to us it we had the Philadelphia system (realty only) Fere, but, as has been men tioned this plan would not be without its drawbacks. - Boston Herald,

Che St. Andrews Standard

SAINT ANDREWS, NOVEMBER 19, 1879.

WARLEKE echoes in Europe are still beard 17 Advertising by the year as may be agreed indeed it will be by the most able diplomacy abusing Germany, and it looks as though these that there is likelihood of a triple alliance be

Capt. James Clark, who has for the past three years been Light-house Keeper of the light on Eand Reef, in the Bay, three miles from St. Andrews, had an apoplectic fit on Tuesday night 11th which was so severe, that he was brought ashore to his residence in town on Wednes lay morning for medical aid and attendance. Dr. Go.e was son for, and saw that it was a hopeless case owing to its severity, and the poor health of the patient. Capt Clark lingered until Wodnesday evening at 6 o'clock when his spirit returned to Him who gave it.

Committee.-R. Stevensoa, J. Mowatt, R. B. The deceased was a Priot in the Province having held a branch for upwards of fifty wears, during which time no accident occurred to any vessel under his charge. He had also acted as Queen's Pilot to severa and in part by agricultural depression, is clearly shown by the September returns of the Board of Trade of Great Britian, just issued. The decline of the imports which gunboat in which Admiral Sir James Hope has been very noticeable for a year past, of the flag-ship "Duncan," visited several Fenian fiasco. He also piloted American productions show a net falling off of 3.3 ships of war which visited this Port. From per cent.; but for September the tables are the captains of these vessels, he received turned, and an increase of 5.1 per cent, is complimentary letters for his ability and recorded. The imports of raw material services. Latterly his health began to fail, until the demand for manufactured goods and with the exception of a few voyages returns. But it is not probable that this to Boston, he remained on shore, until his generation will witness a return to the old appointment as Light Keeper. By his times when the British manufacturer death, an aged widow, one daughter and five sons, mourn the loss of an affectionate statistics on the grain and cattle husband and father, and relatives and trade furnish very good reading matter for friends a kind friend and neighbor. At people on this side of the water. The value the time of his death he was in his 74th of the wheat imports made by Great Britain year. Owing to his father's early death. year. Owing to his father's early death is 43 per cent, more than last year, flour 80 he was left in charge of a large and young

narrow home, which is the lot of all. On Friday last, the flags on the vessels now held, grain growing farms to meet the and at the Marine Hospital were flying at home demand. Of the wheat importations half-mast. At 2 o'clock, P. M., religious service was held at his late residence by the Rev. Mr. Crawley; after which the Owing to a brisk demand in this country funeral took place, a large number of the tember 90,000 tons more than last year, inhabitants paying their last tribute of 73,500 tons of which went to the United respect by following the remains to the Cemetery.

by many in St. Andrews. Very few of the

articles. There is a tendency in the Eng-lish markets, as these figures show, to hold on to the old trade of manufacture! goods, which will in part meet the heavy lills for foreign food supplies, and in this resiprocity England and America will find their emergency would know what to do, should a vessel meet with a disaster near the light house

Two tramps have been visiting severa towns in this Province, for the estensible to foreign purpose of selling a patent "cement," which September 30 they shapped 30 foreign particle centers, where \$256.846.277 more than they does not possess the property of sticking good security, and now-a-days, all that imported or ever two thirds of a million dollars for every day in the year, not an pay their hotel bill.
