

### RAILWAY MEN REFUTE IMPUTATION

In a Statement Declare They Are Not Exploiting the Public and Have Been Misrepresented.

Toronto, Ont., Aug. 18.—Declaring that certain evidence regarding the "five hour day" as given before the Dominion Railway Commission in connection with the application for an increase in freight rates has been misunderstood and used to make it appear that the railway men are exploiting the public and are responsible for the further rate increase, a statement has been issued by the executive of the unions. The principal contradictions are as follows:

- 1.—The basic five-hour day for passenger engineers is not equivalent in any way to the eight-hour day in industries. It is a minimum guaranteed day measurement for special occasions, very seldom used. The general rule is that engineers in the passenger service are paid on a mileage basis. Their hours of work are most irregular, often extending from 12 to 18 hours on a single trip.
- 2.—There is not a great deal of overtime in the wages of trainmen. Engineers operating passenger trains do not get time and a half for overtime. The only men who receive this are the train and engine men in the slow freight service, which is not the general rule.
- 3.—It is true that time as well as mileage is one of the factors that partly determine pay, and that delay is sometimes paid for. But this is only on special occasions, and it is untrue to say that there is any inducement for engineers to run slowly or to strive for delays. The inducement is all for operating on time.
- 4.—The present salaries for engineers run from \$200 to \$250 a month. Their hours are usually very long and irregular and they are the poorest paid of the highly skilled men engaged in the railway service.

### WARSAW SAVED FROM BOLSHIEVIK

Poles Now in Possession of Key to Warsaw Defenses — The Fork Between the Narew and Bug Rivers.

Paris, Aug. 18.—Warsaw now seems to be saved from the Bolsheviks. President Pilsudski's army no longer are obliged to fight a defensive battle, and the bold offensive on both wings has reached the first objectives, and the Poles appear to be pausing before attempting to develop their success. The offensive on the left wing is being personally led by the French General Henry and Bilotte, and already has yielded important results. It has once more put the Poles in possession of the key to the Warsaw defenses—the fork between the Narew and Bug Rivers while the forces advancing toward Miawa, which have reached Tschernoff, 12 miles to the south of Miawa, will force the Bolsheviks marching toward Biala and Thorn to beat a hasty retreat and consequently reopen the direct railroad line to Danzig. But the manoeuvre on the right wing, along the line of Gwastyn and Paratsoff, between the Vistula and the Bug, is the more interesting of the two from the strategic viewpoint, because it threatens the communications of the main Bolshevik forces. Swelled by troops, freed by shortening the front in the Brody region, the movement already has gained rapid headway and driven the Bolsheviks back all along the line toward Brest-Litovsk for distances varying from 25 to 50 miles.

### OPERATION WAS NOT NECESSARY

"Fruit-a-tives" Restored Her To Perfect Health.

153 Papezian Ave., Montreal.  
"For three years, I suffered great pain in the lower part of my body, with swelling and bloating. I saw a specialist who said I must undergo an operation. I refused.  
I heard about "Fruit-a-tives" so decided to try it.  
The first box gave great relief, and continued the treatment. Now my health is excellent—I am free of pain—and I give "Fruit-a-tives" my warmest thanks."  
MRS. F. GAREAU.  
50c a box, 6 for \$2.50, trial size 50c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

### BRITISH WORKING CLASS INSULTED

Expulsion from Paris of Labor Leaders Regarded as Boast for Councils of Action in France.

Paris, Aug. 18.—The expulsion from Paris of William C. Adams, Labor member of the British parliament, and Harry Gosling, leader of the British transport workers, would do more for the establishment of Councils of Action in France than a year's propaganda. Marcel Cachin, Socialist member of the French Chamber of Deputies, told the Associated Press today. M. Cachin has just returned from Moscow strong in advocating that the French Socialist party join the Third Internationale. Referring to the incident yesterday, when Adams and Gosling, who had come to Paris for labor conferences, were requested to leave, M. Cachin said:  
"It is the entire British working class which has been insulted. Our British friends had come to Paris in accord with the French workers and in order to consider the most efficient means to prevent war and conclude a definite peace with Russia. If they believe that by expelling delegates, they can prevent us from concerted action with British Labor they are mistaken. Nothing can prevent an international union of proletariats. Decidedly, were our ministers in the pay of the Bolsheviks, they could little better work for them by expelling the working classes of both France and Great Britain."

### STMR. ROYAL GEORGE TO FURNESS WITHY CO.

Vessel is Likely to Go on the Boston-Liverpool Route.

Montreal, Aug. 18.—There is a rumor in local shipping circles that the steamer Royal George, of the Cunard Line, has been acquired by the Furness-Withy Company. Neither company had anything to say on the matter today, but on reliable information it appeared that the vessel is likely to go on the Boston-Liverpool route of the Furness Warren line.  
The Canadian Pacific Mail was reported inward bound, sixty-nine miles east of Belle Isle today and is expected at Quebec on Friday morning.

### ECZEMA

You are not experimenting when you use Dr. Chase's Ointment. It relieves at once and gradually heals the skin. It is the only Ointment free if you mention this paper and send 2c stamp for postage. Use a 2c stamp for postage. Use a 2c stamp for postage. Use a 2c stamp for postage.

### WOULD LOAD PUBLIC WITH MORE BURDENS

United States Shipping Board Asked to Allow Increased Rates for Great Lakes and Coastwise Carriers.

Washington, Aug. 18.—Great Lakes, coastwise and Gulf carriers today urged the United States Shipping Board to grant applications involving approximately sixty steamship lines for rate increases in conformity with advances in freight allowed the railroads by the Inter State Commerce Commission. A majority of the lines are now operating at deficits which threaten their existence, Examiner N. E. Mangum was told by witnesses.

### RETAIL MERCHANTS OPPOSE PETITION

Montreal Branch to Fight Application of Bell Telephone Co. for Increased Rates.

Ottawa, Ont., Aug. 18.—Affirming that the proposed increase in business rates, which the Bell Telephone Company is applying for before the Railway Commission, is unreasonable and excessive, and that the increase, if granted, would hit the retail trade harder than any other line of business, the retail merchants of Ottawa, at a special meeting of the local branch of the Retail Merchants' Association of Canada, held today under the chairmanship of A. J. Fernman, president of the Ottawa branch, voiced their opposition to the increase in strong terms.  
As a result of the meeting, the decision was reached to ask the Dominion Board of the Retail Merchants' Association not to endorse the proposed increase and to look after the interests of the retail merchants, from coast to coast, when the Bell Telephone Company's application comes before the railway commission.

### PROHIB. CAMPAIGN OPENS IN SCOTLAND

London, Aug. 18.—(By Canadian Press)—A vigorous campaign for prohibition along local option lines has been opened in Scotland and promises well for several centres are voting for prohibition.  
It is not forgotten, however, that

### OFFICER CRAWFORD MAKES STATEMENT

Robert Crawford, who reported the Mayor and others for speeding, takes exception to the report that "the law was not properly interpreted." The officer informed The Standard last night that the place in question was on the Lock Land road, near Treadwell's Lake, that there were from twelve to fifteen summer cottages there and quite a number of children. The reason he went to this place was because of complaints received from several residents regarding speeding. The Government has a sign at the place putting the speed limit at 20 miles. He says that the space in question was measured and is 366 feet, which should not be covered in less than 12 1/2 seconds, and according to a stop watch the Mayor's car covered the distance in eight seconds.

## Winter Furs at Summer Prices

PERSONAL comfort is an important consideration with everybody. When Winter winds begin to blow, one naturally thinks of the cozy comfort of nice, warm furs. But how much more practical and economical it is to think of Winter comforts while still enjoying the warmth of Summer.

### Our August Fur Sale

offers many opportunities for the exercise of this practical policy.  
Pre-season selling helps to reduce the costly overhead of idle sales periods in Summer. This saving is passed along to our customers in lower prices that will be out of the question this coming Winter.  
That is putting the facts plainly,—but why shouldn't you know the truth? Those who fail to buy furs now are sure to pay more for them next Winter, for higher prices on furs are inevitable.  
Practical economy should prompt you to anticipate your Winter needs and buy furs at Summer prices.

#### Coats

Squirrel, length 36, regular \$800, for \$720.  
Hudson Seal, 35 in. long, skunk shawl collar, bell cuffs and 12 in. border. Regular \$770, for \$697.50.

### Canadian Women's Hostel Committee

Mrs. F. H. Kneil of Ottawa Arrived Yesterday and Made the Executive Last Evening—Formal Discussion of the Work Here.

Mrs. F. H. Kneil, of Ottawa, who arrived in St. John yesterday, with the executive of the Canadian Women's Hostel Committee last evening. Mrs. H. A. Powell, president of the Hostel, presided, and Mrs. Kneil, who is secretary-treasurer of the Canadian Council of Women for Immigration, talked informally, discussing the working of the Hostel in St. John and some of its problems. She expressed herself as greatly pleased with the success of the work in St. John and felt that although the members of the Hostel here were few in number, the value of such work is very great. Many concrete cases where help has been given were cited.

Mrs. Kneil appealed earnestly to the members last evening to give greater attention to the following work, pointing out the importance of the provision of having women fully settled in the right sort of homes in New Brunswick.

She hoped that more of the women organizations would interest themselves and felt that their members had only to realize the patriotic importance of the work to give their services to the care of overseas women coming to settle in Canada.

A complete report of the work of the Hostel last year in St. John was made out, and will be submitted at the annual meeting of the Canadian Council of Women for Immigration, which will be held in Ottawa in September. Mrs. H. Lawrence, who the provincial representative for New Brunswick, will attend this meeting at which the methods of conducting the work will be discussed and other questions solved.

Mrs. Kneil, who came from Quebec yesterday, returns here for a few days before going back to Ottawa.

### INDUSTRIAL CHAOS IN RUSSIA SHOWS

Only Six Engines for Each  
Miles of Railway Lines  
Operating in May.

### COAL OUTPUT DECLINING

Poor Condition of Every  
Industry Confirmed by Russian Report.

(Copyright, 1920, by Public Ledger Company.)

London, Aug. 18.—In view of the expected termination of political-commercial negotiations with Russia, the British press is devoting considerable speculative attention to the probable condition of specific industries in the country when the trade barriers are finally removed. That all will not be as bright as it seems in the Russian situation is confirmed by a statement emanating from M. Bukharin, close associate and supporter of Lenin, to the effect that the absence of foreign imports has brought industrial machinery in Russia to the verge of amputation. This is, perhaps, something in the nature of a warning, as it may also possibly account, to some extent at least, for the now apparent elimination of the Soviet government's tread the paths of peace. The depressing factors in the Russian situation at it will confront the foreign trade will be the chaotic state of transport and the shortage of fuel. The well-known Russian economic reviewer, Ekonomicheskaya Zhizn, has been conducting an independent inquiry into the present condition of the lead industries, the results of which may be briefly summarized.

According to this authority, a number of railroad wagons and engines in working order per sixty-six miles of line were respectively 548 and 10 in May, 1920.

Arriving at the question of fuel, the report states that the shortage of fuel is a serious problem.

### 'TIZ' FOR ACHING SORE, TIRED FEET

Use "Tiz" for tender, puffed up, burning, calloused feet and corns.

People who are forced to stand their feet all day know what sore, tender, aching, burning feet mean. They use "Tiz" and "Tiz" cures their feet. It keeps feet in perfect condition.
