Relax completely in the informal but invigorating atmosphere of the sauna, the ideal thing after a hard day.

A licenced instructor is on hand at the pool to look after the kids and help them to learn to swim safely.

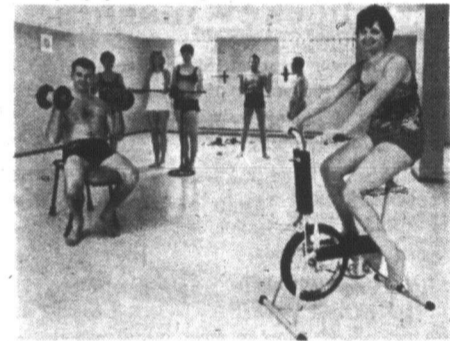

We don't do things by halves, no men's or ladies' nights only in our sauna, but one sauna for the men and one for the ladies, every day and night.

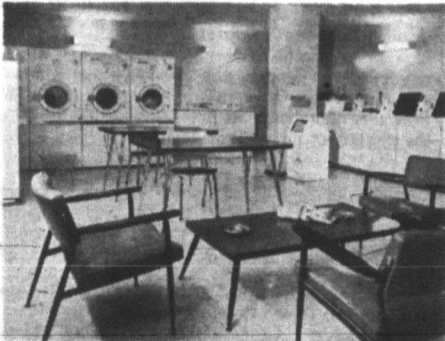

This beautiful living room of one of our tenants gives some idea how many of the apartments are laid out.

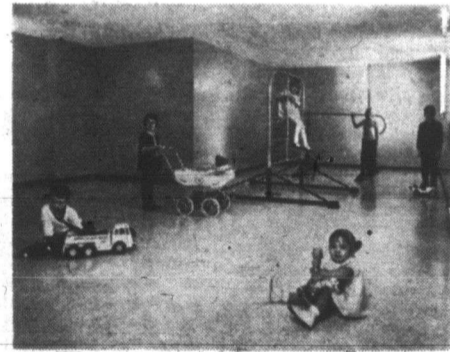

Who regulates the heat in your Centennial Towers suite? You do! In fact every single room has its own thermostatic control.

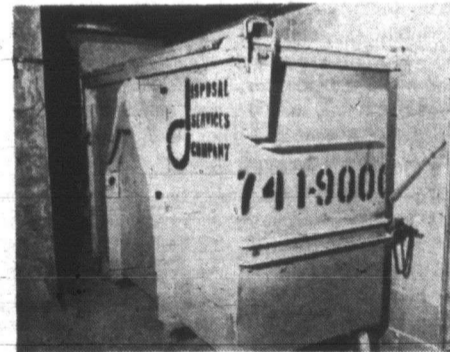

Want to lose weight or put on muscle? No need to join an expensive health club. Centennial Towers has its own fully equipped gymnasium.

Our Laundry room houses the ultimate in modern equipment; no more dragging the dirty clothes down to the laundromat.

Where do busy-Moms leave the kids when they're doing their weekly wash at Centennial Towers? Across the hall in the playroom of course.

Does Air Pollution bother you . . . it should! At Centennial Towers all garbage is electronically compacted and then removed. No burning, no pollution.
