

GARDHOUSE & CAMPBELL'S FREE ALMANAC.

1853.—12th Mo., DECEMBER, begins on Thursday.—31 days.

When trembling on the doubtful edge of fate
I stand, and stretch my view to either state:
Teach me to quit this transitory scene
With decent triumph and a look serene;
Teach me to fix my ardent hopes on high,
And having lived to thee, in thee to die.

Full ☉ 15th, 8h. 18m. morn. | New ☾ 30th, 0h. 50m. eve.
