Congratulations

born on a
birth day and
the fitting tribute being
paid to me? Consider
most brilliant thinkers
you are constant
admirer and long
but probably almost
forgotten old friend

This brings a very special wish
In honor of your day
To hope that it turns out to be
Just grand in every way,
And with it comes a wish for joy
In days to follow, too,
And both are most sincerely meant
Because they're meant for you.

Happy Birthday
Love to Isabel -
