keeps the house warm in winter and cool in summer.

Utility Board has many other uses about the house and yard, making an extra room in the attic or basement, finishing off summer houses, building partitions and remodeling old homes. Can be nailed on or old plaster.

Utility Board is sold in strips 32 inches wide and 5 to 15 feet long and we carry large stocks.

NOTHING BUT FUN

Three Hours of Laughter at Charlie's Aunt Tonight.

The most successful as well as by long odds the funniest comedy ever given on the stage is Charlie's Aunt, which will be elaborately staged by Helen Grayce and her players at the Opera House tonight, tomorrow afternoon and night and Wednesday afternoon. When it was first presented in London it ran for three years and was revived there fifteen months ago and is still attracting crowded houses. It is one of those merry plays that is with you a dull moment. Jane Eyre is under-

lined for Wednesday night and an elaborate production of Romeo and Juliet follows on Thursday night.

AS TO CHURCH UNION.
The meeting of the Canadian Presbyterian committee on church union which was held in Toronto and at which a resolution was adopted expressing the view that the vote would not warrant organization, now, with the Methodist and Congregational churches, was attended by Rev. James Ross, who returned to the city on Saturday. Hon. J. G. Forbes, one of the members of the original committee, said yesterday that this does not necessarily mean that union is defeated as the general assembly may not adopt the resolution. Even if it does he would regard it as merely a delay as union was inevitable.

DEV. DR. J. A. MORISON GIVES EVERY DAY CLUB TALK AND JOINS IT

The audience which filled the Every Day Club hall last evening heard an inspiring address by Rev. Dr. Morison. He said he had read about the Every Day Club when he was in Chicago, and had felt that it was a good thing to have such an institution in the city. Though a preacher he found fault with the churches because they were not open every day in the week. In Chicago he had opened a mission in a quarter where there was one small church on a square mile of city that had a mission and a dance hall at every corner. Dr. Morison's story of the beginning of the mission and of the man who was his chief helper in the work was intensely interesting. The mission is now prosperous and doing a good work.

"It's a man's job," said Dr. Morison, referring to the work of helping those who are down. "God has told us the way, and is ready to come to our aid, but it is a man's job."

Very earnestly the speaker urged the men in the audience to join the Every Day Club and with God's help influence other men for good.

"Do you know why I do not drink liquor?" he asked. "Because it has injured too many good friends of mine. Because of that I hate it."

Dr. Morison laid emphasis upon the need of taking Jesus as an example. In former days emphasis was placed only upon the Divinity of Jesus, but now we recognize also His humanity. He came not to be ministered unto but to minister.

The musical programme last evening included a duet by the Misses Lane, a vocal solo by Miss Hill, a piano solo by Mr. Stokes, and a whistling solo by Walter Nixon.

In urging men to join the club, Dr. Morison himself became a member and expressed his full sympathy with the work.

C. N. R. MAY SPAN NIAGARA FALLS

Buffalo, N. Y., April 6.—An outlet through Buffalo to New York, either the Lackawanna or the Erie, will be built over the Niagara River at Niagara Falls in conjunction with the International Railway Company, the plan of Sir William Mackenzie, of Toronto, head of the Canadian Northern, who was in Buffalo yesterday with a party of capitalists and officials interested in the steam and electric system in which the Canadian Northern is the principal factor. The plan, it is stated, includes the extension of the Canadian Northern, which now stops at Hamilton, to Hamilton, and thence to Niagara Falls (Ont.), where the international boundary would be crossed.

JUST TRY A TEN CENT BOX OF CASCARETS

Insures You for Months Against a Sick Headache, Bile, Constipation or a Bad Stomach.

Put aside—just once—the Salts, Cathartics, Castor Oil or purgative waters which merely force a passage through the bowels, but do not thoroughly cleanse and purify these drainage and alimentary organs, and have no effect whatever upon the liver and stomach. Pure and fresh Cascarets, which thoroughly cleanse the stomach, remove the bile, the indigestion, the fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the decomposed waste matter and poisons in the intestines and bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Bile, Constipation, Indigestion, Sour Stomach or Contaminated bowels. Cascarets belong in every household. Children just love to take them.

BELFAST NOW SCENE OF A DEMONSTRATION AGAINST HOME RULE

London, April 17.—Belfast is to have another great anti-home rule demonstration on Easter Tuesday, two days before the day set for the introduction of the home rule bill in the house of commons. This time there will be no necessity of moving troops into the city, as was the case at the demonstration when Winston Spencer Churchill, first lord of the admiralty, held his now historic meeting in the chief town of Ulster.

An Irish member to make sure that Belfast would not again be put under practically what amounted to martial law, to enable a prominent politician to speak, asked the question the house of commons the other day. The reply of Augustus Birrell, the Irish secretary, was that he thought the Nationalists could be depended upon not to interfere with free speech. The head and centre of the demonstration is Andrew Bonar Law, the leader of the Unionist party. While he will be speaking before the bill is introduced in the commons, the scope of the bill is now fairly well known. The bill itself will not be issued until after the prime minister has delivered his speech in introducing it. Strictly speaking, this introduction is a formal application to the house for leave to introduce and, although the commons never refuse this leave, the bill is not issued until this is granted.

The demonstration in which 120,000 men will take part will be held at the Royal Ulster Agricultural Society's grounds. Since the beginning of the year meetings have been held all over Ulster to protest against home rule, and the meeting on April 9 will be a climax to the series. Then men have been carefully drilled so that the parade and march past will be drawn from the Unionist clubs of Ireland and the Loyal Orange Order. The Unionist clubs organized to fight against Gladstone's home rule bill of 1886 and after that gradually died out. After the last election home rule having been placed as a plank in the Liberal platform, the clubs were reorganized and there are now 206 of them.

The Loyal Orange Order is an older and more powerful organization and is besides permanent. It is estimated that one person in every thirty in Ulster is an Orangeman, while one in fourteen of the Protestant inhabitants of the province belongs to the order.

It is rather interesting to note that the name "Gladstone" again appears among the list of Englishmen who are trying to convert the masses of England to the principle of self-government for the sister Isle. W. G. C. Gladstone, grandson of the "Grand Old Man," and member for Kilmarlock Burghs, has been taking a prominent part in the campaign in England and Scotland. Not long ago he spoke at a demonstration in Trafalgar Square and he has also been addressing meetings of working men.

Mr. Gladstone preaches that home rule is a working man's question. According to his views, not only do the working men of Ireland stand to be benefited but the working people of England stand to benefit by the economic expansion which home rule would give to Ireland.

ELECTRIFY ALL THE ROADS

Geneva, April 8.—Nineteen Swiss deputies, representing all parts of the country, have presented a motion to the federal council to examine the question of accelerating the introduction of electric traction on all the railways in this country which belong to the state. One object is to render the Swiss railways independent of the importation of coal from abroad. The deputies received the assurance that the question would be discussed by the Swiss parliament at an early date. Electric power is very plentiful in this country.
