will be held on July 7th. A vote of thanks was extended to the

officers for the past year. EDMONTON ROAD.

To the Editor: I feel compelled to draw the attention of the public to the great neglect of this important road, by the city council during the past 3 or 4 years. For several months in the year it is perfectly impassible, and tradesmen cannot get through to delived goods. There are no sidewalks in the vicinity, the residents having to wade through mud and water to get to their houses. And yet they are paying from \$10 to \$20 per year in taxes, 1 am told. The district should not have been taken into the city, and taxed heavily, if nothing was to be done to improve the road and give, at least,

a two-plank sidewalk. If the road was made decently passable a large amount of vehicular traffic woud go through from all the north and northeastern parts of the city to save distance; then the car track would be avoided and a level road secured. At the present time lumber is cheap and so is labor, therefore there is no excuse for the gross neglect which has made the above road one of the most disgraceful in the city. Necessary matters are not done, while four-feet sidewalks are run for considerable dis-

Unfortunately on the same day and same hour as the examination was taking place on Galiano, a similar pro gramme was in progress in the school house on Mayne Island, so that it was impossible "to take all in." However, the worthy teacher, Mr. James Sinclair, had an excellent programme prepared as usual with which to entertain the parents and his many friends. The children during the past year have undoubtedly made great strides, and Mr. Sinclair as a teacher cannot be spoken of too highly. Rolls of honor were given as follows: Alice Kathleen Heck, proficiency; David Bennett, deportment; Gertie J. Sinclair, punctuality and regu-

Crete's New Governor-Pilgrims in England - Dr. Jim's Brother Murdered.

Paris, June 30.—Emile Arton, implicated with Dr. Rerz and the late Baron von Reinach in the frauds on the Panama canal company, has been sentenced to six years at hard labor. M. Arton disappeared from Paris very soon after the Panama scandal promised to be made the subject of a judicial inquiry and was extradited from England last year. Arton was supposed to be the gobetween of those who paid and those who received bribes to influence legislation favorable to the company, and the Point Comfort and Mayne Island hotels are now in full blast, health and pleasure seekers will find every accommodation at either house.

GOLDEN.

Hon favorable to the company, and the knowledge he is supposed to possess involves the welfare of a large number of people in France. He managed to evade the police for a long period by his cleverness in disguising himself. He had long been popular in the salons of Paris and as an amateur actor and the knowledge and skill gained in that way was made use of to make himself unre-cognizable. His sentence closes anoth-

er chapter in the long story of the Pan-

ama canal scandals. Constantinople, June 30 .- George Berpointed governor of Crete in succession to the Mussulman governor, Abdullah Pasha.
