of the Charlotte County Agricultural Society. To the Members of the Charlotte County Agricultural Society.

Gentlemen. In accordance with our annua ustom, we now lay before you the accounts of the Treasurer, together with a tabulated state ment of the financial position of the society which we are sure must prove satisfactory, and will now in this our Annual Report, briefly re fer to a few matters which we think may be interest to you, and profitable to us all. In ompliance with, as your committee of manage ment thought, the wishes of a majority of the

nembers of the Society, the hour for com ing the ploughing match was changed from the forenoon to the afternoon, the change appear ed to work very well. The Committee of Management met as fre quently during the past year, as the interests of the Society required, they always embrad any opportunity that presents itself in the im provement of stock, when it is at all within the

means of the Society, they therefore took ad vantage of the Government importation of pur bred sheep to procure a Ram, which was se lected, and purchased for the society by M. J C. Andrews, Esq. The Ram is a very handsome one, and re

In compliance with the regulations of the Department for Agriculture the ram was after having been duly advertised offered for sale at public auction, and knocked down to James Russell, Esq. of the Parish of St Cioix, for \$21. We are quite sure that the ram could not have fallen into better hands. for the intelligent interest taken by Mr. Russell in the improvement of stock, and in agricultural pursuits generally, is well known. and further, the central location of his farm will

It is a source of satisfaction to all right mind ed people that greater interest is being manifested in the parsuit of agriculture which no doubt to some extent is caused by the general depression that so widely prevails in Commen al, Mechanical and Manufacturing intererts People begin to think of the farms that were once productive but which by a reckless system r no system of cultivation were in common phrase "run out" then abai doned, the owner ushing to the towns and cities where they for time secured an ephemeral success, but when the days of stagnation cama, as periodically they will when freights went down, workshops and shipyards closed, and building operatio were suspended, when Saturday night after Saturday night there were no wages to take home. When want begins severely to press and the children cry for fool, then memory reverts to the old farm, which although it was treated so badly, was starved and negligently tilled, yet never refused a return in proportio to the labor expended upon it. Then the de termination is at once formed to return once more to that loving Mother earth, that when make it very convenient for those in the dis- properly cultivated no hard times over caused it to cease yielding its increase. At half past six o'clock, members of the

Society with some guests, sat down to an excellent dinner, in the Megantic Hotel, to celebrate the 59th Anniversary. The President, R. Stevenson Esq., who

we may truly add, is the life and soul of the Society, presided -on his right was A. thinking H. Gillmor M. P., and on the left was J. E. Lynot, M. P. P. The Sheriff, Mr. Paul, and Mr. Magee acted as croupiers. The received with a burst of cheers "which made the welkin ring," followed by the song, "The Campbells are Coming." Mr. plies to the teasts of the Sena'e and House of Commons, and the Logislature of New Brunswick, both speakers avoided burn. ing political questions, and confined them, selves to the toasts. "The Press" was acknowledged by the Editor of the STANDARD. "The Bench and Bar," called forth the eloquence of Mr. Grimmer. Several songs were sung and sentiments given and res-

ponded to; after which the party broke up hoping to be present at our next merry meeting. The dinner was prepared by Mr. Neill in his usual style, and we are obliged thus briefly to notice it, for want of space.

Mr. Alex. Peppard, of Great Village, Nova cotia, threshed 581 bushels of wheat from 4 bushels sown ; variety "Golden Drop." This crop grew on 1% acres of ground, which gives very nearly 15 bushels from 1, and over 33 bushels to the acre.
