When a woman suffers from female weakness and irregularity or other forms of womanly disease, the effect is cer-tain to be marked in her nervous sys-tem, the general effect being, as in Mrs. Woodin's case, "nervous headaches, rest-lessuess at night" and a run-down condi-tion. It is simply common sense then which says if you cure the female weak-ness, irregularity, etc., you will cure the nervousness, sleeplessness and other con-sequences of womanly disease. Tr. Pierce's Pavorité Prescription cures the general health. It establishes regu-namination and ulceration, and cures female weakness. It cures headache, nervousness, sleeplessness, etc., by cur-ing the womanly diseases which causes these ailments. Sick women are invited to consult Dr. Pierce, by letter, *free*. N. S., at the age of 5 years. He was a stalwart Christian and a staunch Free Baptist. In all denominational doings he felt a lively interest. For many years he regularly attended the an-nual district meeting, and the general conference, and was especially inter-ested in the home mission work of the

denomination. He was baptized on the 6th of June, 1847, being one of the first Free Baptists to observe the ordinance at the Old Fort, in the waters of the Bay of Fundy, where he had since witnessed the immersion of hundreds of candidates. One day while on his death bed he was talking to his pastor, giving some reasons why he was what he was, when he said in substance: "God converted me into what I am, and I have never seen in all the years of my experience a single reason for making any change either in my doctrinal beliefs, or in my manner of worship. God converted me into the faith that I have always held, and in which I am about to die, and humanly speaking, why should I be other than a true Free Baptist? I was con-verted under the labors of the late Rev. Ezekiel McLeod, the founder of the Religious Intelligencer, was baptiz-ed by Rev. Joseph Noble, our oldest minister, was nursed by the late Deacon B. J. Underhill, a godly man of tender spirit, and for more than forty years have fed on your ministry." soon after he professed his fath by

baptism, he united with the Free Bap-tist church on Waterloo street. When the Carleton Baptist church was or-ganized in January, 1855, he was corn and potatoes will weigh 3 lbs., as chosen leader and made a deacon which office he filled until his death eretofore. Every farmer may apply, He organized the Sabbath school in Carleton within two days of the time of the organization of the church. His life-long good works showed the deep interest he felt in the church of which he was so prominent a member. He built the first church, known as the "White Church," at a heavy cost and

great inconvenience to his personal estate. The church was ruthlessly

THE CONQUEROR OF CATARRH. If you have Catarrh, let me conquer it for you.. If it isn't overpowerd now, it's bound to get the best of you in the end. You think not? Lots of people have made that mistake. They say, "Oh, it doesn't amount to much-it's

in the end. You think not? Lots of peol le have made that mistake. They say, "Oh, it doesn't amount to much-it's only Catarrh." So on they go, adding to it just a little every week. They never notice how it's creeping along through the system. At last there comes a day when "only Catarrh" turns out to be a pretty serious thing. But leaving out the danger, there's another reason for getting rid of it. Catarrh is an unclean disease. To put it plainly, your kawking and splitting and bad breath make you a nuisance to your friends. It's not pleasant for them to have you around. That sounds harsh-but it's the truth. Of course they don't tell you to. They don't want to make you feel badly. Just the same, no one, not even a relative, enjoys being near a person with a foul, four the state. There's not the elightest doubt it burts you terribly with outside neonle-with the neonle with the neo fetid breath. There's not the slightest doubt it hurts you terribly with outside people-with the people you meet

Do you think it no use to try to cure Catarrh? Some physician whose knowledge on the subject is as limited as it is unreliable, may have told you so. Perhaps you tried to cure it yourself with some of the many nestrums

> Then you failed, for such things ply cannot cure Catarrh. You see, it's a disease that affects different persons in different ways. It demands indi-vidual treatment. You simply haven't done the right thing for it. But don't be discouraged. Seek help in the proper place. Write to me at once and I will give you FREE CONSULTATION ADVICE. I offer you counsel, sympathy, and aid, without charge. This treacherous disease has been my life-study and I am familiar with its workings from start to finish. I can tell you how to cure it safely-quickly-permanently. The thousands to whom I have brought relief, and they may be found

in every part of North America, gladly testify to my wholeheartedness, sin-ercity of purpose, and the wonderful cures I have made. I will gladly send you the names of many people I have cured that live right near to you. Following are some of the common symptoms of
